

SOLICITATION, OFFER, AND AWARD  (Construction, Alteration, or Repair)	1. SOLICITATION NO. <b>NNK16570600R</b>	2. TYPE OF SOLICITATION <input type="checkbox"/> SEALED BID (IFB) <input checked="" type="checkbox"/> NEGOTIATED (RFP)	3. DATE ISSUED <b>December 23, 2015</b>	PAGE 1 OF 99

IMPORTANT — The "offer" section on the reverse must be fully completed by offeror.

4. CONTRACT NO. <b>TBD</b>	5. REQUISITION/PURCHASE REQUEST NO. <b>4200570600</b>	6. PROJECT NO. <b>Install LH2 Vent In-Line Liquid Separator, PCN 99015</b>
-------------------------------	--	---

7. ISSUED BY:  <b>JOHN F. KENNEDY SPACE CENTER, NASA PROCUREMENT OFFICE CODE: OP-ES KENNEDY SPACE CENTER, FL 32899</b>	8. ADDRESS OFFER TO:  <b>JOHN F. KENNEDY SPACE CENTER, NASA PROCUREMENT OFFICE CODE: OP-ES Bldg M6-0399, Attn: Randall A. Gumke KENNEDY SPACE CENTER, FL 32899</b>
--	--

9. FOR INFORMATION CALL:	A. NAME <b>Randall A. Gumke, Contracting Officer</b>	B. TELEPHONE NO. (Include area code) (NO COLLECT CALLS) <b>(321) 867-3322</b>
--------------------------	---	--

#### SOLICITATION

NOTE: In sealed solicitations "offer" and "offeror" mean "bid" and "bidder".

10. THE GOVERNMENT REQUIRES PERFORMANCE OF THE WORK DESCRIBED IN THESE DOCUMENTS (Title, Identifying no., date):

The contractor shall furnish all labor, equipment, materials and related activities necessary for the Installation of LH2 Vent In-Line Liquid Separator, LC-39B at Kennedy Space Center, Florida.

11. The Contractor shall begin performance within (10) calendar days and complete it within (365) calendar days after receiving [ ] award, [ X ] notice to proceed. This performance period is [ X ] mandatory, [ ] negotiable ( See Article F.1b)	
12A. THE CONTRACTOR MUST FURNISH ANY REQUIRED PERFORMANCE AND PAYMENT BONDS. (If "YES," indicate within how many calendar days after award in item 12B.)  <b>YES</b>	12B. CALENDAR DAYS  <b>10 calendar days</b>

13. ADDITIONAL SOLICITATION REQUIREMENTS:

A. Sealed offers in original and 2 copies to perform the work required are due at the place specified in Item 8 by **3:00 P.M.** local time **January 25, 2016**. If this is a sealed bid solicitation, offers will be publicly opened at that time. Sealed envelopes containing offers shall be marked to show the offeror's name and address, the solicitation number, and the date and time offers are due.

B. An offer guarantee is required.

C. All offers are subject to the (1) work requirements, and (2) other provisions and clauses incorporated in the solicitation in full text or by reference.

D. Offers providing less than 60 calendar days for Government acceptance after the date offers are due will not be considered and will be rejected.

<b>OFFER (Must be fully completed by offeror)</b>										
14. NAME AND ADDRESS OF OFFEROR (Include ZIP Code)						15. TELEPHONE NO. (Include area code)				
CODE                      FACILITY CODE						16. REMITTANCE ADDRESS (Include only if different than item 14)				
17. The offeror agrees to perform the work required at the prices below in strict accordance with the terms of this solicitation, if this offer is accepted by the Government in writing within _____ calendar days after the date offers are due. (Insert any number equal to or greater than the minimum requirement stated in Item 13D. Failure to insert any number means the offeror accepts the minimum in Item 13D.)										
AMOUNTS		<b>TASK 1</b> Install LH2 Vent In-Line Liquid Separator, LC-39B				\$ _____				
18. The offeror agrees to furnish any required performance and payment bonds.										
19. ACKNOWLEDGEMENT OF AMENDMENTS (The offeror acknowledges receipt of amendments to the solicitation - give number and date of each)										
AMENDMENT NO.										
DATE										
20A. NAME AND TITLE OF PERSON AUTHORIZED TO SIGN OFFER (Type or Print)						20 B. SIGNATURE			20C. OFFER DATE	
<b>AWARD (To be completed by Government)</b>										
21. ITEMS ACCEPTED:										
<b>CLIN</b>		<b>DESCRIPTION</b>				<b>JOB</b>		<b>UNIT PRICE</b>		
<b>01</b>		<b>TASK 1</b> Install LH2 Vent In-Line Liquid Separator, LC-39B				1		\$ _____		
22. AMOUNT (TOTAL AWARD)  \$ _____						23. ACCOUNTING AND APPROPRIATION DATA				
24. SUBMIT INVOICE TO ADDRESS SHOWN IN (4 copies unless otherwise specified)				ITEM  27		25. OTHER THAN FULL AND OPEN COMPETITION PURSUANT TO  [ ] 10 U.S.C. 2304(c) ( ) [ ] 41 U.S.C. 253(c) ( )				
26. ADMINISTERED BY <b>JOHN F. KENNEDY SPACE CENTER, NASA</b> <b>PROCUREMENT OFFICE CODE: OP-ES-B</b> <b>KENNEDY SPACE CENTER, FL 32899</b>				CODE OP-CS-B		27. PAYMENT WILL BE MADE BY <b>NASA Shared Services Center (NSSC)</b> <b>Financial Management Division (FMD) – Accounts Payable</b> <b>Bldg. 1111, C. Road</b> <b>Stennis Space Center, MS 39529</b>				
<b>CONTRACTING OFFICER WILL COMPLET ITEM 28 OR 29 AS APPLICABLE</b>										
[ ] 28. NEGOTIATED AGREEMENT Contractor is required to sign this document and return _____ copies to issuing office.) Contractor agrees to furnish and deliver all items or perform all work requirements identified on this form and any continuation sheets for the consideration stated in this contract. The rights and obligations of the parties to this contract shall be governed by (a) this contract award, (b) the solicitation, (c) the clauses, representations, certifications, and specifications incorporated by reference in or attached to this contract.						[ ] 29. AWARD (Contractor is not required to sign this document.) Your offer on this solicitation is hereby accepted as to the items listed. This award consummates the contract, which consists of (a) the Government solicitation and your offer, and (b) this contract award. No further contractual document necessary.				
30A. NAME AND TITLE OF CONTRACTOR OR PERSON AUTHORIZED TO SIGN (Type or Print)						31A. NAME OF CONTRACTING OFFICER (Type or Print)

The total firm fixed price of this contract is **TBD**.

(End of Clause)

**B. 3 PROJECT DELIVERABLES (MAY 2014)**

Contract deliverables (manuals, reports, plans, and other written documentation) to be provided under this contract are identified in Section J, Attachment J-A, Project Deliverables. The costs associated with providing the data in Attachment J-A is included in the firm-fixed price of the awarded contract. Nothing contained in Attachment J-A shall relieve the Contractor from furnishing data called for by, or under the authority of, other provisions of this contract, which are not identified and described in Attachment J-A.

(End of Clause)

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION C – DESCRIPTION/SPECIFICATION/WORK STATEMENT**

**C. 1 SCOPE OF WORK (MAY 2014)**

The Contractor shall furnish all management, supervision, labor, transportation, facilities, materials, tools, disposal, coordination of subcontractors, documentation, and equipment (except any property, including utilities, specified in the Schedule to be Government-Furnished) and perform all work for the Task(s) named below, and as defined in the Technical Documentation listed below entitled "Contract Drawings, Maps and Specifications," and in accordance with the terms and conditions of this Contract, and within the performance schedule set forth in FAR clause 52.211-10 entitled "Commencement, Prosecution, and Completion of Work."

<b>Line Item</b>	<b>Description</b>
0001	Task 1 – Install LH2 Vent In-Line Liquid Separator, LC-39B

(End of Clause)

**C. 2 CONTRACT DRAWINGS, MAPS, SPECIFICATIONS, AND/OR STATEMENTS OF WORK (MAY 2014)**

- (a) Five sets of full scale contract drawings, maps, specifications, and/or statements of work (excluding applicable publications incorporated into the technical provisions by reference), plus one CD or DVD containing electronic, portable document format (PDF) versions, will be furnished at award to the Contractor without charge. The work shall conform to the following contract drawings, maps, specifications, and/or statements of work, attached hereto and made a part hereof:

**Specification 79K39949** titled "Install LH2 Vent In-Line Liquid Separator, LC-39B", dated October 20, 2015, pages 1 through 283.

**Drawing 79K39948**, titled "Install LH2 Vent In-Line Liquid Separator, LC-39B", dated October 20, 2015, sheets 1 through 45.

- (b) Addenda to Specifications, Drawings, Maps, and/or Statements of Work:

**Drawing 79K39948:**

Add the following General Note to Plan view sheet S-12

"The access platform above the LH2 vessel shall allow for 0.5 inch clearance allowance for longitudinal and radial expansion and /or contraction of the LH2 vessel when temperature cycling in cryogenic thermal conditions."

Add the following General Notes to sheet P-5

"3. The ASME Certification Mark shall be stamped on the exterior of the LH2 vessel and conform to the requirements of the latest edition of the ASME Boiler and Pressure Vessel

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION C – DESCRIPTION/SPECIFICATION/WORK STATEMENT**

Code Sections I, IV, VIII, X, and/or XII, and takes precedence over other associated requirements.

4. The stainless steel LH2 vessel shall have zero-corrosion allowance.”

(c) "Or Equal" Items”

Throughout the technical specifications and drawings of this contract, where certain manufacturers’ trade names and model numbers are specified and followed by the term "or equal," the manufacturer's name and data as specified shall represent the minimum standard type, quality, and capacity acceptable for incorporation into the work covered by this contract. The products of other manufacturers will be considered as being acceptable, provided that such products fully meet or exceed all minimum structural or use and operational features of the particular manufacturers’ items as specified, and provided that the other manufacturers’ items are easily interchangeable and can be adequately incorporated within the allocated space in the building or structure. In all cases, the acceptability of "or equal" items shall be at the Contracting Officer's discretion, based upon data submitted by the Contractor in accordance with the requirements under the Shop Drawings Clause.

- (d) Omissions from the drawings or specifications, or the omission or misdescription of details of work which are manifestly necessary to carry out the intent of the drawings and specifications, or which are customarily performed, shall not relieve the Contractor from performing such omitted or misdescribed details of the work but they shall be performed as if fully and correctly set forth and described in the drawings and specifications.
- (e) The Contractor shall check all drawings furnished him immediately upon their receipt and shall promptly notify the Contracting Officer of any discrepancies. Figures marked on drawings shall in general be followed in preference to scale measurements. Large scale drawings shall in general govern small scale drawings. The Contractor shall compare all drawings and verify the figures before laying out the work and will be responsible for any errors which might have been avoided thereby.

(End of Clause)

**C. 3 REQUEST FOR INFORMATION/CLARIFICATION (RFIC) (MAY 2014)**

The Contractor shall promptly report to the Contracting Officer all problems or conflicting technical information encountered during the contract performance so that the Government may provide solutions or appropriate direction. Such problems shall be reported on KSC Form No. 8-268, "Request for Information/Clarification," to be provided by the Government. A copy of each RFIC will be provided to the Contracting Officer’s Representative (COR) concurrently with the transmittal to the Contracting Officer. The Contractor shall log and control each Request for Information/Clarification (RFIC), including those generated by subcontractors.

(End of Clause)

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION C – DESCRIPTION/SPECIFICATION/WORK STATEMENT**

**C.4 DEVIATIONS AND WAIVERS (MAY 2014)**

- (a) When the Contractor proposes to perform work which does not conform to the requirements of the applicable contract drawings and specifications, the Contractor shall submit to the Contracting Officer for approval, a written request for deviation or request for waiver on the nonconforming work.
- (b) All requests by the Contractor shall be submitted on KSC Form 8-69 (Contractor Request to Use Nonconforming Parts or Material) fully executed including an offer of consideration to the Government. The request must be technically supported by justification, rationale, design considerations, calculations and other data which permits ready and conclusive evaluation by the Government as to acceptability or nonacceptability.
- (c) Where a requested deviation or waiver on a particular aspect of the work has a relation to, or affects, other aspects of the work, those other aspects of the work shall be clearly identified and referenced. And, if the requested deviation or waiver necessitates a deviation or waiver on other aspects, requests for all such deviations and waivers must be submitted concurrently.
- (d) Any request not submitted in strict accordance with this provision will not be considered.

(End of Clause)

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION D – PACKAGING AND MARKING**

**NOT APPLICABLE TO THIS SOLICITATION/CONTRACT**

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION E - INSPECTION AND ACCEPTANCE**

**E. 1 LISTING OF FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) CLAUSES INCORPORATED BY REFERENCE**

**FAR 52.246-12 INSPECTION OF CONSTRUCTION (AUG 1996)**

**E. 2 BASIC INSPECTION SYSTEM (MAY 2014)**

Pursuant to FAR Clause 52.246-12, Inspection of Construction:

The Contractor shall maintain and implement a basic inspection system as identified below:

(a) Definitions:

"Inspection" means examining and testing supplies or services (including, when appropriate, raw materials, components, and intermediate assemblies) to determine whether they conform to contract requirements.

"Testing" means that element of inspection that determines the properties or elements, including functional operation of supplies or their components, by the application of established scientific principles and procedures.

"Independent Testing Laboratory" means an independent organization, accepted by the Contracting Officer, engaged to perform specific inspections or tests of the work, either at the site or elsewhere, and report the results of these inspections or tests.

- (b) The inspection system shall be documented to ensure and provide objective evidence of quality control in the form of records of inspections and test results. The system shall also ensure that nonconforming articles or materials are discovered, documented, and controlled through effective remedial and preventive actions.

The Contractor may use, at his option, in whole or in part, his existing higher level inspection system or quality assurance program provided such system is revised and identified to the requirements below.

- (c) The Contractor shall provide a narrative description of an inspection system which provides for compliance with the quality requirements and technical criteria of the contract.

(1) The description shall be submitted for review by the Contracting Officer not later than 7 days after contract award.

(2) The description shall address each of the Basic Inspection System Requirements identified in paragraph (d) below. This submittal shall address both the general inspection system that will be used during the performance of all work under the contract, including but not limited to those items identified under paragraphs d(1), d(2)(iv), d(2)(v), and d(2)(vi) below.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION E - INSPECTION AND ACCEPTANCE**

- (d) Basic Inspection System Requirements: The Contractor shall describe how each of the following requirements is to be satisfied and what records will be maintained, both on-site and offsite.
- (1) The Contractor shall identify the individual responsible for on-site contact and communication relative to implementation and operation of the inspection system. The name of this individual shall be provided, in writing, to the Contracting Officer's Representative (COR).
- (2) Standard requirements:
- (i) A purchasing control system which ensures that all purchasing documents, including those of subcontractors and suppliers, are traceable to the drawings, specifications, and approved submittal requirements.
  - (ii) A receiving inspection system with documented evidence of Contractor inspection traceable to the procurement documents.
  - (iii) A system of controls and records for handling, recording, identification and disposition of nonconforming articles and materials.
  - (iv) A system of identification of inspections required by each specific section of the specifications and drawings and what records will be maintained.
  - (v) Identification of tests to be performed, including test procedures, test records, and the independent testing organization(s) be utilized.
  - (vi) Additional requirements (if included in the drawings, specifications, or contract provisions):
    - (A) Certification or recertification of personnel and qualification of procedures.
    - (B) Management and accountability of Government furnished equipment, components, or materials.
    - (C) Calibration of inspection test gages, tools, measuring instruments, and independent laboratories to be utilized.

(End of Clause)

**E. 3     SYSTEMS ACCEPTANCE AND TESTING (MAY 2014)**

Pursuant to FAR 52.246-12, Inspection of Construction:

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION E - INSPECTION AND ACCEPTANCE**

Systems tests shall be performed as described below:

(a) SYSTEMS

Systems tests shall be performed on fire protection, fire suppression, HVAC, compressed air and all other assemblies of components which must be tested as an inter-related whole to verify proper functioning.

(b) SYSTEM TEST PROCEDURES

A test procedure and a recording form which documents every step of the system test shall be submitted for approval under the terms of the "Shop Drawings" clause of this contract. Test procedures must be approved prior to requesting a date for testing. Each step in the test procedure shall be witnessed by the Contracting Officer's Representative who shall then date and sign the approved recording form for each step witnessed.

The procedure shall consist of step by step instructions for testing all specified system parameters, system components, and proper overall functioning of the system.

(c) SYSTEM TESTING AND ACCEPTANCE

The following tests shall be performed by the Contractor in strict accordance to the approved test procedure described above.

- (1) Functional Test -- This shall be an "in house" test to verify proper installation and functioning of the system and its components. This functional test shall be performed in the presence of Government inspectors and shall be repeated until the Contractor can perform one full test without device or system malfunction.
- (2) System Acceptance Test -- After successful completion of the functional testing the system shall be tested formally with full documentation using the previously approved recording form. The Contractor shall notify the Contracting Officer, in writing, forty eight (48) hours prior to system acceptance testing. The appointed Contracting Officer Representative will witness, date and stamp each test in the procedure. Acceptance of the system will be based upon the written approval of the Contracting Officer's Representative.

Note: For work involving fire detection and suppression systems, additional testing & acceptance requirements are described in project technical specifications

The contractor shall use the following form for transfer of fire alarm / fire suppression systems from the government to the contractor:

NASA/KSC SOLICITATION NNK16570600R  
SECTION E - INSPECTION AND ACCEPTANCE

**KSC - TRANSFER OF RESPONSIBILITY**

**FROM:**

**ISC FIRE PROTECTIVE SYSTEMS – KSC, K6-1446A / KSC-326 Ph. 321-861-4681 / 4683**

**TO:** \_\_\_\_\_ **COMPANY:** \_\_\_\_\_ **EFFECTIVE DATE:** \_\_\_\_\_

**ADDRESS** \_\_\_\_\_ **PHONE #** \_\_\_\_\_

**EMERGENCY CONTACT:** \_\_\_\_\_ **PHONE #** \_\_\_\_\_

**SYSTEM:** \_\_\_\_\_

**WON #:** \_\_\_\_\_

**SYSTEM STATUS:** ☐ OPERATIONAL ☐ \* PARTIALLY FUNCTIONAL ☐ \* OUT OF SERVICE  
(\* Indicate Below)

**TRANSFER OF:** ☐ ENTIRE SYSTEM ☐ \*PARTIAL (Explain Below)

**REASON FOR TRANSFER:**

\_\_\_\_\_

**CONDITIONS OF TRANSFER:** The assignee agrees to the responsibility of the following:  
Coordination of work on the transferred system described above with the COR. Assignee is responsible for documenting existing system condition prior to transfer. Assignee also agrees to implement safety plans and alternate workaround procedures that facilitate reporting of emergency/fire/security situations, when applicable. The assignee will assure that any and all modifications, installations and changes to the system are in compliance with the contract documents. The assignee assumes responsibility for returning the system/equipment in an operationally ready state and agrees to demonstrate through functional test, that the system has been installed in accordance with contract specifications and drawings.

**Name:** \_\_\_\_\_ **Signature:** \_\_\_\_\_ **Dated:** \_\_\_\_\_  
[Assignee]

**Name:** \_\_\_\_\_ **Signature:** \_\_\_\_\_ **Dated:** \_\_\_\_\_  
[ISC Fire Protective Systems Representative]

**Name:** \_\_\_\_\_ **Signature:** \_\_\_\_\_ **Dated:** \_\_\_\_\_  
[COR]

**NOTE:** A COPY OF THIS TRANSFER SHALL BE POSTED IN OR ATTACHED TO THE SYSTEM/EQUIPMENT BEING TRANSFERRED.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION E - INSPECTION AND ACCEPTANCE**

The contractor shall use the following form to communicate readiness for Preliminary Fire Alarm Testing:

**CONTRACTOR READINESS AFFIRMATION – For “Preliminary” Fire Alarm Testing**

**NASA Contract Number:** \_\_\_\_\_

*Instructions:* The Prime Contractor is responsible to ensure the fire alarm system is “ready” for formal preliminary testing. Circle the proper response and write the date completed. Any ‘No’ response would typically prevent submission of the form.

**CONTRACT #:** \_\_\_\_\_ **LOCATION/FACILITY:** \_\_\_\_\_ **FACILITY #** \_\_\_\_\_

(circle)                      Date

**Yes No N/A** \_\_\_\_\_ Conduit & wiring is complete. Includes continuity/insulation resistance tests & wiring labeling.

**Yes No N/A** \_\_\_\_\_ All fire alarm devices are installed.

**Yes No N/A** \_\_\_\_\_ Auxiliary functions are connected and known to be operational. Example: AHU shutdown

**Yes No N/A** \_\_\_\_\_ Fire alarm panel program, specific to this job, is loaded and operational.

**Yes No N/A** \_\_\_\_\_ All troubles, ground faults, etc. have been removed; system is effectively NORMAL.

**Yes No N/A** \_\_\_\_\_ Fire alarm vendor/subcontractor conducted a “contractor checkout” of the fire alarm system, with completion on this date: \_\_\_\_\_ which included testing of a sample of inputs and outputs. *Example: rang bells to verify operation in temporal-three pattern, tested 5% of all devices, verified AHU shutdown, verified FACP switched to battery upon loss of 120VAC, etc.*

**Yes No N/A** \_\_\_\_\_ NFPA 72 Record of Completion form is started for the installation.

**Yes No N/A** \_\_\_\_\_ System drawings are available for addition of “red-lines”

**Yes No N/A** \_\_\_\_\_ Support needed for successful completion of the Preliminary Test has been identified in writing to the Contracting Officer. *Examples: support to test existing fire suppressions systems, elevator crew support, HVAC crew support, security system crew support to verify mag-locks are de-energized, etc.*

The undersigned attests that the subject fire alarm system is ready for PRELIMINARY TEST;

Name: \_\_\_\_\_ Signature: \_\_\_\_\_  
[Prime Contractor Representative]

Form Completion Date: \_\_\_\_\_ Proposed Preliminary Test Date(s): \_\_\_\_\_

**Transmit this form per submittal schedule in the contract.**

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION E - INSPECTION AND ACCEPTANCE**

Nothing in this clause shall relieve the requirements of FAR 52.246-12, "Inspection of Construction."

(End of Clause)

**E. 4 CONCRETE PLACEMENT INSPECTION AND PLAN (MAY 2014)**

- (a) All forms, reinforcement and embedded items shall be placed and ready for inspection 24 hours to 48 hours prior to any concrete placement. After Government inspection of forms and embedded items and at least 24 hours before concrete placement the Contractor shall meet with the Contracting Officer's Representative and provide a written plan for concrete placement including the following information:
- (1) Volume of concrete to be placed and calculations used in determining volume.
  - (2) Verification from concrete supplier of volume of concrete to be delivered and delivery date.
  - (3) Labor breakdown for crew to be used on concrete placement and finishing.
  - (4) Equipment to be used during placement and finishing.
- (b) The Contractor's plan for concrete placement must be approved by the Contracting Officer's Representative prior to placement of concrete. The Government reserves the right to waive the above requirement for placement of less than 3 cubic yards. The Contractor shall place no concrete without an approved concrete placement plan or a written waiver from the Contracting Officer.

(End of Clause)

**E. 5 FINAL INSPECTION AND ACCEPTANCE (JUL 2014)**

Final inspection and acceptance of all work under this contract will be conducted by the Contracting Officer's Representative (COR). Upon satisfactory completion of the contract, the Contractor shall be paid the fixed-price value of the contract, less the amount of any progress payments made under FAR Clause 52.232.5, Payments Under Fixed-Price Construction Contracts.

**NOTE: The contractor shall include a line item in the schedule of values and progress schedule for completion of punch-list items, site clean-up, demobilization and final construction (as-built) drawings. The amount of this line item shall be equal to 10% of the contract value or \$100,000, whichever is less. The Government will not pay final invoices for this amount until all punch-list, site clean-up, and demobilization activities are complete; final construction drawings are delivered; and final acceptance is made on DD Form 250, Material Inspection and Receiving Report.**

(End of Clause)

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION F – DELIVERIES OR PERFORMANCE**

**F. 1 LISTING OF FEDERAL ACQUISITION REGULATION (48 CFR CHAPTER 1) CLAUSES INCORPORATED BY REFERENCE**

**FAR 52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)**

Fill-Ins:

- (a) The Contractor shall be required to (a) commence work under this contract within **ten (10) calendar days** after the date the Contractor receives the notice to proceed.
- (c) complete the entire work ready for use not later than **365 calendar days** after the date the contractor receives the notice to proceed for the Base Bid.

**FAR 52.242-14 SUSPENSION OF WORK (AUG 1984)**

**F. 2 KSC 52.211-92 WORK PERIOD (MAR 2002)**

Contractor's work day will be limited to first shift 7:00 A.M. to 3:30 P.M., on Monday through Friday only. Any other work period will require special/ written approval from the Contracting Officer seven (7) days in advance of proposed change in work periods.

(End of Clause)

**F. 3 PLACE OF PERFORMANCE (MAY 2014)**

This is a firm-fixed price construction contract for Install LH2 Vent In-Line Liquid Separator, LC-39B at Kennedy Space Center, Florida.

(End of Clause)

**F. 4 DOWNTIME AND EXCAVATION HOLDS (AUG 2014)**

For the purposes of this contract, the Contractor shall allow in his bid for a maximum of 30 working days during which all construction activities will be prohibited. In addition the Contractor shall allow for a maximum of 15 working days during which all excavation and other subsurface activities will be prohibited but other construction activities will be allowed. The Government will provide twenty-four hour notice each time these restrictions are invoked. (Requests to excavate on days designated as “no dig days” must be submitted on KSC Form 50-1, Excavation Category Waiver, 7-10 days in advance of the designated “no dig days”.)

**H. 2 NFS 1852.243-72 EQUITABLE ADJUSTMENTS (APR 1998)**

- (a) The provisions of all other clauses contained in this contract which provide for an equitable adjustment, including those clauses incorporated by reference with the exception of the "Suspension of Work" clause ([FAR 52.242-14](#)), are supplemented as follows:

Upon written request, the Contractor shall submit a proposal for review by the Government. The proposal shall be submitted to the contracting officer within the time limit indicated in the request or any extension thereto subsequently granted. The proposal shall provide an itemized breakdown of all increases and decreases in the contract for the Contractor and each subcontractor in at least the following detail: material quantities and costs; direct labor hours and rates for each trade; the associated FICA, FUTA, SUTA, and Workmen's Compensation Insurance; and equipment hours and rates.

- (c) The overhead percentage cited below shall be considered to include all indirect costs including, but not limited to, field and office supervisors and assistants, incidental job burdens, small tools, and general overhead allocations. "Commission" is defined as profit on work performed by others. The following percentages for overhead, profit, and commission are negotiated for this contract according to the nature, extent, and complexity of the work involved and shall not be exceeded on any equitable adjustments. These rates are negotiable, downward only, if the nature, extent, and complexity of the work involved on an equitable adjustment are not commensurate with the basic contract.

	<b>Overhead (Percent)</b>	<b>Profit (Percent)</b>	<b>Commission</b>

**SECTION H – SPECIAL CONTRACT REQUIREMENTS**

To first tier subcontractor on work performed by its subcontractors	-----	-----	10 percent
To Contractor and/or subcontractors on work performed with their own forces	10 percent	10 percent	-----

- (c) Not more than four percentages for overhead, profit, and commission shall be allowed regardless of the number of subcontractor tiers.
- (d) The Contractor or subcontractor shall not be allowed overhead or commission on the overhead, profit, and/or commission received by its subcontractors.
- (e) Equitable adjustments for deleted work shall include credits, limited to the same percentages for overhead, profit, and commission in paragraph (b) of this clause.
- (f) On proposals covering both increases and decreases in the amount of the contract, the application of the overhead, profit, and commission shall be on the net change in direct costs for the Contractor or the subcontractor performing the work.
- (g) After receipt of the Contractor's proposal, the contracting officer shall act within a reasonable period, provided that when the necessity to proceed with a change does not permit time to properly check the proposal, or in the event of a failure to reach an agreement on a proposal, the contracting officer may order the Contractor to proceed on the basis of the price being determined at the earliest practicable date. In such a case, the price shall not be more than the increase or less than the decrease proposed.

(End of Clause)

**H. 3    KSC 52.223-121        REPORTING OF INCIDENTS INVOLVING WORKPLACE VIOLENCE (JUL 2008)**

The contractor shall conduct training on and develop procedures for recognizing, managing and responding to incidents and threats of workplace violence as defined in NASA Policy Directive (NPD) 1600.3. Contractors shall also promptly report all incidents involving workplace violence to the Protective Services Office. If the NASA Workplace Violence Prevention and Response (WVPR) Team Chair and Co-Chair determine it is appropriate for the contractor to participate in a WVPR Team meeting, the contractor shall comply with the WVPR Team request. The contractor is also responsible for reporting disposition of the incident reported to the NASA WVPR Team.

This requirement shall flow down to the subcontractors, however the subcontractors shall report up through the prime contractor.

**H. 4 KSC 52.242-90**

**CONTROLS APPLICABLE TO CONTRACTORS' ACTIVITIES**

(SEP 2012) The Contractor shall comply with the publications below, and subsequent revision thereof, that the Contracting Officer has indicated as being incorporated in this contract by reference. These publications prescribe regulatory and procedural criteria which are applicable to this contract. The contractor shall promptly take corrective action upon notice of noncompliance from the Contracting Officer or his/her authorized representative(s) with any provision of the publications listed below.

**H. 5 KSC 52.242-93 CONTRACTOR WORKFORCE REPORT – ONSITE  
CONTRACTORS AND SUBCONTRACTORS (OCT 2006)**

The Contractor shall submit, on a quarterly basis, a manpower report delineating information about its workforce. The report shall include: the contract number, the contractor's total on-site workforce, total on-site union represented employees by bargaining unit; total on-site non-union represented employees, and total off-site workforce performing on the contract. The Contractor shall provide this information no later than 10 days after the close of each reporting period which end March 31st, June 30th, September 30th, and December 31st. The report shall be submitted to the Contracting Officer with copies to Workforce Planning and Analysis Office, (Code BA-D) and Industrial Labor Relations Office (Code OP).

(End of Clause)

**H. 6 SAFETY AND HEALTH (MAY 2014)**

Pursuant to NFS 1852.223-70, Safety and Health:

- (a) Safety is the freedom from those conditions that can cause death, injury, occupational illness, damage to or loss of equipment or property, or damage to the environment. NASA's safety priority is to protect: the public, astronauts and pilots, the NASA workforce (including contractor employees working on NASA contracts), and high-value equipment and property.
- (b) The Contractor shall take all reasonable safety and occupational health measures in performing this contract. The Contractor shall comply with all Federal, State, and local laws applicable to safety and occupational health and with the safety and occupational health standards, specifications, reporting requirements, and any other relevant requirements of this contract.

**(c) Kennedy Space Center Voluntary Protection Program (VPP)**

Kennedy Space Center has implemented a comprehensive safety and health management system, and has demonstrated its commitment to providing and maintaining a safe workplace by successfully completing a rigorous evaluation process to achieve recognition by the Occupational Health and Safety Administration (OSHA) as a "Voluntary Protection Program (VPP) Star Worksite." The VPP program promotes effective worksite-based safety and health, encourages employers and employees to reduce the number of occupational safety and health hazards at their places of employment, establishes cooperative relationships between management, labor, and OSHA, and serves to augment limited OSHA resources.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION H – SPECIAL CONTRACT REQUIREMENTS**

- (d) Reporting Procedures for Close Calls and Mishaps (Also reference NFS 1852.223-70, Safety and Health)
- (1) The contractor shall submit a NASA Direct Construction Contractor Mishap Report Form (KDP-F-3645) to the Contracting Officer to document close calls or mishaps and associated corrective actions. In addition, the Contracting Officer will issue a “Notice of Violation” to document safety violations under this contract. The Contractor shall use the form provided to communicate actions taken to correct or mitigate safety/health non-conformance at the job-site, as well as any corrective actions taken to prevent recurrence. This report must be posted on the job site until all corrective actions have been completed.
  - (2) In the event the non-compliance poses imminent danger, the Contracting Officer may invoke the stop-work order clause in this contract until such time as the immediate hazard has been mitigated. If the Contractor fails or refuses to institute prompt corrective action, the Contracting Officer may invoke the stop-work order clause or any other remedy available to the Government in the event of such failure or refusal.
  - (3) The Contractor (or subcontractor or supplier) shall insert the “Reporting Procedures for Close Calls and Mishaps” section of this clause, including this paragraph and any applicable Schedule provisions and clauses, with appropriate changes of designations of the parties, in all solicitations and subcontracts of every tier, when the work will be conducted completely or partly on premises owned or controlled by the Government.

(End of Clause)

**H. 7 SPECIAL ENCLAVE STATUS FOR KENNEDY SPACE CENTER (JUL 2014)**

Pursuant to FAR 52.222-6, Construction Wage Rate Requirements:

The Kennedy Space Center (KSC) is part of a *special enclave* within Brevard County which includes the geographic area consisting of KSC, Cape Canaveral Air Force Station, and Patrick Air Force Base, as specified in the attached wage determination. The Department of Labor (DOL) designated KSC as a part of this special enclave in the 1960’s during construction of the launch complex. The labor classifications and prevailing wages differ significantly from those contained in wage determinations for the surrounding areas; and, the process of determining the proper labor classifications for work to be performed may differ significantly from that in a non-enclave environment. Offerors should contact the DOL for instructions concerning selection of proper labor classifications for all KSC construction projects within this special enclave. The DOL local office phone numbers are (321) 242-1851/office and (321) 614-8823/mobile.

The selection of the proper labor classifications from the solicitation’s wage determination for the pricing of bids/proposals is the responsibility of the offeror in consultation with the DOL. Post award the contractor should continue to be aware of any potential impact KSC’s special

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION H – SPECIAL CONTRACT REQUIREMENTS**

enclave status might have during contract performance (e.g. contract modifications). It is incumbent upon the offeror to make potential subcontractors aware of KSC's special enclave status and to instruct them to contact DOL for instructions for choosing the proper labor classifications. The Agency will not make any official determination as to the proper labor classifications for work described in this solicitation.

The successful offeror shall be solely responsible for the employment of workers with the proper skills and payment of them in accordance with FAR 52.222-6, Construction Wage Rate Requirements, and the solicitation's wage determination. The Agency will monitor contractor compliance in accordance with 29 CFR 5.5. Non-compliance will be reported to the DOL. DOL will determine compliance with the Act and decide on enforcement actions. Any disputes concerning labor standards requirements will be handled by the DOL in accordance with FAR 52.222-14, Disputes Concerning Labor Standards.

**I. 4 FAR 52.223-9 ESTIMATE OF PERCENTAGE OF RECOVERED MATERIAL CONTENT FOR EPA-DESIGNATED ITEMS (MAY 2008) ALTERNATE I (MAY 2008)**

(a) *Definitions.* As used in this clause—

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

“Postconsumer material” means a material or finished product that has served its intended use and has been discarded for disposal or recovery, having completed its life as a consumer item. Postconsumer material is a part of the broader category of “recovered material.”

“Recovered material” means waste materials and by-products recovered or diverted from solid waste, but the term does not include those materials and by-products generated from, and commonly reused within, an original manufacturing process.

- (b) The Contractor shall execute the following certification required by the Resource Conservation and Recovery Act of 1976 ([42 U.S.C. 6962\(i\)\(2\)\(C\)](#)):

**CERTIFICATION**

I, \_\_\_\_\_ (name of certifier), am an officer or employee responsible for the performance of this contract and hereby certify that the percentage of recovered material content for EPA-designated items met the applicable contract specifications or other contractual requirements.

\_\_\_\_\_  
*[Signature of the Officer or Employee]*

(END OF CERTIFICATION)

- (c) The Contractor, on completion of this contract, shall—

- (1) Estimate the percentage of the total recovered material content for EPA-designated item(s) delivered and/or used in contract performance, including, if applicable, the percentage of post-consumer material content; and
- (2) Submit this estimate to the Contracting Officer.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

(End of Clause)

**I. 5 FAR 52.225-9 BUY AMERICAN - CONSTRUCTION MATERIALS (MAY 2014)**

(a) *Definitions.* As used in this clause—

“Commercially available off-the-shelf (COTS) item”—

(1) Means any item of supply (including construction material) that is—

(i) A commercial item (as defined in paragraph (1) of the definition at FAR [2.101](#));

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in [46 U.S.C. 40102\(4\)](#), such as agricultural products and petroleum products.

“Component” means an article, material, or supply incorporated directly into a construction material.

“Construction material” means an article, material, or supply brought to the construction site by the Contractor or a subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

“Cost of components” means—

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

- (3) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or
- (4) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

“Domestic construction material” means—

- (1) An unmanufactured construction material mined or produced in the United States;
- (2) A construction material manufactured in the United States, if—
  - (i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or
  - (ii) The construction material is a COTS item.

“Foreign construction material” means a construction material other than a domestic construction material.

“United States” means the 50 States, the District of Columbia, and outlying areas.

(b) Domestic preference.

- (1) This clause implements [41 U.S.C. chapter 83](#), Buy American, by providing a preference for domestic construction material. In accordance with [41 U.S.C. 1907](#), the component test of the Buy American statute is waived for construction material that is a COTS item. (See FAR [12.505](#)(a)(2)). The Contractor shall use only domestic construction material in performing this contract, except as provided in paragraphs (b)(2) and (b)(3) of this clause.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

- (2) This requirement does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows: **None**
- (3) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(2) of this clause if the Government determines that—
  - (i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the requirements of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;
  - (ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or
  - (iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.
- (c) Request for determination of inapplicability of the Buy American statute.
  - (1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(3) of this clause shall include adequate information for Government evaluation of the request, including—
    - (A) A description of the foreign and domestic construction materials;
    - (B) Unit of measure;
    - (C) Quantity;
    - (D) Price;
    - (E) Time of delivery or availability;
    - (F) Location of the construction project;

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

- (G) Name and address of the proposed supplier; and
- (H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.
- (ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.
- (iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).
- (iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.
- (2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(3)(i) of this clause.
- (3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.
- (d) *Data*. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

**FOREIGN AND DOMESTIC CONSTRUCTION MATERIALS PRICE COMPARISON**

Construction Material Description	Unit of Measure	Quantity	Price (Dollars)*
-----------------------------------	-----------------	----------	------------------

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

*Item 1:*

Foreign construction material	_____	_____	_____
Domestic construction material	_____	_____	_____

*Item 2:*

Foreign construction material	_____	_____	_____
Domestic construction material	_____	_____	_____

*[List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.]*

*[Include other applicable supporting information.]*

*[\* Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).]*

(End of Clause)

**I. 6 FAR 52.236-4 PHYSICAL DATA (APR 1984)**

Data and information furnished or referred to below is for the Contractor's information. The Government shall not be responsible for any interpretation of or conclusion drawn from the data or information by the Contractor.

- (a) The indications of physical conditions on the drawings and in the specifications are the result of site investigations by benchmarks for vertical control, elevations, and dimensions from existing features. The Contractor shall be responsible for any surveys, augers, borings, core borings, test pits, probings, or other investigations necessary or incidental to performance of the work.
  
- (b) Weather conditions: The climate of the Cape Canaveral-Kennedy Space Center, Florida area is subtropical with short, mild winters and hot, humid summers. Summer extends from the middle of May to the middle of October with the highest mean temperatures in July and August and the extreme highest temperatures in June. Area thunderstorms occurring during the summer months can be violent with cloud to ground lightning, heavy rain and strong gusty winds. The hurricane season begins in June and ends in December with the highest frequency in August, September, and October. Winter temperatures range from the probability of an 80 degree high during each month to at least one occasion (per

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

winter) of below freezing conditions. Mean average maximum-minimum temperatures and mean average rainfall is 78.6 degrees – 64.0 degrees and 48.53 inches for Cape Canaveral and 79.4 degrees – 65.4 degrees and 53.21 inches for Kennedy Space Center. Detailed climatological data may be obtained from the Patrick Air Force Base Weather Services, 321-853-8485, Patrick Air Force Base, Florida.

(c) Transportation facilities:

- (1) ROAD: The Cape Canaveral-Kennedy Space Center area is accessible via Florida State Highways 3, 401, 405, 520, and 528 and U.S. Highways 1 and A1A. Perimeter gates to Kennedy Space Center and Cape Canaveral Air Force Station are located at Highway 401 (Gate 1), South Highway 3 (Gate 2), Highway 405 (Gate 3), and North Highway 3 (Gate 4). All gates are normally operational during first shift hours. Off shift hours may vary, and additional schedule or access limitations will be in place during critical launch processing operations.
- (2) RAIL: Government trackage connects with the Florida East Coast Railway Company (FEC) at Jay-Jay, Florida, approximately 3 miles north of Titusville, Florida. Shipping destination should be shown as “Titusville, Florida for Kennedy Space Center, Florida.” NASA locomotives move cars between Jay-Jay and various locations on Kennedy Space Center. Side and end ramps are available in the KSC Industrial Area.
- (3) WATER (OCEAN): United States Air Force and Navy and commercial dock facilities are available at Port Canaveral, Florida.
- (4) WATER (OTHER): The Kennedy Space Center Vehicle Assembly Building (VAB) Marine Terminal and Cape Canaveral Air Force Station barge facilities are accessible via the inland waterway through the Banana River.
- (5) AIR (COMMERCIAL): Facilities serving the area are located at Melbourne (approximately 42 miles) and Orlando (approximately 55 miles) Florida. Pickup and delivery of air shipments is available.

Detailed information on availability and limitation of facilities, shipping and billing may be obtained from the Supply, Equipment, Transportation and Center Support Branch, Code TA-E1, John F. Kennedy Space Center, NASA, Kennedy Space Center, Florida 32899.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

(d) Other: “NONE”.

(End of Clause)

**I. 7 FAR 52.236-13 ACCIDENT PREVENTION (NOV 1991) ALTERNATE I (NOV 1991)**

- (a) The Contractor shall provide and maintain work environments and procedures which will-
- (1) Safeguard the public and Government personnel, property, materials, supplies, and equipment exposed to Contractor operations and activities;
  - (2) Avoid interruptions of Government operations and delays in project completion dates; and
  - (3) Control costs in the performance of this contract.
- (b) For these purposes on contracts for construction or dismantling, demolition, or removal of improvements, the Contractor shall-
- (1) Provide appropriate safety barricades, signs, and signal lights;
  - (2) Comply with the standards issued by the Secretary of Labor at 29 CFR Part 1926 and 29 CFR Part 1910; and
  - (3) Ensure that any additional measures the Contracting Officer determines to be reasonably necessary for the purposes are taken.
- (c) If this contract is for construction or dismantling, demolition or removal of improvements with any Department of Defense agency or component, the Contractor shall comply with all pertinent provisions of the latest version of U.S. Army Corps of Engineers Safety and Health Requirements Manual, EM 385-1-1, in effect on the date of the solicitation.
- (d) Whenever the Contracting Officer becomes aware of any noncompliance with these requirements or any condition which poses a serious or imminent danger to the health or safety of the public or Government personnel, the Contracting Officer shall notify the Contractor orally, with written confirmation, and request immediate initiation of corrective action. This notice, when delivered to the Contractor or the Contractor's representative at the work site, shall be deemed sufficient notice of the noncompliance and that corrective action is required. After receiving the notice, the Contractor shall immediately take corrective action. If the Contractor fails or refuses to promptly take corrective action, the Contracting Officer may issue an order stopping all or part of the work until satisfactory

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

corrective action has been taken. The Contractor shall not be entitled to any equitable adjustment of the contract price or extension of the performance schedule on any stop work order issued under this clause.

- (e) The Contractor shall insert this clause, including this paragraph (e), with appropriate changes in the designation of the parties, in subcontracts.

(f) **Within ten days of contract award, the Contractor shall -**

(1) **Submit a written proposed Site Specific Safety and Occupational Health Plan for implementing this clause. The Contractor cannot commence with on-site construction work prior to approval of the Plan by the Contracting Officer and meeting with representatives of the Contracting Officer to discuss and develop a mutual understanding relative to administration of the overall safety**

**program.** The Plan shall include an analysis of the significant hazards to life, limb, and property inherent in contract work performance and a plan for controlling these hazards. As a minimum, the Site Specific Safety and Occupational Health Plan shall include:

- (h) A detailed discussion of the policies, procedures, and techniques that will be used to ensure the safety and occupational health of Contractor employees and to ensure the safety of all working conditions throughout the performance of the contract. The Plan shall also address the policies, procedures, and techniques that will be used to ensure the safety and occupational health of the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), and high-value equipment and property.
- (ii) A discussion on how the Contractor intends to comply with 29 CFR 1926 Safety & Health Regulations for Construction, NPR 8715.3 (NASA Safety Manual & Appendices), KNPR 8715.3 (KSC Safety Practices Procedural Requirements), and KNPR 8715.7 (KSC Construction Contractor Safety & Health Practices Procedural Requirements Rev A) with regard to all safety issues that will be encountered on this project. [KNPR 8715.3, KNPR 8715.7, and KSC-UG-2814, Rev A-1 (KSC Construction Contractors Safety and Health Practices Users Guide) can be accessed at <http://tdglobal.ksc.nasa.gov/ReferencedDocuments/>.]

NOTE: KSC-UG-2814 contains a Safety and Occupational Health Plan template (Pages 56-100 that should be used for the Safety and Occupational Health Plan.

- (iii) Safety program objectives to include the Contractor's corporate safety policy statement.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

(iv) How the Contractor intends to comply with all safety issues that will be encountered on this project as directed in the following:

(A) 29 CFR 1926 Safety & Health Regulations for Construction

(B) NPR 8715.3 NASA Safety Manual & Appendices

(C) KNPR 8715.3 KSC Safety Practices Procedural Requirements

(D) KNPR 8715.7 KSC Construction Contractor Safety & Health Practices  
Procedural Requirements

(v) Log of Occupational Injuries and Illnesses:

A copy of the Contractor's annual summary of occupational injuries and illnesses (or equivalent) as described in Title 29, Code of Federal Regulations, Subpart 1904.5. If the Contractor is exempt by regulation from maintaining and publishing such logs, equivalent data in the Contractor's format is acceptable (such as loss runs from insurance carrier) which contains the data required. Data shall be compiled and reported by calendar year and the most recent summary shall be provided.

(vi) Experience Modification Rate (EMR):

Provide documented evidence for the previous three (3) years.

(vii) Days Away, Restricted or Transferred Rate (DART):

Provide documented evidence for the previous three (3) years. The data shall include incidence rates of days away from work, job transfer, or restriction cases, occupational injuries and illnesses, by quartile distribution and employment size group, private industry as most recently published by the Bureau of Labor Statistics.

(viii) Total Case Incident Rate (TCIR):

Provide documented evidence for the previous three (3) years. The data shall include incidence rates of total recordable cases of occupational injuries and illnesses, by quartile distribution and employment size group, private industry as most recently published by the Bureau of Labor Statistics.

(ix) Hazard Analysis:

The Contractor shall describe the process to be used to analyze worksite hazards or Job Hazard Analysis (JHA) prior to the start of work to ensure that all hazards are

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

abated. These analyses may address facilities, systems/subsystems, operations, processes, materials (including waste), and specific tasks or jobs.

(x) Emergency Procedures:

Procedures for emergency actions to be taken to secure dangerous conditions, to protect personnel, and secure work areas in the event of accident or an act of nature.

(xi) The Plan shall describe the Contractor's training program including identification of responsibility for training employees to assure understanding of safe work practices, hazard recognition, and appropriate responses including protective and/or emergency countermeasures. A discussion on how the Contractor will validate that training requirements have been conducted and satisfied (i.e., physical examination, testing, on-the-job performance, etc). The Plan shall state all training materials and training records will be provided for NASA review on request.

(xii) The Plan shall similarly address subcontractor employee safety and occupational health for those subcontractors who will be performing work under the contract when one or more of the following conditions apply: (Note: Contractors may not delegate overall site safety responsibility or authority for any personnel working under the provisions of this section to any Subcontractor.)

(A) The work will be conducted completely or partly on premises owned or controlled by the government.

(B) The work includes construction, alteration, or repair of facilities in excess of the simplified acquisition threshold.

(C) The work, regardless of place of performance, involves hazards that could endanger the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), or high value equipment or property, and the hazards are not adequately addressed by Occupational Safety and Health Administration (OSHA) or Department of Transportation (DOT) regulations (if applicable).

(D) When the assessed risk and consequences of a failure to properly manage and control the hazards warrants use of the clause.

This plan, as approved by the Contracting Officer, will be incorporated into the contract.

(End of Clause)

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

**I. 8 FAR 52.252-4 ALTERATIONS IN CONTRACT (APR 1984)**

Portions of this contract are altered as follows:

The Kennedy Space Center requirements supporting Contract Section I are listed in Section J, Attachment J-B, KSC Project Specific Requirements.

(End of Clause)

**I. 9 FAR 52.252-6 AUTHORIZED DEVIATIONS IN CLAUSES (APR 1984)**

- (a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the date of the clause.
- (b) The use in this solicitation or contract of any NASA Supplement to the Federal Acquisition Regulation (48 CFR Chapter 18) clause with an authorized deviation is indicated by the addition of “(DEVIATION)” after the name of the regulation.

(End of Clause)

**I. 10 NFS 1852.225-71 RESTRICTION ON FUNDING ACTIVITIES WITH CHINA (DEVIATION) (FEB 2012)**

- (a) Definition - “China” or “Chinese-owned company” means the People’s Republic of China, any company owned by the People’s Republic of China or any company incorporated under the laws of the People’s Republic of China.
- (b) Public Laws 112-10, Section 1340(a) and 112-55, Section 539, restrict NASA from contracting to participate, collaborate, coordinate bilaterally in any way with China or a Chinese-owned company using funds appropriated on or after April 25, 2011. Contracts for commercial and non-developmental items are exempted from the prohibition because they constitute purchase of goods or services that would not involve participation, collaboration, or coordination between the parties.
- (c) This contract may use restricted funding that was appropriated on or after April 25, 2011. The contractor shall not contract with China or Chinese-owned companies for any effort related to this contract except for acquisition of commercial and non-developmental items. If the contractor anticipates making an award to China or Chinese-owned companies, the contractor must contact the contracting officer to determine if funding on this contract can be used for that purpose.
- (d) Subcontracts - The contractor shall include the substance of this clause in all subcontracts made hereunder.

(End of Clause)

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

**I. 11 KSC 52.204-96      SECURITY CONTROLS FOR KSC AND CCAFS**  
**(APR 2010)**

**A. Identification of Employees**

**1. Badging**

- i. Kennedy Space Center (KSC) badging is mandatory for all Contractor personnel who require access to KSC and National Aeronautics and Space Administration (NASA) facilities located on Cape Canaveral Air Force Station (CCAFS). Badging Requirements are in accordance with KNPR 1600.1, KSC Security Procedural Requirements, located at this public website: <http://tdglobal.ksc.nasa.gov/ReferencedDocuments/>. Badges must be obtained before personnel may access the work site and the contractor is responsible for submitting complete, accurate, and timely security investigation and badge request information. The government is not liable for any project delays resulting from the contractor's failure to provide required information or the contractor's inability to achieve favorable investigative results.
- ii. Prior to performance, the contractor shall submit the following information to the Contracting Officer, who will certify and pass the information to the KSC Badging Office.
  - a. Contract number and location of work site(s);
  - b. Contract commencement and completion dates;
  - c. Status as prime or subcontractor; and,
  - d. Name of the contractor designated security/badging official.
  - e. A KSC Form 28-1222V2, (KSC Visitor Badge Request) and/or KSC Form 28-889 (KSC Visitor Badge/Multiple) for all employees requiring access to KSC or CCAFS.

Note: This is the minimum paperwork required for issuance of identification badges.

- iii. Security forms for employee investigations under this clause (Paragraph 2) shall be submitted by the contractor as soon as possible but in no case more than thirty days from initial badging.
- iv. During performance of this contract, issued badges shall be worn by contractor employees and prominently displayed above the waist at all times while on KSC or CCAFS property, unless an exception is granted for safety considerations. Upon termination of an employee, or completion/termination of the contract, the contractor shall immediately return such employee's identification and area permit badge(s) to the

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

KSC Badging Office. NASA identification badges are the property of NASA and the Government reserves the right to invalidate/confiscate such badges at any time.

- v. Contractor security/badging officials shall ensure that badges are authorized for official purposes only and in accordance with the requirements of this clause and referenced directives. Abuse or misuse of badging authority may result in a loss of this authority. Employees that fail to comply with NASA regulations may be denied access to KSC.

2. Investigations

- i. All persons requiring ongoing access to Federal facilities, to include KSC and CCAFS, are required to complete security forms and submit to a Government investigation. Exceptions may be made for short term visitors (15 days or less). Persons needing access for a period greater than 180 days will require an investigation as described in paragraph 2ii below. Contractors should note that the 180 day period is for an individual's aggregate access across all contracts. If you believe your employee will require ongoing access (current contract and follow on projects) to KSC and/or require unescorted access to facilities under the KSC Area Permit System, you should submit the employee for the investigation described in paragraph A2ii below at the time of initial badging.
- ii. All persons requiring ongoing access to NASA installations are required to have a favorably completed National Agency Check with Written Inquiries (NACI). The following forms must be submitted to the Contracting Officer's Technical Representative (COTR), or the COTR's designee:
  - a. FD Form 258, Fingerprint Card (Electronic submission at KSC Badging Office)
  - b. Standard Form 85, Questionnaire for Non-Sensitive Positions;
  - c. Optional Form 306, Declaration for Federal Position Employment; and,
  - d. Three (3) copies of KSC Form 20-87, Request for Investigation (Signed by COTR or COTR's designee)

B. Badging Restrictions/Categories

Access to Areas Requiring a KSC Area Permit. Access to certain areas on KSC and CCAFS requires the contractor to have a KSC Area Permit and contractors may be granted "escorted" or "unescorted" access to these areas in accordance with KNPR 1600.1. Unescorted access requires a favorable determination in accordance with the investigative requirements detailed in paragraph A2ii above as well as the completion of mandated safety training.

- i. The NASA Protective Services Office, or its designee, PSSO, will determine whether the person is eligible for unescorted access within 14 business days after the receipt of the properly completed forms.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

- ii. One or more on-site training classes will be required for admittance to the controlled access areas. The total training will not exceed four hours. Contractors may schedule any required training for their employees by contacting the COTR or designee. The contractor shall maintain a record of employees receiving the training.

(End of Clause)

**I. 12 KSC ON-SITE FACILITIES AND SERVICES (APR 2005)**

**(a) UTILITIES**

- ☒ There are no utility services available in the work area. All utilities required for performance of the contract work shall be provided by the Contractor.

**(b) FACILITIES**

- ☒ There are no Government restroom facilities available for use by the Contractor's employees at the work site. The Contractor shall provide all sanitary facilities for the needs of Contractor personnel.

(End of Clause)

**I. 13 PERSONAL IDENTITY VERIFICATION CARD ISSUANCE PROCEDURES (JAN 2006)**

The following procedures implement the Federal Information Processing Standards Publication (FIPS PUB) Number 201, Personal Identity Verification (PIV) of Federal Employees and Contractors (Reference FAR Clause 52.204-9, Personal Identity Verification of Contractor Personnel).

FIPS 201 Appendix A graphically displays the following procedure for the issuance of a PIV credential.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

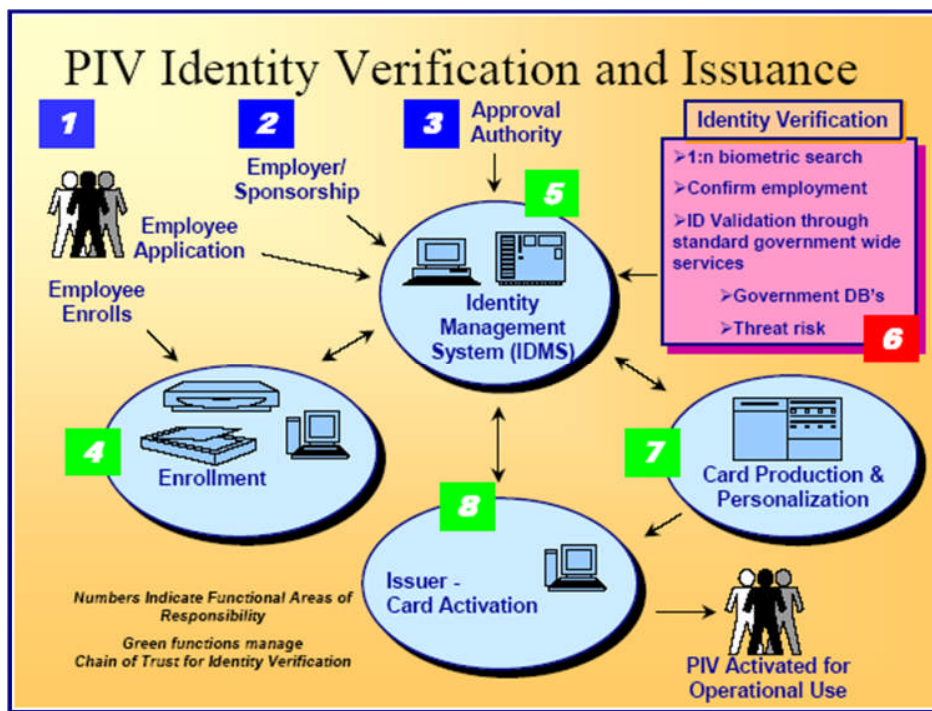

Figure A-1, FIPS 201, Appendix A

The following steps describe the procedures for the NASA Personal Identity Verification Card Issuance (PCI) of a PIV credential:

**Step 1:**

The Contractor's Corporate Security Officer (CSO), Program Manager (PM), or Facility Security Officer (FSO) submits a formal letter that provides a list of contract employees (applicant) names requesting access to the NASA Contracting Officer's Technical Representative (COTR). In the case of a foreign national applicant, approval through the NASA Foreign National Management System (NFMMS) must be obtained for the visit or assignment before any processing for a PIV credential can take place. Further, if the foreign national is not under a contract where a COTR has been officially designated, the foreign national will provide the information directly to their visit/assignment host, and the host sponsor will fulfill the duties of the COTR mentioned herein. In each case, the letter shall provide notification of the contract or foreign national employee's (hereafter the "applicant") full name (first, middle and last), social security number (SSN) or NASA Foreign National Management System Visitor Number if the foreign national does not have a SSN, and date of birth. If the contract employee has a current satisfactorily completed National Agency Check with Inquiries (NACI) or an equivalent or higher degree of background investigation, the letter shall indicate the type of investigation, the agency completing the investigation, and date the investigation was completed. Also, the letter must specify the risk/sensitivity level associated with the position in which each applicant will be working (NPR 1600.1, §4.5 is germane) Further, the letter shall also acknowledge that contract employees may be denied access to

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

NASA information or information systems based on an unsatisfactory background investigation/adjudication.

After reviewing the letter for completeness and concurring with the risk/sensitivity levels, the COTR/host must forward the letter to the Center Chief of Security (CCS). The CCS shall review the OPM databases (e.g., DCII, PIP, et al.), and take appropriate steps to validate the applicant's investigation status. Requirements for a NACI or other investigation shall be initiated only if necessary.

Applicants who do not currently possess the required level of background investigation shall be directed to the e-QIP web site to complete the necessary background investigation forms online. The CCS shall provide to the COTR/host information and instructions on how to access the e-QIP for each contract or foreign national employee requiring access

**Step 2:**

Upon acceptance of the letter/background information, the applicant will be advised that in order to complete the investigative process, he or she must appear in-person before the authorized PIV registrar and submit two forms of identity source documents in original form. The identity source documents must come from the list of acceptable documents included in Form I-9, Employment Eligibility Verification, one which must be a Federal<sup>i</sup> or State issued picture identification. Fingerprints will be taken at this time. The applicant must appear **no later than** the entry on duty date.

When the applicant appears, the registrar will electronically scan the submitted documents; any document that appears invalid will be rejected by the registrar. The registrar will capture electronically both a facial image and fingerprints of the applicant. The information submitted by the applicant will be used to create or update the applicant identity record in the Identity Management System (IDMS).

**Step 3:**

Upon the applicant's completion of the investigative document, the CCS reviews the information, and resolves discrepancies with the applicant as necessary. When the applicant has appeared in person and completed fingerprints, the package is electronically submitted to initiate the NACI. The CCS includes a request for feedback on the NAC portion of the NACI at the time the request is submitted.

**Step 4:**

Prior to authorizing physical access of a contractor employee to a federally-controlled facility or access to a Federal information system, the CCS will a National Crime Information Center

---

<sup>i</sup> A non-PIV government identification badge, including the NASA Photo Identification Badge, MAY NOT BE USED for the original issuance of a PIV vetted credential

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

(NCIC) with an Interstate Identification Index check is/has been performed. In the case of a foreign national, a national check of the Bureau of Immigration and Customs Enforcement (BICE) database will be performed for each applicant. If this process yields negative information, the CCS will immediately notify the COTR/host of the determination regarding access made by the CCS.

**Step 5:**

Upon receipt of the completed NAC, the CCS will update IDMS from the NAC portion of the NACI and indicate the result of the suitability determination. If an unsatisfactory suitability determination is rendered, the COTR will advise the contractor that the employee is being denied physical access to all federally-controlled facilities and Federal information systems.

Based on a favorable NAC and NCIC/III or BICE check, the CCS will authorize the issuance of a PIV federal credential in the Physical Access Control System (PACS) database. The CCS, based on information provided by the COTR/host, will determine what physical access the applicant should be granted once the PIV issues the credential.

**Step 6:**

Using the information provided by the applicant during his or her in-person appearance, the PIV card production facility creates and instantiates the approved PIV card for the applicant with an activation date commensurate with the applicant's start date.

**Step 7:**

The applicant proceeds to the credential issuance facility to begin processing for receipt of his/her federal credential. The applicant provides to the credential issuing operator proof of identity with documentation that meets the requirements of FIPS 201 (DHS Employment Eligibility Verification (Form I-9) documents. These documents **must** be the same documents submitted for registration. The credential issuing operator will verify that the facial image, and optionally reference finger print, matches the enrollment data used to produce the card. Upon verification of identity, the operator will locate the employee's record in the PACS database, and modify the record to indicate the PIV card has been issued. The applicant will select a PIN for use with his or her new PIV card. Although root data is inaccessible to the operator, certain fields (hair color, eye color, et al.) may be modified to more accurately record the employee's information. The applicant proceeds to a kiosk or other workstation to complete activation of the PIV card using the initial PIN entered at card issuance.

**ALTERNATIVE FOR APPLICANTS WHO DO NOT HAVE A COMPLETED AND ADJUDICATED NAC AT THE TIME OF ENTRANCE ON DUTY**

Steps 1 through 4 shall be accomplished for all applicants in accordance with the process described above. If the applicant is unable to appear in person until the time of entry on duty,

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION I – CONTRACT CLAUSES**

or does not, for any other reason, have a completed and adjudicated NAC portion of the NACI at the time of entrance on duty, the following interim procedures shall apply.

1. If the documents required to submit the NACI have not been completed prior to EOD, the applicant will be instructed to complete all remaining requirements for submission of the investigation request. This includes presentation of I-9 documents and completion of fingerprints, if not already accomplished. If the applicant fails to complete these activities as prescribed in NPR 1600.1 (Chapters 3 & 4), it may be considered as failure to meet the conditions required for physical access to a federally-controlled facility or access to a Federal information system, and result in denial of such access.
2. Based on favorable results of the NCIC, the applicant shall be issued a temporary NASA identification card for a period not-to-exceed six months. If at the end of the six month period the NAC results have not been returned, the agency will at that time make a determination if an additional extension will be granted for the temporary identification card.
3. Upon return of the completed NAC, the process will continue from Step 5.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

**K. 1 FAR 52.204-8 ANNUAL REPRESENTATIONS AND CERTIFICATIONS**  
**(DEC 2014)**

(a) (1) The North American Industry Classification System (NAICS) code for this acquisition is **238220 Plumbing, Heating and Air Conditioning Contractors.**

(2) The small business size standard is **\$15M.**

(3) The small business size standard for a concern which submits an offer in its own name, other than on a construction or service contract, but which proposes to furnish a product which it did not itself manufacture, is 500 employees.

(b) (1) If the provision at [52.204-7](#), System for Award Management, is included in this solicitation, paragraph (d) of this provision applies.

(2) If the provision at [52.204-7](#) is not included in this solicitation, and the offeror is currently registered in the System for Award Management (SAM), and has completed the Representations and Certifications section of SAM electronically, the offeror may choose to use paragraph (d) of this provision instead of completing the corresponding individual representations and certifications in the solicitation. The offeror shall indicate which option applies by checking one of the following boxes:

☐ (i) Paragraph (d) applies.

☐ (ii) Paragraph (d) does not apply and the offeror has completed the individual representations and certifications in the solicitation.

(c) (1) The following representations or certifications in SAM are applicable to this solicitation as indicated:

(i) [52.203-2](#), Certificate of Independent Price Determination. This provision applies to solicitations when a firm-fixed-price contract or fixed-price contract with economic price adjustment is contemplated, unless—

(A) The acquisition is to be made under the simplified acquisition procedures in [Part 13](#);

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

- (B) The solicitation is a request for technical proposals under two-step sealed bidding procedures; or
  - (C) The solicitation is for utility services for which rates are set by law or regulation.
- (ii) [52.203-11](#), Certification and Disclosure Regarding Payments to Influence Certain Federal Transactions. This provision applies to solicitations expected to exceed \$150,000.
  - (iii) [52.204-3](#), Taxpayer Identification. This provision applies to solicitations that do not include the provision at [52.204-7](#), System for Award Management.
  - (iv) [52.204-5](#), Women-Owned Business (Other Than Small Business). This provision applies to solicitations that—
    - (A) Are not set aside for small business concerns;
    - (B) Exceed the simplified acquisition threshold; and
    - (C) Are for contracts that will be performed in the United States or its outlying areas.
  - (v) [52.209-2](#), Prohibition on Contracting with Inverted Domestic Corporations—Representation.
  - (vi) [52.209-5](#), Certification Regarding Responsibility Matters. This provision applies to solicitations where the contract value is expected to exceed the simplified acquisition threshold.
  - (vii) [52.214-14](#), Place of Performance—Sealed Bidding. This provision applies to invitations for bids except those in which the place of performance is specified by the Government.
  - (viii) [52.215-6](#), Place of Performance. This provision applies to solicitations unless the place of performance is specified by the Government.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

- (ix) [52.219-1](#), Small Business Program Representations (Basic & Alternate I).  
This provision applies to solicitations when the contract will be performed in the United States or its outlying areas.
  - (A) The basic provision applies when the solicitations are issued by other than DoD, NASA, and the Coast Guard.
  - (B) The provision with its Alternate I applies to solicitations issued by DoD, NASA, or the Coast Guard.
- (x) [52.219-2](#), Equal Low Bids. This provision applies to solicitations when contracting by sealed bidding and the contract will be performed in the United States or its outlying areas.
- (xi) [52.222-22](#), Previous Contracts and Compliance Reports. This provision applies to solicitations that include the clause at [52.222-26](#), Equal Opportunity.
- (xii) [52.222-25](#), Affirmative Action Compliance. This provision applies to solicitations, other than those for construction, when the solicitation includes the clause at [52.222-26](#), Equal Opportunity.
- (xiii) [52.222-38](#), Compliance with Veterans' Employment Reporting Requirements. This provision applies to solicitations when it is anticipated the contract award will exceed the simplified acquisition threshold and the contract is not for acquisition of commercial items.
- (xiv) [52.223-1](#), Biobased Product Certification. This provision applies to solicitations that require the delivery or specify the use of USDA–designated items; or include the clause at [52.223-2](#), Affirmative Procurement of Biobased Products Under Service and Construction Contracts.
- (xv) [52.223-4](#), Recovered Material Certification. This provision applies to solicitations that are for, or specify the use of, EPA–designated items.
- (xvi) [52.225-2](#), Buy American Certificate. This provision applies to solicitations containing the clause at [52.225-1](#).

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

(xvii) [52.225-4](#), Buy American—Free Trade Agreements—Israeli Trade Act Certificate. (Basic, Alternates I, II, and III.) This provision applies to solicitations containing the clause at [52.225-3](#).

(A) If the acquisition value is less than \$25,000, the basic provision applies.

(B) If the acquisition value is \$25,000 or more but is less than \$50,000, the provision with its Alternate I applies.

(C) If the acquisition value is \$50,000 or more but is less than \$79,507, the provision with its Alternate II applies.

(D) If the acquisition value is \$79,507 or more but is less than \$100,000, the provision with its Alternate III applies.

(xviii) [52.225-6](#), Trade Agreements Certificate. This provision applies to solicitations containing the clause at [52.225-5](#).

(xix) [52.225-20](#), Prohibition on Conducting Restricted Business Operations in Sudan—Certification. This provision applies to all solicitations.

(xx) [52.225-25](#), Prohibition on Contracting with Entities Engaging in Certain Activities or Transactions Relating to Iran-Representation and Certifications. This provision applies to all solicitations.

(xxi) [52.226-2](#), Historically Black College or University and Minority Institution Representation. This provision applies to solicitations for research, studies, supplies, or services of the type normally acquired from higher educational institutions.

(2) The following certifications are applicable as indicated by the Contracting Officer:

\_\_\_ (i) [52.204-17](#), Ownership or Control of Offeror.

\_\_\_ (ii) [52.222-18](#), Certification Regarding Knowledge of Child Labor for Listed End Products.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

\_\_\_ (iii) [52.222-48](#), Exemption from Application of the Service Contract Labor Standards to Contracts for Maintenance, Calibration, or Repair of Certain Equipment- Certification.

\_\_\_ (iv) [52.222-52](#), Exemption from Application of the Service Contract Labor Standards to Contracts for Certain Services-Certification.

X (v) [52.223-9](#), with its Alternate I, Estimate of Percentage of Recovered Material Content for EPA–Designated Products (Alternate I only).

\_\_\_ (vi) [52.227-6](#), Royalty Information.

\_\_\_ (A) Basic.

\_\_\_(B) Alternate I.

\_\_\_ (vii) [52.227-15](#), Representation of Limited Rights Data and Restricted Computer Software.

(d) The offeror has completed the annual representations and certifications electronically via the SAM website accessed through <https://www.acquisition.gov>. After reviewing the SAM database information, the offeror verifies by submission of the offer that the representations and certifications currently posted electronically that apply to this solicitation as indicated in paragraph (c) of this provision have been entered or updated within the last 12 months, are current, accurate, complete, and applicable to this solicitation (including the business size standard applicable to the NAICS code referenced for this solicitation), as of the date of this offer and are incorporated in this offer by reference (see FAR [4.1201](#)); except for the changes identified below [*offeror to insert changes, identifying change by clause number, title, date*]. These amended representation(s) and/or certification(s) are also incorporated in this offer and are current, accurate, and complete as of the date of this offer.

FAR CLAUSE #	TITLE	DATE	CHANGE

Any changes provided by the offeror are applicable to this solicitation only, and do not result in an update to the representations and certifications posted on SAM.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

(End of Provision)

**K. 2    FAR 52.204-19        INCORPORATION BY REFERENCE OF**  
**REPRESENTATIONS AND CERTIFICATIONS**  
**(DEC 2014)**

The Contractor's representations and certifications, including those completed electronically via the System for Award Management (SAM), are incorporated by reference into the contract.

(End of Clause)

**K. 3    FAR 52.209-5        CERTIFICATION REGARDING RESPONSIBILITY**  
**MATTERS (OCT 2015)**

(a) (1) The Offeror certifies, to the best of its knowledge and belief, that—

(i) The Offeror and/or any of its Principals—

(A) Are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have ☐ have not ☐, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see [52.209-7](#), if included in this solicitation);

(C) Are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision;

(D) Have ☐ have not ☐, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

**NASA/KSC SOLICITATION N NK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

- (i) *The tax liability is finally determined.* The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.
- (ii) *The taxpayer is delinquent in making payment.* A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) *Examples.*

- (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. § 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
  - (ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. § 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.
  - (iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. § 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.
  - (iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).
- (ii) The Offeror has ☐ has not ☐, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

- (2) “Principal,” for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

This Certification Concerns a Matter Within the Jurisdiction of an Agency of the United States and the Making of a False, Fictitious, or Fraudulent Certification May Render the Maker Subject to Prosecution Under Section 1001, Title 18, United States Code.

- (b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- (c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror’s responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.
- (d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- (e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of Provision)

**K. 4    FAR 52.209-7    INFORMATION REGARDING RESPONSIBILITY**  
**MATTERS (JUL 2013)**

- (a) *Definitions.* As used in this provision—

“Administrative proceeding” means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (*e.g.*, Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

“Federal contracts and grants with total value greater than \$10,000,000” means—

- (1) The total value of all current, active contracts and grants, including all priced options; and
- (2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

“Principal” means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (*e.g.*, general manager; plant manager; head of a division or business segment; and similar positions).

- (b) The offeror [ ] has [ ] does not have current active Federal contracts and grants with total value greater than \$10,000,000.
- (c) If the offeror checked “has” in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:
  - (1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:
    - (i) In a criminal proceeding, a conviction.
    - (ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.
    - (iii) In an administrative proceeding, a finding of fault and liability that results in—
      - (A) The payment of a monetary fine or penalty of \$5,000 or more; or

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION K – REPRESENTATIONS, CERTIFICATIONS, AND OTHER STATEMENTS**  
**OF OFFERORS OR RESPONDENTS**

(B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c) (1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c) (1) (i) through (c) (1) (iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management database via <https://www.acquisition.gov> (see [52.204-7](#)).

(End of Provision)

**K. 5    NFS 1852.225-72        RESTRICTION ON FUNDING ACTIVITY WITH CHINA –**  
**REPRESENTATION (DEVIATION) (FEB 2012)**

(a) Definition - “China” or “Chinese-owned” means the People’s Republic of China, any company owned by the People’s Republic of China or any company incorporated under the laws of the People’s Republic of China.

(b) Public Laws 112-10, Section 1340(a) and 112-55, Section 536, restrict NASA from contracting to participate, collaborate, or coordinate bilaterally in any way with China or a Chinese-owned company with funds appropriated on or after April 25, 2011. Contracts for commercial and non-developmental items are excepted from the prohibition as they constitute purchase of goods or services that would not involve participation, collaboration, or coordination between the parties.

(c) Representation. By submission of its offer, the offeror represents that the offeror is not China or a Chinese-owned company.

**FAR 52.222-5            CONSTRUCTION WAGE RATE REQUIREMENTS -**  
**SECONDARY SITE OF THE WORK (MAY 2014)**

- (a) (1) The offeror shall notify the Government if the offeror intends to perform work at any secondary site of the work, as defined in paragraph (a)(1)(ii) of the FAR clause at [52.222-6](#), Construction Wage Rate Requirements, of this solicitation.
- (2) If the offeror is unsure if a planned work site satisfies the criteria for a secondary site of the work, the offeror shall request a determination from the Contracting Officer.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR RESPONDENTS**

- (b) (1) If the wage determination provided by the Government for work at the primary site of the work is not applicable to the secondary site of the work, the offeror shall request a wage determination from the Contracting Officer.
- (2) The due date for receipt of offers will not be extended as a result of an offeror's request for a wage determination for a secondary site of the work.

(End of Provision)

**FAR 52.225-10      NOTICE OF BUY AMERICAN REQUIREMENT –  
CONSTRUCTION MATERIALS (MAY 2014)**

- (a) *Definitions.* “Commercially available off-the-shelf (COTS) item,” “construction material,” “domestic construction material,” and “foreign construction material,” as used in this provision, are defined in the clause of this solicitation entitled “Buy American—Construction Materials” (Federal Acquisition Regulation (FAR) clause [52.225-9](#)).
- (b) *Requests for determinations of inapplicability.* An offeror requesting a determination regarding the inapplicability of the Buy American statute should submit the request to the Contracting Officer in time to allow a determination before submission of offers. The offeror shall include the information and applicable supporting data required by paragraphs (c) and (d) of the clause at FAR [52.225-9](#) in the request. If an offeror has not requested a determination regarding the inapplicability of the Buy American statute before submitting its offer, or has not received a response to a previous request, the offeror shall include the information and supporting data in the offer.
- (c) *Evaluation of offers.*
  - (1) The Government will evaluate an offer requesting exception to the requirements of the Buy American statute, based on claimed unreasonable cost of domestic construction material, by adding to the offered price the appropriate percentage of the cost of such foreign construction material, as specified in paragraph (b)(3)(i) of the clause at FAR [52.225-9](#).
  - (2) If evaluation results in a tie between an offeror that requested the substitution of foreign construction material based on unreasonable cost and an offeror that did not request an exception, the Contracting Officer will award to the offeror that did not request an exception based on unreasonable cost.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

(d) Alternate offers.

- (1) When an offer includes foreign construction material not listed by the Government in this solicitation in paragraph (b)(2) of the clause at FAR [52.225-9](#), the offeror also may submit an alternate offer based on use of equivalent domestic construction material.
- (2) If an alternate offer is submitted, the offeror shall submit a separate [Standard Form 1442](#) for the alternate offer, and a separate price comparison table prepared in accordance with paragraphs (c) and (d) of the clause at FAR [52.225-9](#) for the offer that is based on the use of any foreign construction material for which the Government has not yet determined an exception applies.
- (3) If the Government determines that a particular exception requested in accordance with paragraph (c) of the clause at FAR [52.225-9](#) does not apply, the Government will evaluate only those offers based on use of the equivalent domestic construction material, and the offeror shall be required to furnish such domestic construction material. An offer based on use of the foreign construction material for which an exception was requested—
  - (i) Will be rejected as nonresponsive if this acquisition is conducted by sealed bidding; or
  - (ii) May be accepted if revised during negotiations.

(End of Provision)

**FAR 52.233-2            SERVICE OF PROTEST (SEP 2006)**

- (a) Protests, as defined in section 33.101 of the Federal Acquisition Regulation, that are filed directly with an agency, and copies of any protests that are filed with the Government Accountability Office (GAO), shall be served on the Contracting Officer (addressed as follows) by obtaining written and dated acknowledgment of receipt from:

Contracting Officer  
OP-ES, Room 2488  
Headquarters Building,  
Kennedy Space Center, Florida 32899

- (b) The copy of any protest shall be received in the office designated above within one day of filing a protest with the GAO.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

(End of Provision)

**FAR 52.236-27      SITE VISIT (CONSTRUCTION) (FEB 1995) - ALTERNATE I**  
**(FEB 1995)**

- (a) The clauses at 52.236-2, Differing Site Conditions, and 52.236-3, Site Investigations and Conditions Affecting the Work, will be included in any contract awarded as a result of this solicitation. Accordingly, offerors or quoters are urged and expected to inspect the site where the work will be performed.
- (b) An organized site visit has been scheduled for: **January 07, 2016 at 10:00 AM (EST)**
- (c) Participants will meet at:  
**Pad B Operation Building J7-0689, Conference Room 1023**
- (d) Attendance is limited to three representatives from each prospective prime offeror. To attend the site visit, each representative must fill out and submit (in advance of the site visit) the following badge request form:

**KSC Form 28-889 NS, KSC Visitor Badge Request (See Attachment J-G)**

- (e) Submit the badge request form(s), via e-mail, to: [KSC-CoF-Badging@mail.nasa.gov](mailto:KSC-CoF-Badging@mail.nasa.gov)  
**Do not FAX the badge request to the Pass and ID Office fax number on the KSC Form.**
- (f) Badge Request Form Due Date: **January 5, 2016 by 3 PM (EST)**
- (g) Badge requests received after the due date will not be considered (Be advised that badge requests may be rejected for failure to fill in all the required information: names, titles, SSNs, citizenship, etc). **BADGES WILL BE PROVIDED TO U.S. CITIZENS ONLY. RESIDENT ALIENS AND FOREIGN NATIONALS WILL NOT BE BADGED FOR ACCESS TO KSC.**
- (h) Site visit participants will be responsible for:
  - Providing their own transportation
  - Bringing two (2) forms of identification with them (A list of acceptable forms of identification is provided as an appendix to Section L of this solicitation.)
  - Picking up badges **BEFORE THE SITE VISIT** at the KSC Badging

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR RESPONDENTS**

Office (Take S.R. 405 east from U.S. 1. Go past the KSC Visitor Complex. Badging Office is located on the right side of the road before KSC Gate 3). KSC Badging Office hours are Monday through Friday, 6:00A.M. to 4:00P.M. It is recommended you arrive at least 90 minutes prior to the site visit to obtain badges.

- Reporting to the site visit
  - Providing a hard hat, closed toed safety shoes and long pants
  - Providing a yellow traffic safety vest.
- (i) Visitors on KSC are allowed to possess and use photographic equipment and materials EXCEPT IN CONTROLLED AREAS. At the site visit meeting you will be notified as to the current status of the area.
- (j) The site visit is expected to last 1.5 hours.

(End of Provision)

**FAR 52.252-3                      ALTERATIONS IN SOLICITATION (APR 1984)**

Portions of this solicitation are altered with the following supplemental appendices:

Appendix 1	Question & Comment Form
Appendix 2	Past Performance Questionnaire
Appendix 3	Small Business Subcontracting Goals
Appendix 4	Acceptable Identity Guide For KSC Badging

**L. 4      LISTING OF NASA FAR SUPPLEMENT (48 CFR CHAPTER 18) PROVISIONS INCORPORATED BY REFERENCE**

**PROVISION NO.      TITLE**

**NFS 1852.219-75              INDIVIDUAL SUBCONTRACTING REPORTS (APR 2015)**

**NFS 1852.233-70              PROTESTS TO NASA (OCT 2002)**

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

**L. 5 LISTING OF NASA FAR SUPPLEMENT (48 CFR CHAPTER 18) PROVISIONS INCORPORATED IN FULL TEXT**

**NFS 1852.215-81 PROPOSAL PAGE LIMITATIONS (FEB 1998)**

- (a) The following page limitations are established for each portion of the proposal submitted in response to this solicitation.

Proposal Section	Page Limit
Project Execution Plan	No page limit.
Technical Experience Summary	Limited to two (2) pages per each project identified in the Technical Experience Summary
Page 1 of Past Performance Questionnaires	Limited to page 1 of each Past Performance Questionnaire mailed to each customer
Safety Past Performance Information	No page limit.
Past Performance Data From Prior Customers (Optional)	Limited to three (3) pages of information for each project identified in the Technical Experience Summary
Small Business Subcontracting Plan	No page limit ( <b>APPLICABLE TO LARGE BUSINESS OFFERORS ONLY</b> )
Small Business Subcontracting Goals Table (See Section L Appendix 3)	No page limit. ( <b>APPLICABLE TO BOTH LARGE AND SMALL BUSINESS OFFERORS</b> ) Large Business Offerors may include its Small Business Subcontracting Goals Table in its Small Business Subcontracting Plan)

- (b) A page is defined as one side of a sheet, 8 1/2" x 11", with at least one inch margins on all sides, using not smaller than 12 point type. Foldouts count as an equivalent number of 8 1/2" x 11" pages. The metric standard format most closely approximating the described standard 8 1/2" x 11" size may also be used.
- (c) Title pages and tables of contents are excluded from the page counts specified in paragraph (a) of this provision. In addition, the Cost section of your proposal is not page limited. However, this section is to be strictly limited to cost and price information. Information that can be construed as belonging in one of the other sections of the proposal will be so construed and counted against that section's page limitation.
- (d) If final revisions are requested, separate page limitations will be specified in the Government's request for that submission.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

(e) Pages submitted in excess of the limitations specified in this provision will not be evaluated by the Government and will be returned to the offeror.

**NFS 1852.236-74      MAGNITUDE OF REQUIREMENT (DEC 1988)**

The Government estimated price range of this project is **between \$5,000,000 and \$10,000,000.**

(End of Provision)

**L. 6      KSC 52.214-90      DELIVERY INSTRUCTIONS FOR BIDS/PROPOSALS**  
**(AUG 2005)**

**a. Delivery Address:**

All offers (bids or proposals) shall be delivered to the Central Industry Assistance Office (CIAO), 7110 N. Courtenay Parkway, Merritt Island, FL, 32953 on or before the date and time set for receipt of proposals or bids. The CIAO is located on state Road 3, approximately 2 miles south of Gate 2 to KSC. Access to KSC is not required.

**b. Hand-Delivered Offers:**

Offerors are responsible for assuring that hand-carried bids are either received by NASA Government employees at the CIAO or dropped in the CIAO mail box located outside of the building.

**c. Late Delivery of Offers/Bids:**

Late offers/bids will be processed in accordance with FAR 214-7, "Late Submissions, Modifications and Withdrawals of Bids," FAR 52.215-1, "Instructions to Offerors - Competitive Acquisition," FAR 52.212-1, "Instructions to Offerors – Commercial Items," or FAR 52.214-23, "Late Submission, Modifications, and Withdrawals of Technical Proposals Under Two-Step Sealed Bidding," included in this solicitation.

(End of Provision)

**L. 7      PROPOSAL IDENTIFICATION (MAY 2014)**

Sealed packages containing proposals shall be marked to show the offeror's name and address and be addressed as follows:

Attn: **RANDALL A. GUMKE**  
**NASA CONTRACT SPECIALIST, OP-ES**  
**SOLICITATION NNK16570600R**  
**TITLE OF PROJECT: INSTALL LH2 VENT IN-LINE LIQUID**  
**SEPARATOR, LC-39B**

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**  
**UNSEALED PROPOSAL PACKAGES DELIVERED TO THE CIAO WILL**  
**NOT BE ACCEPTED.**

(End of Provision)

**L. 8 COMMUNICATIONS REGARDING THIS SOLICITATION (MAY 2014)**

- (a) Questions or comments regarding this solicitation must be submitted via email, cite the solicitation number, and be directed to the following Government representative:

Name: **Randall A. Gumke**  
Email: **Randall.A.Gumke@NASA.gov**  
Address: **NASA John F. Kennedy Space Center,**  
**Mail Stop: OP-ES**  
**Kennedy Space Center, Florida 32899**

- (b) Questions should be submitted on the attached Question/Comment Form, in MS Word or equivalent (no PDF or read only) format or in the body of the e-mail message (in the same format as listed on the Question/Comment Form, Appendix 1 to Section L of this solicitation). Questions shall be sent to the Contracting Officer identified above by **January 14, 2016** to allow for analysis and dissemination of responses in advance of the proposal due date. Questions received after this date will be considered but may not be answered. **Oral questions will not be accepted.**
- (c) Questions or comments shall not be directed to the technical activity personnel.

(End of Provision)

**L. 9 GENERAL PROPOSAL PREPARATION INSTRUCTIONS (OCT 2015)**

**The solicitation, drawings, and specifications are available only through the Federal Business Opportunities website, (FedBizOpps) (<http://www.fbo.gov>). No hard copies, CD's or other media will be provided by the Government. It is the responsibility of the potential offerors to download the documents posted on FedBizOpps.**

- (a) The Government intends to make award without holding discussions with offerors. By submitting an offer in response to this solicitation, offerors are agreeing to comply with all terms and conditions contained in the solicitation. Offerors are cautioned to carefully follow the instructions set forth herein.
- (b) This solicitation DOES NOT invite offerors to submit alternate proposals. The Contracting Officer may reject any offer containing exceptions. Therefore, offerors are encouraged to include their best terms and conditions in the initial offer. If, despite the warning given in this paragraph, the offeror elects to include exceptions, they must be specifically and clearly identified on a separate page. In this solicitation, the words "offer" and "proposal" are used interchangeably. (See

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

definition of “offer” at FAR 2.101.)

(c) A PROPERLY SUBMITTED OFFER SHALL CONSIST OF THE FOLLOWING:

- (1) One original and two copies of the SF 1442, Solicitation Offer and Award, with Blocks 14 through 20c completed and signed by an authorized representative of the offeror. The person signing the offer must initial each erasure or change appending the offer.
- (2) Three copies of page 1 of all amendments issued, signed by an authorized representative of the offeror. (This requirement only applies if amendment receipts are not acknowledged on the signed SF 1442 submitted).
- (3) Completion of Section K representations and certifications on-line at the System for Award Management (SAM) website as required by FAR Provision 52.204-8, Annual Representations and Certifications, incorporated in full text in Section K of this solicitation.
- (4) Two (2) copies of offeror’s Project Execution Plan in accordance with Article L. 10.
- (5) Two (2) copies of offeror’s Technical Experience Summary in accordance with Article L. 10.
- (6) Two (2) copies of Page 1 of the Past Performance Questionnaires that the offeror provided to each past performance point of contact in accordance with Article L. 10. (The past performance questionnaire is provided as Appendix 2 to Section L. of this solicitation)
- (7) Two (2) copies of Safety Past Performance Data in accordance with Article L 10.
- (8) Two (2) copies of Past Performance Data From Customers in accordance with Article L.10. (Optional)
- (9) One (1) properly executed bid bond in accordance with NFS 1852.228-73. A copy of Standard Form 24, Bid Bond, may be downloaded at:  
  
<http://www.gsa.gov/Portal/gsa/ep/formslibrary.do?formType=SF>
- (10) Two (2) copies of the offeror’s Small Business Subcontracting Plan (**Applicable to large business offerors only**)
- (11) Two (2) copies of the offeror’s Small Business Subcontracting Goals Table (See Section L Appendix 3) (**Applicable to both large and small business offerors**)
- (12) Joint Ventures shall provide one copy of the Joint Venture Agreement and specifically identify who the controlling entity will be for this contract.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

A proposal that fails to conform to a material solicitation requirement is technically unacceptable and cannot form the basis for award.

By submitting an offer in response to this solicitation, the offeror is agreeing to comply with all terms and conditions contained in the solicitation. The terms and conditions of the solicitation, including any amendments, shall take precedence over the offeror's proposal unless the proposal is incorporated into the contract by specific reference.

(End of Provision)

**L. 10 NON-PRICE FACTORS (OCT 2015)**

The government will evaluate the non-price factors of Project Execution Plan, Technical Experience, Past Performance, and Small Business Utilization. Each offeror shall provide the following Non-Price Factors documentation as part of its proposal:

**(a) PROJECT EXECUTION PLAN FACTOR**

- (1) Offerors shall provide a Project Execution Plan identifying their ability to meet the project's strict period of performance. This project execution plan shall include two sections as follows:

- a. Section 1 shall include a high level summary schedule showing critical milestones including, but not limited to 1) notice to proceed, 2) new LH2 system component cleaning, 3) installation of the liquid separator, vaporizer, vent piping supports, and vent piping, 4) connection of new LH2 system components into existing system, and 5) testing complete.

- b. Section 2 shall include written discussion on the following:

Discussion of the offeror's proposed methodology for providing quality workmanship and meeting this contract's required schedule.

Discussion of the offeror's proposed plan for testing and installing the liquid separator and vaporizer, including dye penetrant, radiographic, hydrostatic, and cold shock testing as well as mass spectrometer leak testing.

Discussion of the offeror's proposed plan for testing and installing the stainless steel cryogenic piping, including dye penetrant, radiographic, hydrostatic, and cold shock testing as well as mass spectrometer leak testing.

Discussion of the offeror's proposed plan to achieve required cleanliness level of new system components and maintain the required cleanliness level of clean components as required in the specifications. Plan should describe, but not be limited to, handling, cleaning, sampling, testing and analysis, environmental control, and certification.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

- (2) The Successful Offeror's approved Project Execution Plan will be incorporated into the contract as an attachment.

**(b) TECHNICAL EXPERIENCE FACTOR**

- (1) Offerors shall provide a Technical Experience Summary identifying a total of three (3) contracts, projects, or both (if offeror provides more than 3 summaries only the first 3 will be evaluated) currently being performed or successfully completed within seven (7) years of the date of issuance of this solicitation **December 23, 2015** (may include federal, state, local government, or private projects) similar in size, content, and complexity to this Government acquisition. For submittal purposes, a task order on an indefinite-delivery indefinite-quantity (IDIQ) contract or basic ordering agreement (BOA) is considered a "contract or project". IDIQ contracts and BOAs are not considered a "contract or project".
- (2) Offerors proposing contractor teaming arrangement with a major subcontractor(s) shall identify the scope of work that will be performed by the prime contractor and the scope of work that will be performed by the major subcontractor(s). In addition to the three (3) contracts/projects performed by the prime contractor, in paragraph 1 above, offerors shall identify in the Technical Experience Summary three (3) contracts/projects being currently performed or successfully completed by the major subcontractor(s) within the past seven (7) years of the date of issuance of this solicitation **December 23, 2015** (may include federal, state, local Government or private jobs) similar in size, content, and complexity to the applicable work under this Government acquisition. (A major subcontractor is defined as a subcontractor performing 30% or more of the base contract work.)
- (3) The Technical Experience Summary shall be limited to two pages of information for each completed contract/project and include the following information for each referenced contract or project:

Name of project and contract/order number

Dates of the contract performance period as initially awarded

Dates of the actual completed performance period

Place of contract performance

Name and address of customer or Government Agency

Name, telephone number and e-mail address of Contracting Officer or equivalent customer contact

Dollar value of contract/order as initially awarded; break out major subcontract values

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

Dollar value of contract/order at completion

Discussion of how the selected contract/project demonstrates technical experience needed to meet the Government's minimum requirements for this project as described in section M.1(b)(2) of this solicitation.

Discussion of any problems encountered during contract performance to include, but not limited to, challenges to successfully completing the project on schedule; safety violations/discrepancies; Department of Labor violations/discrepancies; non-payment of employees, subcontractors, and/or suppliers; and terminations. Offerors shall also discuss the offeror's corrective actions relative to identified problems.

Discussions of contract changes resulting in large dollar value and/or schedule increases.

A discussion of contract requirements concerning subcontracting plan goals for small disadvantaged business concerns. (Applicable only to offerors who are large businesses)

**(c) PAST PERFORMANCE FACTOR**

**(1) Past Performance Questionnaires**

- (i) Offerors shall provide the Past Performance Questionnaire (Appendix 2 to Section L of this solicitation) to each past performance Contracting Officer or customer contact equivalent identified in its Technical Experience Summary. Offerors shall request these customers to submit the completed questionnaires via e-mail to the address below on or before **January 25, 2016**. **Past Performance Questionnaires will not be accepted directly from offerors.** Questionnaires shall be returned directly from the offeror's past performance source to the Contract Specialist listed below:

Name: **Randall A. Gumke**  
Email: **Randall.A.Gumke**  
Address: **NASA John F. Kennedy Space Center,**  
**Mail Stop: OP-ES**  
**Kennedy Space Center, Florida 32899**

- (ii) Offerors shall submit, with their proposals, copies of the first page of each past performance questionnaire that the offeror sends to each customer contact identified in its Technical Experience Summary. NOTE: The offeror is required to complete the "THIS SECTION TO BE COMPLETED BY THE OFFEROR" area prior to sending the questionnaire to its customer.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR RESPONDENTS**

**(2) Safety Past Performance.** Offerors shall provide a Safety Past Performance Volume to include:

- (i) The Offeror's Corporate Safety Program objectives and safety policy statement which should address: Management control/involvement, subcontractor oversight, hazard analysis and abatement, personnel protection, safety discrepancy / identification & resolution, protection of critical resources, and reporting / investigating & corrective actions in a timely manner.
  - (ii) A copy of the Offeror's Annual Summary of Occupational Injuries and Illnesses (Occupational Safety and Health Administration (OSHA) Form 300A) or equivalent for the previous three (3) years as described in Title 29, Code of Federal Regulations, Subpart 1904.5. If the offeror is exempt by regulation from maintaining and publishing such logs, equivalent data in the offeror's format is acceptable (such as loss runs from insurance carrier) which contains the data required. Data shall be compiled and reported by calendar year.
  - (iii) Documented evidence of Experience Modification Rate (EMR) for the previous three (3) years.
  - (iv) Days Away, Restricted or Transferred Rate (DART) for the previous three (3) years. The data shall include incidence rates of days away from work, job transfer, or restriction cases, occupational injuries and illnesses, by quartile distribution and employment size group, private industry as most recently published by the Bureau of Labor Statistics.
  - (v) Total Case Incident Rate (TCIR) for the previous three (3) years. The data shall include incidence rates of total recordable cases of occupational injuries and illnesses, by quartile distribution and employment size group, private industry as most recently published by the Bureau of Labor Statistics.
  - (vi) Results of any investigations of violations or pending OSHA violations from the past three (3) years.
- (3) Offerors may provide statements, letters, reports or evaluations from prior customers indicating the level and quality of past performance on the contracts/projects listed in the Technical Experience Summary. This supplemental information shall not exceed three (3) pages of information for each contract/project reference in your Technical Experience Summary. Submission of this supplemental information is optional.

**(d) SMALL BUSINESS UTILIZATION FACTOR**

The Small Business Utilization Factor is composed of (1) Small Business Subcontracting Goals and (2) Commitment to the Small Business Program.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

All large business offerors must complete the portion of the instructions specific to the Small Business Subcontracting Plan under the Small Business Subcontracting Goals Section below. Small business offerors are not required to submit Small Business Subcontracting Plans, but are required to indicate the amount of effort proposed to be done by a small business either at the prime level or at the first tier subcontract level.

All offerors (both large and small businesses) are required to respond to the Commitment to the Small Business Program.

**(1) Small Business Subcontracting Goals**

- (i) This solicitation contains, in full text, FAR clause 52.219-9, “Small Business Subcontracting Plan” with Alternate II. The Plan described and required by the clause, including the associated subcontracting percentage goals and subcontracting dollars, shall be submitted with each large business offeror’s proposal. **(Applicable to only large business offerors)**
- (ii) The Small Business Subcontracting Plan submitted with the proposal shall be incorporated in Section J of the resulting contract. The requirements in the Plan must flow down to large business subcontracts expected to exceed \$1,500,000 for construction of a public facility. Although these large business subcontractors are encouraged to meet or exceed the stated goals, it is recognized that the subcontracting opportunities available to these subcontractors may differ from those suggested in the solicitation based upon the nature of their respective performance requirements. **(Applicable to only large business offerors)**
- (iii) The Contracting Officer’s assessment of appropriate subcontracting goals for this acquisition, expressed as a percent of TOTAL CONTRACT VALUE (basic and, if applicable, all options combined), for first tier subcontractors, is as follows:

Small Businesses (SB)	<b>6.00%</b>
Small Disadvantaged Business (SDB) Concerns	<b>0.38%</b>
Women-Owned Small Business (WOSB) Concerns	<b>1.37%</b>
Historically-Black Colleges and Universities (HBCU)/Minority Institutions (MI)	<b>0.00%</b>
HUBZone (HBZ) Small Business Concerns	<b>0.15%</b>
Veteran-Owned Small Business (VOSB) Concerns	<b>2.20%</b>
Service-Disabled Veteran-Owned Small Business (SDVOSB) Concerns	<b>1.90%</b>

The numbers above reflect the Contracting Officer’s assessment of the

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

appropriate small business subcontracting goals to be achieved at the completion of contract performance.

- (iv) **All Offerors (both large and small businesses)** shall complete and submit with their proposals Section L Appendix 3, SMALL BUSINESS SUBCONTRACTING GOALS, which provides a breakdown of the Offeror's proposed goals, by small business category, expressed in terms of both a percent of TOTAL CONTRACT VALUE and a percent of TOTAL PLANNED SUBCONTRACTING DOLLARS. Offerors shall modify the appendix to show the proposed subcontracting goals for the basic contract requirement and, if applicable, each option separately.
  - (v) **Large business offerors** are encouraged to propose goals that are equivalent to or greater than those recommended by the Contracting Officer. However, large businesses must perform an independent assessment of the small business subcontracting opportunities. Offerors shall discuss the rationale for any goal proposed that is less than the Contracting Officer's recommended goal in any category. In addition, the Offeror shall describe the efforts made to establish a goal for that category and what ongoing efforts, if any, the Offeror plans during performance to increase participation in that category. If it is anticipated that the proposed small business goals will not be met by the submission of the first Individual Subcontracting Report (ISR) for this effort as required by FAR 52.219-9, Small Business Subcontracting Plan, the large business shall discuss their approach to include a timeline for meeting these goals and the rationale for it.
  - (vi) **Small business offerors** are encouraged to propose goals that are equivalent to or greater than those recommended by the Contracting Officer. However, offerors must perform an independent assessment of the small business subcontracting opportunities.
- (2) Commitment to the Small Business Program (Applicable to both Large and Small Business Offerors)**
- (i) All Offerors shall briefly describe work that will be performed by small businesses. Proposals should also identify any work to be subcontracted that is considered "High Technology." ("High Technology" is defined as research and development efforts that are within or advance the state-of-the-art in technology discipline and are performed primarily by professional engineers, scientists, and highly skilled and trained technicians or specialists.)
  - (ii) If the subcontractor(s) is/are known, offerors must connect the work to the subcontractor and specify the extent of commitment to use the subcontractor(s) (enforceable vs. non-enforceable commitments). (Small Business Offerors shall provide this information to the extent subcontracting opportunities exist in their approach to performing the requirement).

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – INSTRUCTIONS, CONDITIONS, AND NOTICE TO OFFERORS OR**  
**RESPONDENTS**

- (iii) All Offerors shall provide information demonstrating the extent of commitment to utilize small business concerns and to support their development. Information provided shall include a brief description of established or planned procedures and organizational structure for Small Business outreach, assistance, participation in the Mentor Protégé program, counseling, market research and Small Business identification, and relevant purchasing procedures. For Large Business Offerors, this information should conform to applicable portions of the submitted Small Business Subcontracting Plan. Small Business Offerors shall provide this information to the extent subcontracting opportunities exist in their approach to performing the requirement).

(End of Provision)

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L – APPENDIX 1**  
**QUESTION/COMMENT FORM**

Questions or comments regarding this solicitation must be submitted via email to the Contracting Officer identified below.

Name: **Randall A. Gumke**  
Email: **Randall.A.Gumke@nasa.gov**  
Address: **NASA John F. Kennedy Space Center,**  
**Mail Stop: OP-ES**  
**Kennedy Space Center, Florida 32899**

Questions shall be submitted on this form in MS Word or equivalent (no PDF or read only formats). Questions also may be submitted in the body of an e-mail message following this form's format. Late questions or comments will be considered by the Government but may not be answered. Responses to questions will be issued as amendments to the solicitation. The cutoff date and time for receipt of questions is **January 14, 2016**.

Offerors are cautioned that technical activity personnel are not authorized to answer solicitation questions or comments and that any responses from them may not accurately represent the Government's official position.

**PLEASE PROVIDE A SOLICITATION REFERENCE SUCH AS SOLICITATION PAGE NUMBER, SPECIFICATION SECTION, DRAWING SHEET, ETC, IF APPLICABLE.**

**NASA/KSC SOLICITATION NNK16570600R  
SECTION L/APPENDIX 2  
PAST PERFORMANCE QUESTIONNAIRE**

**Install LH2 Vent In-Line Liquid Separator, LC-39B**

NASA Kennedy Space Center's solicitation requires offerors to provide this Past Performance Questionnaire to customers to complete and return to NASA. Past performance raters are requested to submit the completed questionnaires to the contracting officer identified below via e-mail, to arrive not later than the proposal submission date.

**Completed questionnaires should be sent to:**

Name: **Randall A. Gumke**  
Email: **Randall.A.Gumke@nasa.gov**  
Address: **NASA John F. Kennedy Space Center,  
Mail Stop: OP-ES  
Kennedy Space Center, Florida 32899**

Raters are requested to complete the questionnaire forms as written since altered or substituted questionnaires may not adequately address the information NASA will be evaluating.

**SECTION I. THIS SECTION TO BE COMPLETED BY THE OFFEROR**

Name of Contractor Being Evaluated: \_\_\_\_\_

Name of Project and Contract/Order Number: \_\_\_\_\_

Period of Contract Performance (dates): \_\_\_\_\_

Place of Contract Performance: \_\_\_\_\_

Contract Value at Award: \_\_\_\_\_

Contract Value at Completion or Current Contract Amount: \_\_\_\_\_

Contract Status (Prime or Subcontract?): \_\_\_\_\_

Point of Contact: (Rater) Name/Address/Office Phone Number/E-Mail Address:

**SECTION L/APPENDIX 2**  
**PAST PERFORMANCE QUESTIONNAIRE**

**RATING DEFINITIONS:**

On a scale of 1 to 5, with 1 being unsatisfactory and 5 being exceptional, please rate the contractor on the past performance areas included in this questionnaire. A rating of N/A should be used if the question is not applicable or the answer is unknown. Space is provided for any additional comments raters may want to provide. The definitions associated with the 1 to 5 ratings are provided below:

1. **UNSATISFACTORY:** Performance does (did) not meet most contractual requirements and recovery is not likely (did not occur). The contractual performance contains (contained) serious problem(s) for which the contractor's corrective actions appear ineffective (were ineffective).
2. **MARGINAL:** Performance does (did) not meet some contractual requirements. The contractual performance reflects (reflected) serious problem(s) for which the contractor has not yet identified acceptable corrective actions (did not provide acceptable corrective actions).
3. **SATISFACTORY:** Performance meets (met) contractual requirements. The contractual performance reflects (reflected) some minor problems. Corrective actions being taken by the contractor appear to be effective (Corrective actions taken were effective).
4. **VERY GOOD:** Performance meets (met) contractual requirements and exceeds (exceeded) some of the Government's expectations. The contractual performance reflects (reflected) some minor problems and corrective actions being taken by the contractor appear to be effective (Corrective actions taken were effective).
5. **EXCEPTIONAL:** Performance meets (met) contractual requirements and exceeds (exceeded) many of the Government's expectations. The contractual performance reflects (reflected) few minor problems and corrective actions taken by the contractor appear to be highly effective (corrective actions taken were effective).

**N/A:** Not applicable or rater has not observed performance in this area.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L/APPENDIX 2**  
**PAST PERFORMANCE QUESTIONNAIRE**

**CONTRACTOR'S TECHNICAL PERFORMANCE QUESTIONS**

1. The effectiveness of the Contractor's overall project management ability (including but not limited to project managers, quality control managers, trade integrators, safety managers, and superintendents); labor (skilled and unskilled workers); equipment; supplies; tools; and financial resources to successfully perform, provide contract deliverables and complete work in a safe and timely manner.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L/APPENDIX 3**  
**SMALL BUSINESS SUBCONTRACTING GOALS**

**This appendix shall be completed by all Large and Small Business Offerors and submitted as part of the proposal. (Large Business Offerors may include this Appendix in their Small Business Subcontracting Plans.)**

	<i>Column A</i>	<i>Column B</i>	<i>Column C</i>
<b>Business Category</b>	<b>Goal as Percent of Contract Value</b>	<b>Dollar Value to be subcontracted per Category</b>	<b>Goal as Percent of Subcontracting Value</b>
Small Business Concerns			
Large Business Concerns			
Total Dollars to be Subcontracted			
<b>Subcategories of Small Business Concerns</b> (Note: <i>The small business subcategories may not necessarily add up to the percentage and dollar amount in the “Small Business Concerns” category since some small businesses do not fall into any of the subcategories, while others will fall into more than one subcategory.</i> )			
Women Owned Small Business Concerns			
Small Disadvantaged Business Concerns			
Veteran Owned Small Business Concerns			
Service-Disabled Veteran-Owned Small Business Concerns			
HUBZone Small Business Concerns			
Historically Black Colleges and Universities/Minority Institutions			

Notes to Offerors:

It is recommended that Offerors first complete Column B by entering the dollar amount the Offeror proposes to subcontract to each business category and subcategory.

To complete Column A, divide the dollar amount in Column B by the **total offered price of the proposal** (that is, total contract value).

To complete column C, divide the corresponding amount in Column B by the amount in the “Total Dollars to be Subcontracted” cell in Column B. [Note: The “Total Dollars to be Subcontracted” amount in Column C will always be that category divided by itself (100 percent if any dollars are subcontracted).]

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L/APPENDIX 3**  
**SMALL BUSINESS SUBCONTRACTING GOALS**

**EXAMPLE OF A PROPERLY COMPLETED SMALL BUSINESS SUBCONTRACTING GOALS APPENDIX**

Example of Subcontracting Goals, expressed in both contract value and subcontract value, for a contract proposed at \$100M with estimated subcontracts of \$50M:

<b>Business Category</b>	<b>Column A Goal as Percent of Contract Value</b>	<b>Column B Dollar Value to be subcontracted per Category</b>	<b>Column C Goal as Percent of Subcontracting Value</b>
Small Business Concerns	25 percent	\$25,000,000	50 percent
Large Business Concerns	n/a	\$25,000,000	50 percent
Total Dollars to be Subcontracted	n/a	\$50,000,000	100 percent
<i>The following small business subcategories do not necessarily add up to the percentage and dollar amount in the “Small Business Concerns” category above, since some small businesses do not fall into any of the subcategories below, while others will fall into more than one subcategory below.</i>			
<b>Subcategories of Small Business Concerns</b>			
Women Owned Small Business Concerns	9 percent	\$9,000,000	18 percent
Small Disadvantaged Business Concerns	5.5 percent	\$5,500,000	11 percent
Veteran Owned Small Business Concerns	2.5 percent	\$2,500,000	5 percent
Service-Disabled Veteran-Owned Small Business Concerns	1.5 percent	\$1,500,000	3 percent
HUBZone Small Business Concerns	1.5 percent	\$1,500,000	3 percent
Historically Black Colleges and Universities/Minority Institutions	1.5 percent	\$1,500,000	3 percent

To complete Column A, divide the dollar amount in Column B by the **total offered price of the proposal** (that is, total contract value). In the example above, Column A for Veteran Owned Business Concerns = \$2,500,000 divided by \$100,000,000, or 2.5 percent.

To complete column C, divide the corresponding amount in Column B by the amount in the “Total Dollars to be Subcontracted” cell in Column B. In the example above, Column C for Women-Owned Small Businesses = \$9,000,000 divided by \$50,000,000, or 18 percent.

Note: the “Total Dollars to be Subcontracted” amount in Column C will always be that category divided by itself (100percent if any dollars are subcontracted).

NASA/KSC SOLICITATION NNK16570600R  
SECTION L/APPENDIX 4  
ACCEPTABLE IDENTITY GUIDE FOR KSC BADGING

The below listing details the Office of Management and Budget's (OMB) approved documentation required to obtain a NASA Federal Credential / Photo Identification Badge.

Two (2) identity sources are required. One must be a valid Federal or State government issued picture identification. The other identity source must be one of the following documents:

---

**List of Acceptable Documents to Accompany a Federal or State Photo Identification**

1. U.S. Passport (unexpired)
2. Permanent Resident Card or Alien Registration Receipt card (Form I-551)
3. An Unexpired Foreign Passport with a Temporary I-551 Stamp
4. An Unexpired Employment Authorization Document that contains a Photograph (Form I-766)
5. An Unexpired Foreign Passport with an Unexpired Arrival-Departure Record, (Form I-94 or I-94A), bearing the same name as the passport and containing an endorsement of the alien's nonimmigrant status, if that status authorizes the alien to work for the employer
6. Unexpired Driver's License\*\* or ID Card issued by a state or outlying possession of the United States provided it contains a photograph or information such as name, date of birth, gender, height, eye color and address
7. Unexpired ID card issued by United States federal, state or local government agencies or entities, provided it contains a photograph, or information such as name, date of birth, gender, height, eye color and address
8. U.S. School ID card with a photograph
9. U.S. Voter's Registration Card
10. U.S. Military Dependent's ID Card
11. U.S. Military card or draft record
12. U.S. Coast Guard Merchant Mariner Card
13. Native American Tribal Document
14. Unexpired Driver's License Issued by a Canadian government authority
15. U.S. Citizen ID Card (Form I-197)
16. ID Card for use of Resident Citizens of the United States (Form I-179)
17. Unexpired Passport from the Federated States of Micronesia (FSM) or the Republic of the Marshall

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION L/APPENDIX 4**  
**ACCEPTABLE IDENTITY GUIDE FOR KSC BADGING**

Islands (RMI) with Form I-94 or I-94A indicating nonimmigrant admission under the Compact of Free Association Between the U.S. and the FSM or RMI

18. U.S. Social Security Card issued by the Social Security Administration (*other than a card stating it is not valid for employment*)
19. Certification of Birth or Birth Abroad issued by the Department of State (Form FS-545 or Form DS-1350)
20. Original or Certified copy of birth certificate issued by a state, county, municipal authority or outlying possessions of the United States bearing an official seal
21. Unexpired employment authorization document issued by DHS

**U.S. CITIZENS UNDER 18 YEARS OF AGE MAY PROVIDE:**

22. School Record or report card
23. Clinic, Doctor, or Hospital Record
24. Day-care or Nursery School Record

\*\* The NASA Office of Protective Services (OPS) is implementing enforcement of the REAL ID Act agency wide effective July 21, 2014. This Act was passed by Congress and implemented for the Federal government by the Department of Homeland Security (DHS). The basic premise for the Real ID Act is to require individual states to enhance the security of their driver's license and identity card issuance processes. There are still 11 non-compliant states and 1 territory which are: Alaska, American Samoa, Arizona, Kentucky, Louisiana, Maine, Massachusetts, Minnesota, Montana, New York, Oklahoma, and Washington. As a caveat, Minnesota, New York, and Washington offer an Enhanced Driver's License (EDL), which will be acceptable. EDLs are identifiable by the American Flag on the face of the card.

As a result of this requirement, effective July 21, 2014 the KSC Badging Office will no longer accept driver's licenses or identity cards from the states listed above. If you possess a license from one of the above listed states, please ensure that you have an alternate form of identification with a photograph such as a passport, military ID, or federal employee badge. Visitors without acceptable identification will require an escort at all times while on Center.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

**M.1 BASIS FOR CONTRACT AWARD (OCT 2015)**

**(a) EVALUATION FACTORS AND SELECTION OF THE SUCCESSFUL OFFEROR**

The Contracting Officer will utilize a Lowest Price Technically Acceptable (LPTA) source selection process to make an award decision. Only one award will be made as a result of this solicitation. Award will be made to the offeror who is deemed responsible in accordance with the Federal Acquisition Regulation who conforms to the solicitation requirements and whose proposal, judged by an overall assessment of the evaluation criteria and other considerations specified in this solicitation, meets the technically acceptable standard for the non-price factors and provides the lowest evaluated price.

In accordance with the Instructions to Offerors – Competitive Acquisition provision of this solicitation (FAR 52.215-1), the Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a).) Therefore, the offeror's initial proposal should contain the offeror's best terms. The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary.

**(b) EVALUATION OF NON-PRICE FACTORS**

Offerors will be evaluated on the non-price factors of Project Execution Plan, Technical Experience, Past Performance, and Small Business Utilization. "ACCEPTABLE" means the proposal clearly meets the minimum requirements of the solicitation. "UNACCEPTABLE" means the proposal does not clearly meet the minimum requirements of the solicitation. An "UNACCEPTABLE" rating in any non-price factors below results in an overall technical proposal being rated "UNACCEPTABLE", which makes the proposal ineligible for award.

**(1) PROJECT EXECUTION PLAN FACTOR**

The Project Execution Plan must demonstrate a sound approach for meeting the project schedule. The Project Execution Plan will be evaluated as follows:

(a) Section one (1) will be evaluated to determine whether:

- The high level performance schedule includes critical milestones and ensures work is accomplished within the stated contract performance period.

(b) Section two (2) will be evaluated to determine whether:

- The offeror's proposed methodology will enable the offeror to meet the contract's required schedule.
- The offeror's proposed plan to test and install the liquid separator and vaporizer includes dye penetrant, radiographic, hydrostatic, and cold shock testing as well

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

as mass spectrometer leak testing that is technically comprehensive and demonstrates a clear understanding of the requirements.

- The offeror's proposed plan for testing and installing the stainless steel cryogenic piping includes dye penetrant, radiographic, hydrostatic, and cold shock testing as well as mass spectrometer leak testing that is technically comprehensive and demonstrates a clear understanding of the requirements.
- The offeror's proposed plan to achieve required cleanliness level of new system components and maintain the required cleanliness level of clean components describes handling, cleaning, sampling, testing and analysis, environmental control and certification that is technically comprehensive and demonstrates a clear understanding of the requirements.

**To receive an “Acceptable” rating for the Project Execution Plan Factor, the offeror must provide a sound plan that will ensure successful completion of the project on schedule.**

**(2) TECHNICAL EXPERIENCE FACTOR**

In order to determine whether the offeror has the technical experience needed to meet the Government's minimum requirements for this project, the Government will assess the technical experience of the offeror on contracts/projects identified in the offeror's Technical Experience Summary. (For evaluation purposes, a task order on an IDIQ contract or BOA is considered a “contract or project”. IDIQ contracts and BOAs are not considered a “contract or project”.) Offerors must meet all of the following standards to receive an “Acceptable” rating on this factor:

- (i) All contracts/projects listed in the Technical Experience Summary must be in progress with at least 50% of the construction work completed or have been successfully completed within seven (7) years of the date of issuance of this solicitation **December 23, 2015**.
- (ii) At least two of the projects listed in the Technical Experience Summary must have been individually valued at or over \$1,000,000.
- (iii) At least two of the projects must have included work on cryogenic systems using stainless steel piping.
- (iv) At least two of the projects listed in the Technical Experience Summary must have involved development of cleaning plans and procedures and achievement of particulate cleanliness levels to specification ISO 14952 Level 1000, KSC-C-123 Level 1000, or the substantially equivalent level in ASTM G93.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

- (v) In aggregate, the projects listed in the Technical Experience Summary must have involved testing of stainless steel cryogenic piping to include dye penetrant, radiographic, hydrostatic, and cold shock testing as well as mass spectrometer leak testing.

**To receive an “Acceptable” rating for the Technical Experience Factor the offeror must meet all of the requirements under this factor.**

**(3) PAST PERFORMANCE FACTOR**

The Government will assess the past performance of the offeror on all of the contracts/projects identified in the offeror's Technical Experience Summary. (This assessment of past performance information is separate from the contractor responsibility determination required under FAR Subpart 9.1.)

The completed past performance questionnaires submitted by the offerors' contracting officers or customer contact equivalents identified in the Technical Experience Summary will be evaluated. The Government will consider this information, as well as information obtained from other sources (to include interviews with previous customers, CPARS and PPIRS), when evaluating each offeror's past performance. The currency and relevance of the information, source of the information, context of the data, and general trends in the offeror's past performance will be considered. The evaluation will take into account past performance information regarding predecessor companies, key personnel who have relevant experience, and/or subcontractors who will perform major or critical aspects of the requirement when such information is relevant to this acquisition. The Government will not disclose the names of persons/companies who provide performance information. If, during the course of the evaluation, the Government obtains adverse information to which the offeror has not previously had an opportunity to respond, the Government will afford the offeror an opportunity to clarify the adverse information.

- (i) **Past Performance Evaluation Areas.** The government will evaluate the offeror's past performance in:
  - (A) Providing effective project management, labor, equipment, supplies, tools, and financial resources to successfully perform, provide contract deliverables and complete work in a safe and timely manner.
  - (B) Providing timely and effective contractor management attention at the job site for resolution of contract problems.
  - (C) Providing quality engineering shop drawings and accurate and complete as-built documentation.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

- (D) Providing project completion within ten percent (10%) of original contract cost and schedule (except where customer required changes caused the cost or schedule deviation).
- (E) Providing appropriately marked product data cut sheets; highlighting the particular model # / part #s, sizes, options, and other applicable data for the products to be provided and installed.
- (F) Providing coordination, communication, and teaming between owner, owner's representatives, and any other on-site contractors or personnel as applicable.
- (G) Maintaining an acceptable Safety Program:
  - 1. Maintaining acceptable Days Away Restricted or Transferred (DART), Total Case Incident Rate (TCIR), OSHA 300 Log and Experience Modification Rating (EMR) rates for the previous three years.
  - 2. Maintaining a safety and health program with visible management control and involvement
  - 3. Maintaining a safety program ensuring subcontractors' safety performances was consistent with the prime contractor's safety program
  - 4. Ability to analyze worksite hazards prior to the start of work to ensure that all hazards were abated
  - 5. Maintaining a safety program with emergency procedures for securing dangerous conditions and protecting personnel during contract performance
  - 6. Ability to understand and comply with safety requirements
  - 7. Maintaining a safety program that ensured the customer's critical resources were adequately protected
  - 8. Ability to resolve safety discrepancies in a timely and effective manner
  - 9. Ability to report, investigate, and take corrective actions on safety accidents/incidents in a timely and effective manner
- (H) Providing prompt payment of employees, subcontractors, and suppliers for services and supplies performed/delivered under the contract.
- (I) Complying with Davis-Bacon Act and other labor requirements and resolution of reported labor violations/discrepancies.

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

- (J) Complying with contract subcontracting plan goals for small disadvantaged business concerns. (**Applicable only to offerors who are large businesses**).

**(ii) Past Performance Confidence Ratings:**

The Offeror's relevant experience and past performance will be reviewed and an assessment made that reflects the Government's judgment of the probability of each offeror successfully accomplishing the proposed effort based on that offeror's demonstrated performance. Past performance shall be evaluated for each offeror using the following levels of confidence ratings:

**Very High Level of Confidence**

The offeror's relevant past performance is of exceptional merit and is very highly pertinent to this acquisition, indicates exemplary performance in a timely, efficient, and economical manner and very minor (if any) problems with no adverse effect on overall performance. Based on the offeror's performance record, there is a very high level of confidence that the offeror will successfully perform the required effort.

**High Level of Confidence**

The offeror's relevant past performance is highly pertinent to this acquisition; demonstrating very effective performance that would be fully responsive to contract requirements. Offeror's past performance indicates that contract requirements were accomplished in a timely, efficient, and economical manner for the most part, with only minor problems that had little identifiable effect on overall performance. Based on the offeror's performance record, there is a high level of confidence that the offeror will successfully perform the required effort.

**Moderate Level of Confidence**

The offeror's relevant past performance is pertinent to this acquisition, and it demonstrates effective performance. Performance was fully responsive to contract requirements; there may have been reportable problems, but with little identifiable effect on overall performance. Based on the offeror's performance record, there is a moderate level of confidence that the offeror will successfully perform the required effort.

**Low Level of Confidence**

The offeror's relevant past performance is at least somewhat pertinent to this acquisition, and it meets or slightly exceeds minimum acceptable standards. Offeror achieved adequate results; there may have been reportable problems with identifiable, but not substantial, effects on overall performance. Based on the offeror's performance record, there is a low level of confidence that the offeror will

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

successfully perform the required effort. Changes to the offeror's existing processes may be necessary in order to achieve contract requirements.

**Very Low Level of Confidence**

The offeror's relevant past performance does not meet minimum acceptable standards in one or more areas; remedial action was required in one or more areas. Performance problems occurred in one or more areas which, adversely affected overall performance. Based on the offeror's performance record, there is a very low level of confidence that the offeror will successfully perform the required effort.

**Neutral**

In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available, the offeror may not be evaluated favorably or unfavorably on past performance [see FAR 15.305(a) (2) (ii) and (iv)].

**To receive an "Acceptable" rating for past performance, the offeror must receive an overall Past Performance Confidence Rating of Very High or High.**

**(4) SMALL BUSINESS UTILIZATION FACTOR**

The evaluation of Small Business Subcontracting Goals and Commitment to the Small Business Program applies to all Offerors, except that Small Businesses are not required to submit a Small Business Subcontracting Plan.

**(i) Evaluation of Small Business Subcontracting Plan and Small Business Subcontracting Goals for Large Business Offerors:**

The Offeror's Small Business Subcontracting Plan will be evaluated in terms of meeting the requirements of FAR 19.704, Subcontracting Plan Requirements. The evaluation of the Small Business Subcontracting Plan will be on the basis of total contract value.

The Small Business Subcontracting Goals proposed by Large Business Offerors will be evaluated in terms of the Offeror's proposed goals for first tier subcontractors (overall small business goal as well as goals for each small business subcategory) in comparison to the Contracting Officer's assessment of the appropriate subcontracting goals for this procurement. A proposal will not be rejected solely because the submitted Small Business Subcontracting Goals do not meet the NASA recommended goals. NASA will consider the amount of work being retained for performance by the prime contractor in-house when determining whether Small Business Subcontracting Goals are acceptable.

**(ii) Evaluation of Small Business Subcontracting Goals for Small Business**

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

**Offerors:**

NASA will evaluate the amount of work proposed to be performed by the small business prime and any small businesses at the first tier subcontract level. The proposed amount of work to be performed by the prime small business and first tier small business subcontractors will be evaluated against the Contracting Officer's assessment of the overall subcontracting goal for this procurement. Individual subcontracting goals by small business categories will not be evaluated for small business primes and their first tier subcontractors. (NOTE: A proposal will not be rejected solely because the submitted Small Business Subcontracting Goals do not meet the NASA recommended goals. NASA will consider the amount of work being retained for performance by the prime contractor in-house when determining whether Small Business Subcontracting Goals are acceptable.)

**(iii) Evaluation of Commitment to Small Businesses for all Offerors:**

- (A) NASA will evaluate the extent to which any work performed by a small business subcontractor is identified as "High Technology." NASA will also evaluate the extent of commitment to use the subcontractor(s) (enforceable vs. non-enforceable commitments).
- (B) NASA will evaluate the extent to which the identity of the small business subcontractor is specified in the proposal as well as the extent of the commitment to use small businesses. (For small business Offerors, NASA will evaluate this only if subcontracting opportunities exist).
- (C) NASA will evaluate the Offeror's established or planned procedures and organizational structure for small business outreach, assistance, participation in the Mentor Protégé program, counseling, market research and small business identification, and relevant purchasing procedures. (For large businesses Offerors, this information should conform to its submitted Small Business Subcontracting Plan. For small business Offerors, NASA will evaluate this only if subcontracting opportunities exist).

Offerors must meet all of the following standards to receive an "Acceptable" rating on this factor:

- (i) The large businesses' Small Business Subcontracting Plan addresses all of the eleven (11) requirements of FAR Clause 52.219-9, Small Business Subcontracting Plan, paragraphs (d)(1) thru (11). **(Applicable to only large business offerors)**
- (ii) The rationale provided for any proposed subcontracting goal that is less than the Contracting Officer's recommended goal includes an independent assessment of the small business opportunities and demonstrates a reasonable attempt was made

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

to meet the Contracting Officer's recommended small business subcontracting goals. **(Applicable to both large and small business offerors)**

(iii)The offeror's proposal demonstrates a reasonable commitment to the use of small business subcontractors. **(Applicable to both large and small business offerors)**

**(c) EVALUATION OF PRICE PROPOSALS**

- (1) The Contracting Officer will conduct a price analysis on each offeror's submitted price. As part of this process, the Government will establish a proposal price ranking of all offers from lowest to highest. The proposed prices will be evaluated by comparison against the Government estimate and prices submitted by other offerors. Prices determined to be unreasonably high or unreasonably low, when compared to the Government estimate and/or prices submitted by other offerors, will be considered unreasonable and will not be considered for award.
- (2) The ten (10) percent HUBZone price evaluation preference provided in FAR 52.219-4, Notice of Price Evaluation Preference for HUBZone Small Business Concerns, will be applied, if applicable.

**(d) EVALUATION PROCESS**

The following describes the general methodology that will be used for proposal evaluation:

- (1) Each Teaming Arrangement or Joint Venture will be evaluated as a single offeror. Offerors will be checked against the List of Parties Excluded From Federal Procurement and Non-procurement Programs. Offerors who appear on the List will be eliminated without further consideration. Proposals will also be checked for minor informalities or irregularities. The Contracting Officer will follow guidance at FAR 15.306 for resolving minor informalities or irregularities.
- (2) The Contracting Officer will conduct a price analysis on each offeror's submitted price.
- (3) The technical (non-price) volume of the offeror with the lowest evaluated reasonable price will be given to the technical evaluators for review. If the technical (non-price) proposal is determined to be technically "Acceptable", award shall be made to that offeror, subject to a positive responsibility determination in accordance with FAR Part 9. In order for a technical proposal to be determined technically "Acceptable", all of the non-price factors in the technical proposal must be individually evaluated as "Acceptable".

**NASA/KSC SOLICITATION NNK16570600R**  
**SECTION M – EVALUATION FACTORS FOR AWARD**

- (4) If the technical proposal is determined to be technically “Unacceptable” the technical (non-price) volume of the offeror with the next lowest evaluated reasonable price will be given to the technical evaluators for review. If the technical (non-price) proposal of the offeror with the next lowest evaluated reasonable price is determined to be technically “Acceptable” award shall be made to that offeror subject to a positive responsibility determination in accordance with FAR Part 9.
- (5) If the technical proposal is determined to be technically “Unacceptable” the process described will be conducted again until the Government identifies a technically “Acceptable” proposal or determines all proposals to be technically “Unacceptable”. Should no proposal be determined technically acceptable, the Contracting Officer may establish a competitive range consisting of the most highly rated proposals. After receipt of the Offeror's responses raised during Discussions with all Offerors included in the competitive range, responses will be rated again in the same manner as in the initial evaluation.

(End of Provision)

**M.2 SOURCE SELECTION DECISION (MAY 2014)**

Selection for contract award will be made based on a Lowest Price Technically Acceptable (LPTA) source selection process. The proposal that provides the lowest fair and reasonable price and is otherwise technically acceptable in all non-price factors will be selected for award. The selection will be made subject to an affirmative determination of contractor responsibility in accordance with FAR Subpart 9.1.

(End of Provision)

**NASA/KSC SOLICITATION NNK16570600R  
ATTACHMENT J-A - PROJECT DELIVERABLES**

**PROJECT DELIVERABLES**

Incidental deliverables (manuals, reports, plans, and other written documentation) to be provided under this contract are identified in this Attachment J-A. Nothing contained in this Attachment J-A shall relieve the Contractor from furnishing data called for by, or under the authority of, other provisions of this contract which are not identified and described in this Attachment J-A. The costs for data to be furnished in response to Attachment J-A is included in the firm-fixed price of this contract.

**J-A-1            SUBMITTAL SCHEDULES (MAR 2014)**

- (a) At the Pre-work Conference, the Contractor shall provide, for approval by the Contracting Officer, the following schedules of submittals:
  - (1) A schedule of all shop drawings and technical submittals required by the specifications and drawings. The schedule will indicate the specification or drawing reference requiring the submittal; the material, item or process for which the submittal is required; the "SD" number and identifying title of the submittal; the Contractor's anticipated submission date and the approval need date.
  - (2) A separate schedule of all other submittals required under the contract but not listed in the specifications or drawings. The schedule will indicate the contract requirement reference; the type or title of the submittal; the Contractor's anticipated submission date and the approval need date (if approval is required).
- (b) All submittals called for by the contract documents will be listed on one of the above schedules. If a submittal is called for but does not pertain to the contract work, the Contractor will include it in the applicable schedule and annotate it "N/A" with a brief explanation. Approval of the schedules by the Contracting Officer does not relieve the Contractor of supplying submittals required by the contract documents but which have been omitted from the schedules or marked "N/A".
- (c) Copies of both schedules will be re-submitted monthly annotated by the Contractor with actual submission and approval dates. When all items on a schedule have been finally approved, no further re-submittal of the schedule is required.

(End of Project Deliverable Requirement)

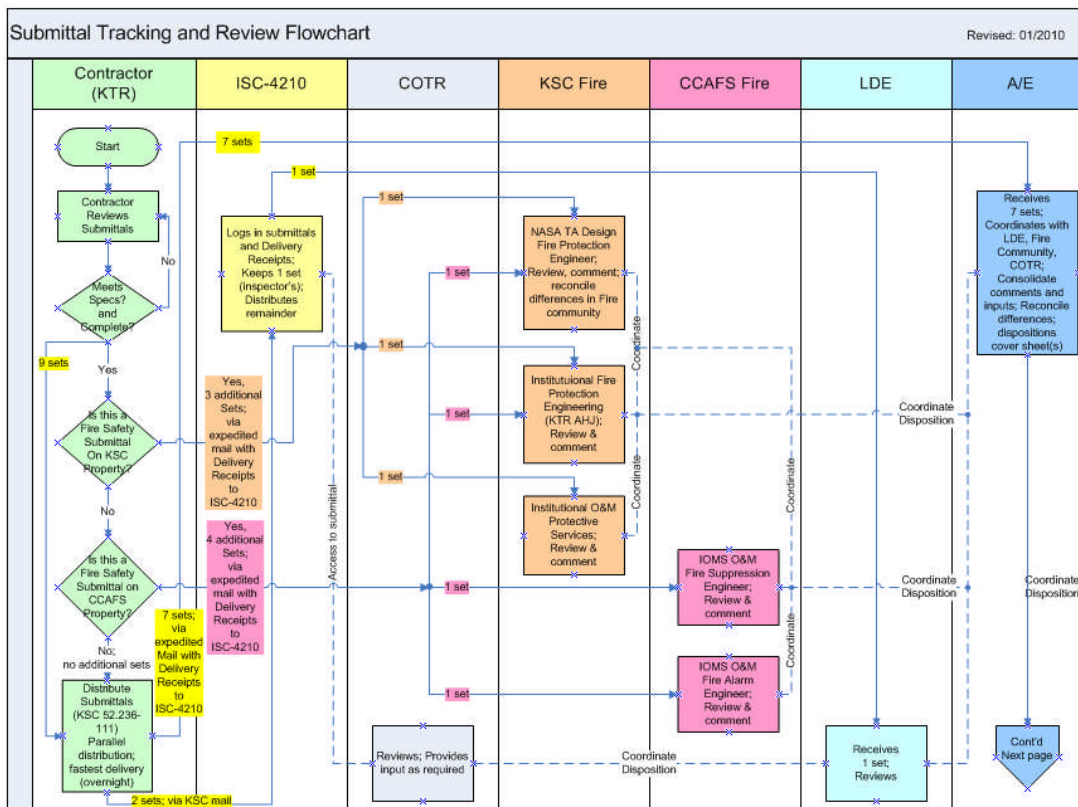

**J-A-2            SHOP DRAWINGS (MAR 2014)**

Pursuant to FAR clause 52.236-21 entitled "Specifications and Drawings for Construction"; the Contractor shall submit Shop Drawings as detailed below. For purposes of this clause, the term "Shop Drawings" shall be construed to include all "Submittal Descriptions" (Type SD-01, SD-02, SD-03, etc., as required by project technical specifications) that are necessary to

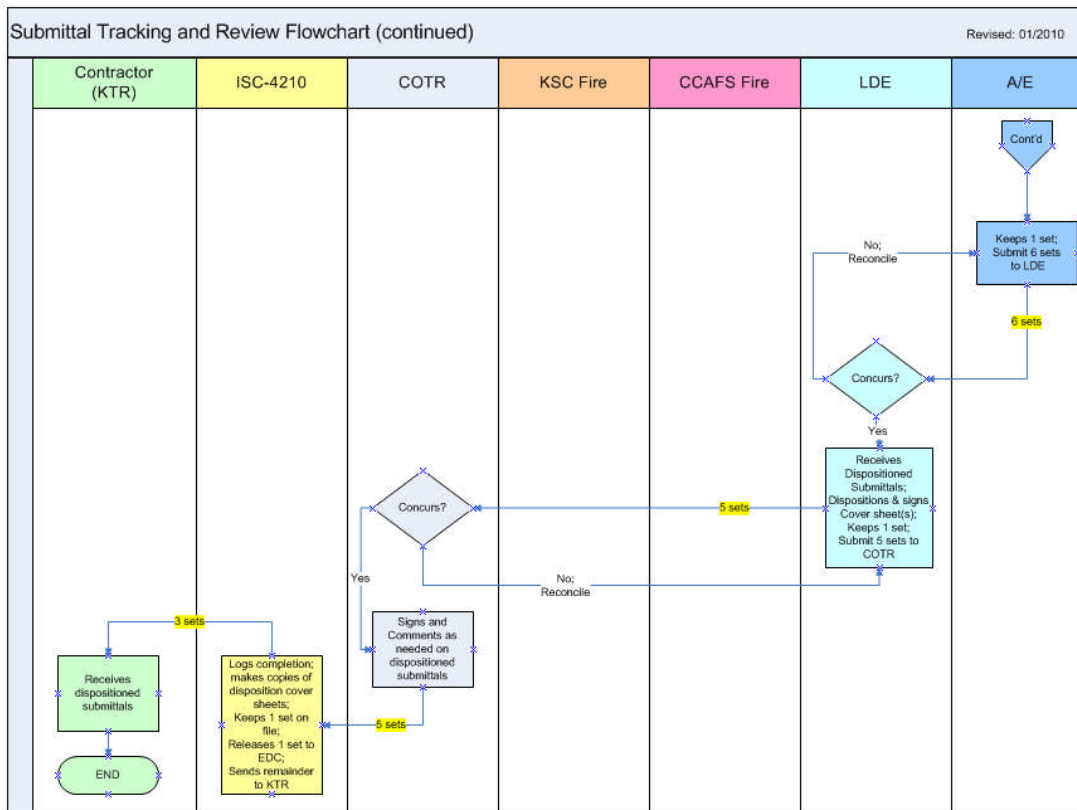

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

fully describe contractor supplied materials and installation methods and demonstrate their compliance with the technical and performance requirements of the contract. Submittal Descriptions include drawings, design data, catalog cuts, descriptive literature, illustrations, schedules, performance and test data, and similar materials to be furnished by the contractor. The preparation and distribution requirements described herein apply to all such SD submittals except as noted in technical specifications or otherwise directed by the Contracting Officer.

- (a) For Shop Drawing submittals provide complete sets to KSC functional organizations and to the Architect/Engineer as shown on the "Submittal Tracking and Review Flowchart." Names, mail codes and addresses will be provided at the Pre-work Conference.
- (b) The Shop Drawing submittals shall be transmitted to the Contracting Officer and the A/E on the same day. Delivery to the A/E and other KSC functional organizations shall be by the equivalent of "next day" delivery service with delivery receipts or other proof of delivery that show traceability to the delivery destination and receipt of the delivery. The timestamp recorded by the Contracting Officer upon receipt from the Contractor shall be the record date. Delivery receipts and other proof of delivery shall be submitted to the Contracting officer or delegated organization as shown on the "Submittal Tracking and Review Flowchart" provided below:

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

- (c) Three (3) sets shop drawings will be returned to the Contractor. These sets will be returned to the Contractor within 21 calendar days of the record date with appropriate review and approval notations as described below.

On or before completion date of the contract, the Contractor shall submit to the Contracting Officer two complete sets of shop drawings, which incorporate all comments, annotations, conditions of approval and corrections. Both drawing sets are to be made from the same original

- (d) The shop drawings shall be complete and detailed and shall contain all information required for checking without reference to material contained in other shop drawing transmittals. Partial submittals will not be accepted unless specifically approved by the Contracting Officer. Any partial submittals shall be so indicated and any outstanding submittal required to complete the package shall be identified.
- (e) Shop drawings shall be submitted in a logical sequence that is duly coordinated with long lead-time procurements and with fabrication and construction schedules. Each set of shop drawings shall be accompanied by a completed KSC shop drawing submittal form listing the specification or drawing reference requiring the shop drawing; the material, item or process for which the shop drawing is required and the "SD" number and identifying title of the shop drawing. The Shop Drawing form will be supplied by the Government.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

- (f) Shop drawings for certain systems (e.g. fire detection/suppression) must be submitted as soon as 30 days following contractor's Notice to Proceed, and associated as built drawings, software, programs and test procedures must be submitted up to 30 days prior to acceptance testing. See Shop Drawing and submittal references in project technical specifications for affected submittals and their respective deadlines.
- (g) "Drawings" as opposed to "Shop Drawings" shall mean actual drawings, diagrams, layouts and schematics. "Drawings" fall under the more general term "Shop Drawings" which include other required materials.
  - (1) Drawings shall be uniform in size, nominally 24 by 36 inches, with a maximum size of 28 by 40 inches. All drawings shall have dark lines on a white background.
  - (2) Drawings shall be numbered in logical sequence. The Contractor may use his own numbering system. Each drawing shall bear the number of the submittal (e.g. First Submittal, Second Submittal, etc.) in a uniform location adjacent to the title block. The NASA contract number shall appear in the margin, immediately below the title block, for each drawing.
  - (3) A blank space, no smaller than 4 by 5 inches shall be reserved on the right hand half of each sheet for the Government disposition stamp.
- (h) Review and approval notation will be as follows:
  - (1) Shop drawings marked "approved" authorize the Contractor to proceed with work covered by such drawings.
  - (2) Shop drawings marked "approved as noted" authorize the Contractor to proceed with the work covered provided he takes no exception to the corrections. The notes shall be incorporated on the shop drawings prior to submission of the final shop drawings.
  - (3) Shop drawings marked "returned for correction" require the Contractor to make the necessary corrections and revisions on the drawings and re-submit them for approval in the same routine as before, prior to proceedings with any of the work depicted on the drawings.
  - (4) Shop drawings marked "not approved" or "disapproved" indicate noncompliance with the contract requirements and the shop drawings shall be re-submitted with appropriate changes. No item of work requiring a shop drawing shall be accomplished until the drawings are approved or approved as noted.
  - (5) The Contractor shall make any corrections required by the Contracting Officer. If the Contractor considers any correction or notation indicated on the returned shop drawings to constitute a change to the contract drawings or specifications; notice as required under the clause entitled "Changes" shall be given to the Contracting Officer.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

- (6) The Government's engineering review of Contractor's shop drawing submittal(s) is for general conformance with the design concept of the project and the information given in the contract documents. As such, approval of the shop drawings by the Contracting Officer shall not be construed as a complete check, but will indicate only that the general method of construction and detailing is satisfactory. The Contractor is solely responsible for the dimensions and design of adequate connection details; confirming and correlating all quantities and dimensions; selecting fabrication processes and techniques of construction; coordinating the work with that of other trades and performing the work in a safe and satisfactory manner, and certifying that proposed products meet all technical specifications and all contractual provisions, especially those relating to the 'Buy American Act'. Corrections or comments made as part of the Government review do not relieve the Contractor from compliance with the requirements of the contract documents. Likewise, any approval of a Shop Drawing Submittal containing an unidentified deviation from the technical requirements of the applicable contract drawings, maps and specifications, shall not relieve the contractor from compliance with the technical requirements.
- (i) If changes are necessary to approved shop drawings whether as a result of a contract change or for any other reasons, the Contractor shall make such revisions and resubmit the shop drawings in accordance with the procedures in paragraphs a. through c. above. No item of work requiring a shop drawings change shall be accomplished until the changed shop drawings are approved.
- (j) Progress payments will not be made on materials and equipment that have been delivered to the job site but not approved on shop drawings.

(End of Project Deliverable Requirement)

**J-A-3            RECORD DRAWINGS (MAR 2014)**

- (a) After completion of all construction and before final payment is made, the Contractor shall submit one complete set of full size blue line contract drawings with fully dimensioned changes shown in red pencil to the Contracting Officer.
- (b) The Contractor shall verify all dimensions and Geographical Information System (GIS) data shown on the contract drawings. Civil discipline systems, such as site dimensions and elevations, underground utilities, manholes, access points, paving, etc. and systems requiring state certifications, such as stormwater systems, shall require verification by a registered land surveyor. As-built dimensions and GIS data shall be at the same level of detail as the contract drawings.
- (c) All dimensional changes shall be reflected as corrected dimensions by striking through the dimension value with a single line and circling this change. A leader shall point from the actual, as-built dimension to the circled change. All utility routing and interface changes

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

shall be reflected on the drawings to scale and defined with sufficient dimensions to be able to locate. Indicating by reference alone, for example to a change order number, will not be acceptable. All field modifications required for the as-built configuration shall be annotated in the final as-built drawings.

- (d) These record drawings shall be maintained by the Contractor at the work site and shall be updated based on job progress to reflect all changes and deviations and actual routing of all field-routed utilities and services. All lines, letters, and details shall be sharp, clear, and fully legible. All additions to the drawings shall be precisely drawn to scale of the original drawing and their locations shall be dimensioned.

(e) **Final Systems Drawings for Wiring/Devices/Control Systems:**

- (1) Final system drawings for wiring and control systems shall be prepared and submitted as described below, and in accordance with additional requirements as described in technical specifications.
- (2) Record drawings shall be made available for Government review on a monthly basis at the job site. This monthly review of record drawings will be part of the monthly monetary progress review.
- (3) Drawings for installation of wiring, devices and/or controls that require field routing must be red-lined, reproduced, verified for accuracy, and submitted for approval per the requirements set forth under the section entitled Shop Drawings herein a minimum of two weeks before requesting a final walkdown of the following systems. These drawings shall be labeled "FINAL SHOP DRAWINGS". In addition to hardcopy reproductions, the final drawings submittals shall include electronic files in Intergraph or Microstation format or in a Computer Aided Design (CAD) format compatible with Intergraph or Microstation.
- (4) Final Systems Drawings are required for:
  - (i) HVAC
  - (ii) Paging/Area Warning
  - (iii) Premise Wiring
  - (iv) Electrical control schematics and connection diagrams
  - (v) Elevators
  - (vi) Fire detection/suppression systems
  - (vii) Any other system involving wiring and controls, with the exception of facility

**NASA/KSC SOLICITATION NNK16570600R  
ATTACHMENT J-A - PROJECT DELIVERABLES**

lighting

**(f) Sewer System Certification:**

For all work involving sewer system installations or modifications, the Contractor shall provide to the Contracting Officer three (3) sets of drawings in the form of an As-Built Survey signed and sealed by a State of Florida Registered Land Surveyor for the sewer system. The as-built survey shall show all locations and invert elevations of the sewer system to verify that its placement is per contract drawings. The submittal shall be complete and sufficient for the Engineer's of Record certification to the Florida Department of Environmental Protection. The as-built survey level of detail shall be the same as shown in the contract drawings. If significant differences exist between the contract requirements and as-built conditions as evidenced by the survey, the differences shall be corrected and a new as-built survey made and submitted as before. Drawings shall be provided prior to the final inspection.

- (g) Record drawings shall be made available for Government review on a monthly basis at the job site. This monthly review of record drawings will be part of the monthly monetary progress review.

(End of Project Deliverable Requirement)

**J-A-4 MISCELLANEOUS DOCUMENTATION (MAR 2014)**

- (a) Documentation submitted under this clause shall not be submitted as shop drawings.
- (b) The Contractor shall submit an original and one copy of all correspondence, delivery tickets, soil compaction reports, contractor daily reports, concrete test reports, and welding certifications or other worker qualification certifications, to the Contracting Officer.
- (c) The Contractor shall submit an original and four copies of all other documentation (except shop drawings) pertaining to this contract, including asbestos abatement plans, to the Contracting Officer.
- (d) In the event of a conflict within this contract, the provisions of this requirement shall take precedence over any other contractual requirement pertaining to the number of copies to be submitted except for shop drawings which shall be submitted in accordance with Article J-A-2, Shop Drawings, set forth under this Attachment J-A.

(End of Project Deliverable Requirement)

**J-A-5 PROGRESS SCHEDULES (OCT 2014)**

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

Pursuant to FAR 52.236-15, entitled "Schedules for Construction Contracts," the Contractor shall:

- (a) If, in the opinion of the Contracting Officer, the Contractor falls behind the approved baseline schedule, the Contractor shall take such steps as may be necessary to improve his progress, including those measures as directed by the Contracting Officer, without additional cost to the Government. The Contracting Officer may require the Contractor to start overtime operations and/or increase the number of shifts, or days of work. The Contractor will be required to submit for approval a recovery schedule or schedules as necessary to demonstrate the manner in which the agreed rate of progress will be regained, all without additional cost to the Government.
- (b) Prepare the Progress Schedule using standard commercially available scheduling software approved by the Contracting Officer.
- (c) Submit the Progress Schedule and Statement of Values (see paragraph g below), for approval by the Contracting Officer, at the Pre-Work Conference in four (4) copies. Include a copy of the electronic file using scheduling software. The approved initial Progress Schedule will be the baseline schedule for the project.
- (d) Include no less than the following information on the Progress Schedule:
  - (1) Major headings for primary project scope broken out in accordance with the Divisions and/or Sections of the project specifications.
  - (2) Line item break-downs under each major heading sufficient to track the progress of the work.
  - (3) A line item showing contract finalization tasks which includes Punch List, Clean-up and Demobilization, and Final Construction Drawings.
  - (4) Appropriate level of detail under each line item or activity (compatible with the schedule of values) sufficient to track the cost and schedule performance, including scheduled vs. actual percentage complete for any given day within the contract performance period. (Progress schedules prepared using scheduling software shall include resource loaded activities [labor, material, and other resources), major deliveries, project milestones, etc.]. The Progress Schedule shall include, as a minimum, a materials bar and a separate labor bar for each line item.) Each element shall include the estimated cost and percentage weight of total contract cost. The labor element shall also show the number of workers expected to be working on any given date within the contract performance period.

For projects involving the installation or modification of Fire Alarm systems, include at a minimum the following line items on the Statement of Values:

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

- (i) Fire Alarm Rough-In Material
- (ii) Fire Alarm Rough-In Labor
- (iii) Fire Alarm Trim Material
- (iv) Fire Alarm Trim Labor
- (v) Fire Alarm Preliminary Testing
- (vi) Fire Alarm Final Testing

For projects involving the installation or modification of Building Controls (i.e. HVAC, lighting, etc) systems, include at a minimum the following line items on the schedule of values:

- (i) Controls Rough-In Material
- (ii) Controls Rough-In Labor
- (iii) Controls Trim Material
- (iv) Controls Trim Labor
- (v) Controls Testing

- (5) Separate line items for Mobilization and Shop Drawing submittal and approval (these items are to show no associated costs).
- (6) The Progress Schedule shall indicate the file date and status date (data date).
- (e) Update the Progress Schedule every 30 calendar days throughout the contract performance period. All work that has not been completed in accordance with the previously approved schedule shall be rescheduled to reflect actual or planned progress based on the current status date. Submit four copies (and electronic file) to the Contracting Officer for approval. Progress Schedule updates shall be submitted concurrently with progress payment requests.

Additional notes:

- (f) The Progress Schedule shall contain clearly defined and labeled relationships of the conventional type (i.e. Finish-to-Start (FS), Start-to-Start (SS) or Finish-to-Finish (FF)). Negative lags will not be permitted nor will positive lags inserted for the purpose of sequestering float. The Schedule shall contain only two open ends, one predecessor open end prior to NTP or Project Start and one successor open end following Project Complete.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

Activity date constraints shall be kept to a minimum, limited primarily to project and/or contractual milestones. Contract downtime shall be shown in the schedule as “downtime activities” or shall be specifically defined in project calendars. Downtime shall not be incorporated into activity durations.

- (g) Statement of Values (SOV): To determine progress, one must submit a detailed continuation sheet of the contractor pay request (Contract Attachment J-D) (Statement of Values) in the native format, preferably compatible with Microsoft Excel. Detailed continuation sheet shall provide categories for:

- (1) Item Number
- (2) Description of the Work
- (3) Scheduled Value
- (4) Work Completed – Previous
- (5) Work Completed - This Period
- (6) Materials Presently Stored
- (7) Total Completed and Stored To Date
- (8) Total Percent Complete
- (9) Balance To Finish
- (10) Retainage (if applicable)

(End of Project Deliverable Requirement)

**J-A-6            STATUS REPORTS ON MATERIALS ORDERS (MAR 2014)**

- (a) Within 60 days after Notice to Proceed, the Contractor shall submit, for approval by the Contracting Officer, an initial Status Report on Materials Orders. This report will be updated and resubmitted every 30 days as the status on materials orders changes.
- (b) The report shall list, in chronological order by need date and lead time, all materials orders necessary for completion of the Contract, including those orders placed by subcontractors as well as the Contractor. The following information will be required for each material order listed:
  - (1) Material name, supplier, and invoice number.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

- (2) Bar Chart line item or CPM activity number affected by the order.
- (3) Delivery date needed to allow all directly and indirectly related work to be completed within the Contract Performance Period.
- (4) Current delivery date agreed on by supplier.
- (5) When Item (b)(4) exceeds Item (b)(3), the effect that delayed delivery date will have on contract completion date.
- (6) When Item (b)(4) exceeds Item (b)(3), a summary of efforts made by the Contractor to expedite the delayed delivery date to bring it in line with the needed delivery date, including efforts made to place the order (or subcontract) with other suppliers.

(End of Project Deliverable Requirement)

**J-A-7                    SCHEDULING (MAR 2014)**

- (a) The Contractor will be required to provide detailed scheduling information regarding planned operations to the Contracting Officer's designated representative for input to the LC-39B area 72 hour/11-day operations schedule (a total of 14 days). This schedule input must be provided on a daily basis prior to 1:00 P.M. The schedule must show the Contractor's planned operations in detail for the next 3 days in hourly increments and in shift increments for the following 11 days.
- (b) All Contractor operations requiring support from KSC, such as outages or fire and safety standby, for hazardous operations, shall be identified.

(End of Project Deliverable Requirement)

**J-A-8                    TOXIC METALS SAFETY AND HEALTH PLAN (OCT 2015)**

- (a) The use of paints containing heavy metals and polychlorinated biphenyls (PCB) has been commonplace at the Kennedy Space Center. The Contractor shall assume that all existing painted surfaces encountered in the performance of work contain heavy metals and PCB when developing the Toxic Metals Safety and Health Plan and performing work. The Contractor may, at his discretion, test any painted surfaces, in accordance with appropriate regulatory standards, to determine the absence of heavy metals and PCB in the paint.
- (b) In addition to and separate from the Safety and Health Plan required under this solicitation/contract, the Contractor shall submit a detailed Toxic Metals Safety and Health Plan. The Toxic Metals Safety and Health Plan shall disclose how the Contractor intends to protect NASA and contractor employees as well as the environment from toxic metals during the ongoing activities of this contract. The contractor shall submit a minimum of five (5) copies of the Toxic Metals Safety and Health Plan for review and approval by the

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

Contracting Officer. The Contracting Officer will forward one copy each to SI-E for review.

- (c) The Toxic Metals Safety and Health Plan shall provide a description of the Contractor's approach to contain and control dusts, fumes and other airborne or waterborne emissions from the work site for the protection of other personnel at the work location and the environment. This part of the plan shall also discuss monitoring activities during the work in progress to assure the effectiveness of the Contractor's emission control measures.
- (d) The Toxic Metals Safety and Health Plan shall also provide written policies, plans, and procedures detailing how the contractor intends to comply with the Occupational Safety and Health Administration (OSHA) Construction Industry Standards (29 CFR 1926) and applicable General Industry Standards (29 CFR 1910). As a minimum, the Toxic Metals Safety and Health Plan shall address how compliance with the following regulations will be achieved:
  - (1) 19 CFR, Part 1926, Safety and Health Regulations for Construction, Subpart D, Occupational Safety & Health Environmental Controls
  - (2) 1926.55, Gases, Vapors, Fumes, Mists, and Dusts
  - (3) 1926.59, Hazard Communication
  - (4) 1926.62, Lead
  - (5) 1926.1127, Cadmium, Subpart E, Personal Protective and Life Saving Equipment
  - (6) 1926.103, Respiratory Protection
  - (7) 1926.353, Ventilation and Protection in welding cutting, and heating
  - (8) 1926.154, Welding, cutting, and heating in way of preservative coatings
  - (9) KHB 1840.1 (Latest Edition), KSC Industrial Hygiene Handbook, as applicable
  - (10) KHB 1820.4 (Latest Edition), KSC Respiratory Protection Program, as applicable

The regulations require strict contractor adherence but are not limited to items such as employee training, respiratory protection, protective clothing and equipment, employee medical surveillance, hygiene facilities, warning signs, record keeping, air monitoring, and housekeeping.

(End of Project Deliverable Requirement)

**J-A-9                    LIFTING PLAN AND RIGGING PLAN (MAR 2014)**

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

A detailed Lifting and Rigging Plan shall be submitted by the Contractor 14 days prior to lifting operations. Lifting operations include work performed within LC-39B that requires the use of cranes or lifting equipment to include chokers, slings, and shackles used to move material, personnel, and equipment to/from heights in excess of 25 feet. One lifting and rigging plan may be submitted for multiple lifts using the same equipment by utilizing the most stringent applicable conditions. Four (4) copies of a detailed Lifting and Rigging Plan shall be submitted for approval to the Contracting Office using the attached form. The lifting plan shall address:

- (a) The specific crane(s) lifting and rigging equipment that will be on site
- (b) The maximum swing radius to be used and the degrees in relation to the crane, such as 360 degrees over the counterweight, etc.
- (c) A sketch of where the crane will be located in relation to where the loads will be situated
- (d) The estimated maximum load weights
- (e) The type and weight of rigging to be used and how it will be configured
- (f) A copy of the crane capacity chart to be used
- (g) A copy of all crane deductions
- (h) Maximum crane boom to be used
- (i) Counterweight configurations
- (j) Certifications of the crane, operator, and rigging
- (k) Certifications of rigging personnel
- (l) General narrative description of lift operations, plan of approach, and safety measures to be implemented during the lifting operations

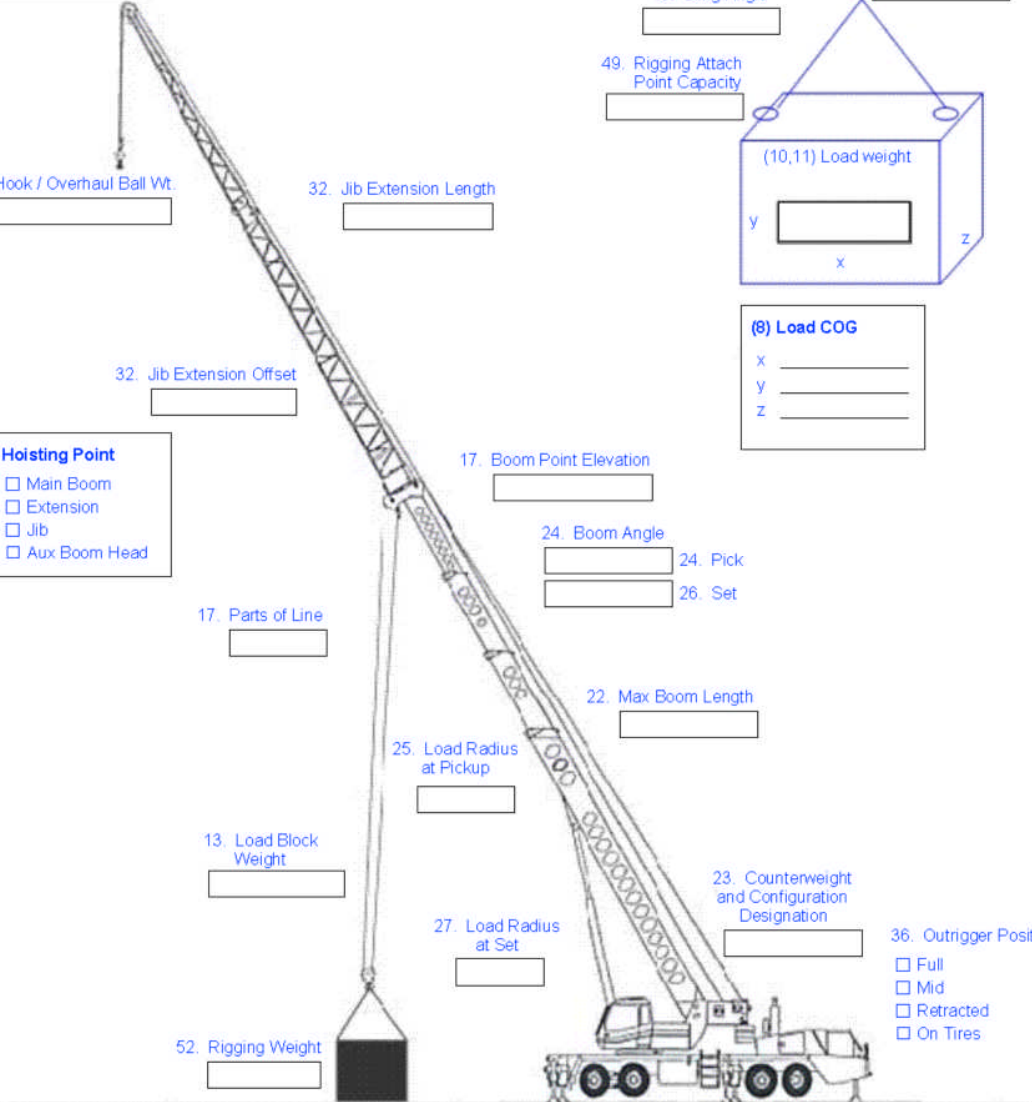

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-A - PROJECT DELIVERABLES**

<b>Kennedy Space Center Lift Plan for Construction Contractors</b>				
<p>This document is for use by construction contractors performing work for Kennedy Space Center. It is recommended for all lifts and will satisfy the lift planning requirements in accordance with OSHA and NASA regulations and contract requirements. A lift plan is <u>mandatory</u> when: 1) lifting personnel with a crane, 2) the load exceeds 75% of the crane's capacity in a given configuration, 3) the lift requires more than one crane, 4) during demolition when the actual weight or structural integrity of the load are in doubt, 5) when the operation is within a boom length of power lines, 6) when lifting over active work areas, occupied buildings, or public roadways, or 7) lifts of submerged or partially submerged objects. For further assistance, please contact the KSC Institutional Safety Office at 867-SAFE.</p>				
1. Company Name		Name and Signature of Person Preparing this Lift Plan		2. Date
3. Project Name and Job Location				
4. Load Description				
5. Crane Description - Type, Manufacturer, Model # <i>(multiple crane lifts require separate plan for each crane)</i>				
6. Lift Description <i>(attach diagram of lift and load placement)</i>

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

**KENNEDY SPACE CENTER PROJECT SPECIFIC REQUIREMENTS APPLICABLE TO ALL  
WORK PERFORMED UNDER THIS CONTRACT**

The Kennedy Space Center project specific requirements supporting Contract Section I are identified in this Attachment J-B. Nothing contained in this Attachment J-B shall relieve the Contractor from complying with other requirements of this contract, which are not identified and described in this Attachment J-B. All costs associated with the requirements of this Attachment J-B are included in the firm-fixed price of this contract.

**J-B-1            UTILITY OUTAGE, ENERGIZED ELECTRICAL WORK, ELECTRICAL  
HAZARD ANALYSIS, AND EXCAVATION PERMITS (MAR 2014)**

(a) Utility Outage Requests and Electrical Work Permits

- (1) Utility Outage Requests: All outages required during the prosecution of work which affects utility systems, such as electrical, water, fire detection and protection systems and air handling systems will require permits. Work shall be scheduled to hold outages to a minimum. Request for utility outage permits shall be made in writing to the Contracting Officer at least fourteen (14) working days in advance of the time required. The request shall state the system involved, area involved, approximate time of outage, and the nature of the work involved. The fact that the Contractor requests an outage for a specific time period does not necessarily mean that the outage will take place. Due to the nature of the operations at Kennedy Space Center, the Contractor probably will not know until the day before the requested date if the outage will take place as scheduled. All outages will take place outside regular working hours. The Contractor will not be entitled to additional payment for working irregular hours due to outages.
- (2) Electrical Work Permits: Prior to beginning work on an electrical system under an approved outage, the Contractor shall obtain an executed Work Permit (form number KSC-26-400NS) from the Institutional Services Contractor, and then execute complex lockout/tag-out procedures for all Work Permit related work as follows:
  - (i) The Contractor's employee in charge of the required lockout/tag-out shall be present at the time the Government switches high-, medium-, or low-voltage circuits under Government access control which are to be locked and tagged out by the Contractor. The Contractor shall coordinate with the Contracting Officer's Representative (COR) for the required switching period time and date. Due to KSC operational considerations the switching period time and date may be at any time, and outside of normal working hours or work days.
  - (ii) Once Government switching is complete the Contractor's employee in charge of the lockout/tag-out shall sign the Work Permit and immediately install the required OSHA compliant lockout / tag-out on the required switching device(s). Once installed the Contractor's employee in charge of the lockout/tag-out shall individually note the locations of the locks and tags on the Work Permit form.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

- (iii) A lockout/tag-out lock box shall be used for all such lockout / tag-outs. The key(s) from the lock(s) installed by the Contractor's employee in charge of the lockout/tag-out shall be placed in the box and the employee in charge shall place an additional personal lock on the lock box to secure the keys inside. Lock box shall be kept at the work site and all other Contractor employees shall attach their personal lockout/tag-out on this box at any time they are working on the applicable equipment.
  - (iv) At the start of the first standard work period following the lockout/tag-out of a Government switched circuit for which a Work Permit is issued, the Contractor's employee in charge of the lockout/tag-out shall complete the required lockout/tag-out (lock box) procedures. Immediately upon completing the lockout/tag-out the Contractor shall verify no voltage is present on all circuit conductors using suitable testing equipment, safe work practices, and all required personal protective equipment. All other circuit safeguards such as grounding shall occur immediately after the voltage test and each safeguard shall be individually recorded on the Work Permit.
- (b) Energized Electrical Work and Hazard Analysis
- (1) Live parts to which an employee might be exposed shall be put into an electrically safe work condition before an employee works on or near them, unless the employer can demonstrate that de-energizing introduces additional or increased hazards or is infeasible due to equipment design or operational limitations. If live parts are not placed in an electrically safe work condition (i.e., due to increased or additional hazards or infeasibility), work to be performed shall be considered energized electrical work. Safety plans, job hazard analysis, and work practices for work on or in proximity to energized parts shall be in accordance with KNPR 8715.7, KSC Construction Contractor Safety and Health Practices Procedural Requirements.
  - (2) Electrical Hazard Analysis:

Arc-flash and shock prevention personal protective equipment (PPE) is required for all energized electrical work and where energized or exposed live parts may not be present, but a potential hazard exists including: manhole or cable vault/tray insulated cable inspections, circuit breaker or switch operation, and de-energized voltage checks to electrically safe equipment.

The Contractor shall provide a qualified electrical safety professional to perform an arc-flash and shock hazard analysis in accordance with NFPA 70E for all such electrical work. The analysis shall be submitted with the Contractor's Site Specific Safety Plan (SSSP) and referenced in any applicable Job Hazard Analysis (JHA). The safety professional shall perform and review a power system analysis using computer software specifically designed for the purpose to determine short circuit levels and arc flash hazard incident energy at all locations to be worked on by the Contractor. Table 130.7(C) (9) in NFPA 70E

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

may be used in lieu of calculations when all applicable general notes for the table apply. The Government will provide source short circuit levels and clearing times for Government operated electrical source equipment as well as any applicable design information. The analysis shall include a table summarizing the results of the analysis with the following information for each location or piece of equipment:

- (i) Protective Device Name
  - (ii) Protective Device Clearing Time
  - (iii) Maximum Voltage
  - (iv) Calculated Bolted Three Phase Fault Level
  - (v) Calculated Bolted Ground Fault Level
  - (vi) Calculated Minimum Arcing Fault Level
  - (vii) Arc-Distance if applicable for the calculation
  - (viii) Employee Working Distance
  - (ix) Calculated Arc-Flash Boundary
  - (x) Calculated Maximum Arc-Flash Incident Energy
  - (xi) Arc-Flash PPE Category
  - (xii) Shock Prevention PPE Insulating Class
  - (xiii) Limited Approach Boundary
  - (xiv) Restricted Approach Boundary
  - (xv) Prohibited Approach Boundary
- (3) Electrical Manhole / Vault Confined Space Requirements: Reference KNPR 8715.7, KSC Construction Contractor Safety and Health Practices Procedural Requirements. During the site specific safety plan submittal phase, the Contractor shall complete a hazard evaluation of confined space(s) ensuring all hazards associated with the space or that may be introduced to the space have been identified and mitigated. The Contractor's designated safety professional shall coordinate with the Contracting Officer's Representative (COR) to complete a confined space hazard assessment (KSC Form 28-750NS) in accordance with KNPR 1840.19 for each confined space, and to schedule a job-site inspection meeting with KSC Environmental Health and Safety personnel. Within 35 calendar days after this

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

meeting the COR will provide a confined space hazard assessment to the Contractor. This assessment must be complete prior to any manhole entry and will be used in generating the confined space entry permit(s) required for the project.

The contractor shall provide supplementary lighting for all manhole work.

(c) Excavation Permits:

The Contractor shall request and obtain excavation permit(s) prior to performing any excavation. KSC Form 26-312V3 NS, Utility Locate/Excavation Permit Request, shall be prepared by the Contractor and submitted to the Government for approval at least 15 working days prior to the planned excavation date. The Contractor shall comply with the requirements of the Institutional Base Support Contractor's "Utility Locate / Excavation Permit Procedure" ENG-I-MP07 (latest revision), in the preparation, submission and use of the permit(s).

(End of Project Specific Requirement)

**J-B-2            FIRE PROTECTION AND REQUIRED PERMITS (MAR 2014)**

The KSC Fire Department will provide fire suppression, inspection and rescue services to the Contractor as necessary. The Contractor shall:

- (a) Provide approved fire extinguishers of appropriate type for hazards involved.
- (b) Report all fires to the Fire Service at 867-7911 or 867-1911.
- (c) Comply with all requirements of KHB 1710.2C Section 504 (Heat Producing Devices) and NSS 1740.11 "NASA Safety Standard for Fire Protection" Section 702 and Chapter 8 for work performed at the Kennedy Space Center.
- (d) Provide a fire watch in accordance with Federal OSHA Safety and Health Standards 29 CFR 1926.352/1910.252 when required by the welding and burning permitting official.
- (e) Prevent false fire alarms by providing 24-hour advance notice to the Contracting Officer's Representative (COR) when construction activities in areas protected by fire alarm and/or detection systems may produce airborne particulates (smoke or dust) caused by construction activities such as painting, stripping, cutting drywall or concrete, sandblasting, and/or removing raised floor panels.
- (f) Request permits for all welding and burning operations. Requests for these permits shall be made in writing to the Government at least seven (7) working days in advance of the time required.
- (g) Report in the Contractor's Safety and Health Plan in accordance with NFS 1852.223-73 how it intends to comply with the above requirements.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

(End of Project Specific Requirement)

**J-B-3                    PERMANENTLY INSTALLED SAFETY SYSTEMS (MAR 2014)**

- (a) The Contractor shall protect and in no way interrupt the service of any installed safety systems or personnel safety devices.
- (b) In the event that the Contractor requires entrance into systems serving safety devices, the Contractor shall obtain prior approval from the Contracting Officer. In the event the Contractor determines that it is necessary to temporarily remove or render inoperable any personnel safety devices in order to accomplish contract requirements, the Contractor shall provide alternate means of protection prior to removing or rendering inoperable any permanently installed safety devices or equipment and shall obtain prior approval of the Contracting Officer.

(End of Project Specific Requirement)

**J-B-4                    BREATHING AIR COMPATIBILITY (MAR 2014)**

- (a) The contractor shall take precautions to assure that connectors used in contractor-supplied breathing air systems are incompatible with connectors present on either KSC gas systems or on contractor supplied systems that are used to supply non-respirable gases. KSC-STD-Z0008, 'Standard for Design of Ground Life Support Systems and Equipment', establishes requirements for connectors to be used in KSC facility breathing air and non-respirable gas systems. Facility breathing air systems located at KSC/CCAFS are to use a Hansen 3/8 inch quick disconnect as a breathing air distribution interface. KSC facility non-respirable gas systems are to use 1/4 inch quick disconnects for gas distribution interfaces. Although most facility systems were designed in accordance with this standard, there are nonconforming locations at KSC/CCAFS.
- (b) The Contractor may use KSC facility breathing air systems, if available at the work location. The contractor shall perform a pre-work site inspection to identify coupling types in use at the work location before mobilizing or using any breathing air equipment. The contractor shall also submit a written certification to show the contractor's breathing air system has been recently inspected and meets Grade D breathing air standards. Alternately, the contractor may arrange for on-site testing of contractor-supplied breathing air by the Government at least five days prior to start of work. In addition, the contractor shall also provide a work site evaluation for the NASA Safety Office to review before using any breathing air system. The breathing air test and the safety inspection can be coordinated through the Contracting Officer, and will be at no cost to the contractor.
- (c) The contractor shall tag or label connector ends of all lines and flexible hoses of contractor-provided breathing air or non-respirable gas distribution systems. The tags or labels will clearly identify the contents of the lines or hoses.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

- (d) The contractor shall provide a description of the steps taken to comply with the requirements of this clause in their safety plan submittal.

(End of Project Specific Requirement)

**J-B-5                    TRAFFIC RESTRICTIONS (MAR 2014)**

- (a) The Contractor will not move oversized loads and/or slow moving vehicles on established roads within the Kennedy Space Center from 6:30 A.M. to 8:30 A.M. and 3:30 P.M. to 5:30 P.M. on week days. Other than the above restricted hours, the Contractor may move oversize and/or slow moving vehicles to the work site provided all requirements of the Florida State Highway Department have been met. Transportation of the LH2 separator tank and any oversize elements shall be subject to review and approval by the NASA KSC Transportation Officer, Mail Code: SI-C4, Phone: 321.867.8635 and Alternate number 321-861-5449.
- (b) Movement of any Contractor vehicle in excess of maximum width, height and length specified by Florida Statutes Chapter 316 shall be accompanied by the Contractor's designated Convoy Commander. The Contractor's Convoy Commander shall be totally responsible for the oversized vehicular movement to include making a physical inspection for possible obstructions along the intended route and obtaining all required special permits.

(End of Project Specific Requirement)

**J-B-6                    STORAGE AND PROTECTION OF MATERIAL TO BE RE-USED (MAR 2014)**

All items of material to be removed and re-installed by the Contractor shall be protected during removal and stored in a manner such that the material will not be damaged during removal or storage. Any material designated for re-use, which is not suitable due to the Contractor's damage, will be replaced by the Contractor at no additional cost to the Government.

(End of Project Specific Requirement)

**J-B-7                    MAINTENANCE OF GOVERNMENT EQUIPMENT (MAR 2014)**

- (a) Government systems and equipment in the Contractor's work area may require servicing, maintenance, or modification by Government support contractors during the contract performance period. This maintenance activity may include work on systems, including underground utilities, that connect with Contractor installed systems and equipment. The Contractor shall allow the Government support contractors into his work area to perform the maintenance work.
- (b) Existing systems and equipment require periodic maintenance that cannot be readily defined in terms of frequency and duration. This maintenance will be coordinated with the Contractor through the Contracting Officer, and will be performed on a non-interference basis as much as

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

possible. The Contractor shall notify the Contracting Officer regarding any uncoordinated maintenance activity.

- (c) The Contractor shall arrange and conduct a joint pre-operations briefing with Government support contractor personnel on each occasion that the support contractor requires access to the contractor's work area. The Contractor shall take the following steps as required to prevent collateral damage to, or interference with, Contractor installed systems and equipment.

- (1) Verify the scope and limits of the support contractor's planned maintenance activity.
- (2) Advise the support contractor regarding the scope of the Contractor's work that may be affected by the maintenance activity, including specific locations and dimensions of planned or installed facilities, systems and equipment. Notify the Contracting Officer immediately regarding any resulting conflicts or interferences.
- (3) Ensure that temporary barriers or protective measures are provided as needed to protect Contractor installed work and preserve job-site safety.

**The Contractor shall notify the Contracting Officer immediately regarding any issues that cannot be resolved with the support contractor.**

(End of Project Specific Requirement)

**J-B-8                    AVIATION OBSTRUCTION LIGHTS (MAR 2014)**

The Contractor will provide at least two Aviation Red Obstruction Lights or two High Intensity White Obstruction Lights on all structures over 100 feet above ground level. All construction cranes/booms shall be lighted regardless of height. Lights must be constructed and installed in accordance with U.S. Department of Transportation, Federal Aviation Administration publication AC 70/7460-1F (as revised), Chapter 4, paragraph 15, subparagraph e. Lights will be operated during all periods of reduced visibility, between sunset and sunrise, and as directed by the Contracting Officer.

(End of Project Specific Requirement)

**J-B-9                    INTERFERENCES AND COORDINATION OF WORK (MAR 2014)**

- (a) The Contractor shall coordinate construction layout, systems configuration and work scheduling to avoid interference's between the various construction trades and their installations. Interferences and obstructions resulting from lack of Contractor coordination shall be corrected by the Contractor as approved by the Contracting Officer. All components, fittings and reworking necessary for such corrections shall be provided by the Contractor at no additional cost to the government. Dimensions shown for existing work, and all dimensions required for work that is to connect to existing work, shall be verified by the Contractor by actual field measurement of the existing work. Any work at variance with that specified or

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

shown in the drawings shall not be performed by the Contractor until approved in writing by the Contracting Officer.

- (b) To the extent possible, the as-built dimensions of all new work shall be verified by actual field measurement prior to ordering or fabricating mechanical, electrical, or specialty equipment and materials to be installed. If such field measurement is not possible, then the contract drawings and applicable shop drawings shall be checked by the contractor for dimensional accuracy prior to ordering or fabricating equipment and materials to ensure proper fit for field installation.
- (c) The Contractor shall be responsible for correction of all field fitup problems and interferences which could have been avoided by field measurement or drawing checks prior to equipment fabrication.

(End of Project Specific Requirement)

**J-B-10            RESTORATION OF GRASSED AREAS DISTURBED BY CONSTRUCTION (MAR 2014)**

The Contractor shall, prior to completion of the contract, grass all areas disturbed by construction activities by seeding and mulching or, when erosion may occur, by sodding, except where specifically directed otherwise in the drawings and specifications.

(End of Project Specific Requirement)

**J-B-11            TEMPORARY CONSTRUCTION TRAILERS (MAR 2014)**

- (a) The Government will provide a location for temporary office and/or storage facilities if needed for performance of on-site work under this contract. Specific location(s) at or reasonably close to the work site will be identified at the pre-work conference. The contractor is responsible for providing his own telephone service and for making his own connections to KSC utility services, if provided for under Article I.12, KSC On-Site Facilities and Services.
- (b) All temporary facilities must be structurally sound, in roadworthy condition, and shall be installed and anchored in accordance with KSC-PLN-1904, Trailer/Equipment Tie Down Plan for the John F. Kennedy Space Center; or Rules of Department of Highway Safety and Motor Vehicles, Division of Motor Vehicles Chapter 15C-1, whichever is more stringent. Copies of the standards will be made available to the contractor at the pre-work conference. The contractor shall provide written certification of compliance for all temporary facilities to the Contracting Officer within three days of installation. Any facilities that fail to meet these requirements shall be immediately removed from Government property.
- (c) All temporary facilities shall be removed from government property within two weeks following final acceptance of work performed under this contract.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

(End of Project Specific Requirement)

**J-B-12            CONFINED SPACE WORK REQUIREMENTS (MAR 2014)**

- (a) Special requirements, coordination, and precautions will apply to any contract work taking place in confined spaces. Each contractor contracted to perform work in confined spaces is required to provide a written program for such work as part of its health and safety plan which is consistent with the requirements of 29 CFR 1910.146. For work in telecommunications manholes, provisions of 29 CFR 1910.268(o) are also applicable. The contractor shall coordinate any such work in confined spaces with the KSC Environmental Health Support Contractor, KSC Fire Services Support Contractor, and any other resident government or contractor organization whose employees may have access to the work location. The provision of Environmental Health services by the government does not prohibit the contractor from providing their own atmospheric testing. Government provided services include environmental health monitoring and consultation support for testing of atmospheres in confined spaces as well as fire rescue and emergency medical services.
- (b) Entry into and work in confined spaces shall be in accordance with the requirements of KNPR 1820.4, “KSC Respiratory Protection Program,” KNPR 1840.19, “KSC Industrial Hygiene Handbook,” and all other applicable clauses of this contract.
- (c) Confined spaces, which contain water, shall be pumped out by the contractor prior to scheduling a confined space entry check.
- (d) In addition to the requirements set forth above, the Contractor shall notify and obtain approval from the Power Coordinator, telephone 321-867-7300, and/or from Communications Control, telephone 321-867-4141, respectively, prior to performing work in electrical and/or communications manholes.

(End of Project Specific Requirement)

**J-B-13            TESTING OF CONSTRUCTION MATERIALS (MAR 2014)**

Tests of construction materials indicated to be performed by the Contractor shall be accomplished by the Contractor utilizing the services of an acceptable independent testing laboratory.

(End of Project Specific Requirement)

**J-B-14            AFFIRMATIVE PROCUREMENT (MAR 2014)**

- (a) Affirmative Procurement (AP) is the purchase of environmentally friendly products and services (i.e. products made from recycled or recovered materials). Federal agencies, their Contractors and subcontractors are required to maximize the purchase materials on the list of “EPA Designated Guideline Items” with the minimum recycled or recovered materials content

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

whenever practicable according to RCRA 6002 and EO 13101. The requirements of RCRA 6002 include the following language:

“The decision not to procure such items shall be based on a determination that such procurement items:

- (A) are not reasonably available within a reasonable period of time
- (B) fail to meet the performance standards set forth in the applicable specifications or fail to meet the reasonable performance standards of the procuring agencies and/or
- (C) are only available at an unreasonable price

Any determination under subparagraph (B) shall be made on the basis of the guidelines of the National Institute of Standards and Technology in any case in which such material is covered by such guidelines.”

- (b) The Contractor shall provide AP approved items as specified within the contract documents. Submittals for AP items shall be provided for approval in accordance with Shop Drawing provisions. If the Contractor proposes to substitute an item that does not conform with AP requirements, the applicable Shop Drawing shall be accompanied by KSC Form 8-69, Contractor Request to Use Nonconforming Parts or Material (*Deviation/Waiver Request*) identifying the reason for the proposed substitution.
- (c) Non-conforming items without approved D/W's will be rejected and the contractor shall be responsible for any costs and schedule impacts associated with replacing such non-conforming items at no additional cost to the Government.
- (d) At the conclusion of the project, the Contractor shall provide the Contracting Officer (CO) with a report itemizing all AP items used.
- (e) Detailed information on the EPA AP specified/approved products and manufacturers providing these products is available at [www.epa.gov/cpg/products.htm](http://www.epa.gov/cpg/products.htm).

(End of Project Specific Requirement)

**J-B-15            SPILLS (OCT 2015)**

- (a) The Contractor shall make all reasonable and safe efforts to contain and control any spills or releases that may occur. The Contractor shall immediately report (by phone) any occurrence of a pollution incident or spill, first to the Emergency 911 (321-867-7911 from a non 867/861 exchange), then to the Contracting Officer (CO). The Contractor shall document the incident or spill on KSC Form 21-555, "Pollution Incident Report," and submit it to the CO and NASA Environmental Assurance Branch (EAB), SI-E2, within 24 hours of the incident.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

- (b) The Contractor shall provide spill response materials to contain and control spills including, but not limited to, containers, absorbent material, shovels, and personal protective equipment. Spill response materials shall be available at all times in which materials/wastes are being handled or transported. Spill response materials shall be compatible with the type of material being handled.
- (c) The KSC Spill Cleanup Team will be responsible for the final cleanup and validation of a spill or release.
- (d) The Contractor's prompt action to minimize the impacted area and to timely report any occurrence will increase the Spill Cleanup Team's ability to complete the spill cleanup and therefore reduce the Contractor's liability for a larger cleanup.

(End of Project Specific Requirement)

**J-B-16          WEEKLY STATUS MEETING (MAR 2014)**

The Contractor shall attend a weekly progress/status meeting to be scheduled by the Contracting Officer for the purpose of determining progress status, delaying factors, material delivery schedules, and status of shop drawing submittals. In addition, a representative of each first tier subcontractor may be required to be present for the conference.

(End of Project Specific Requirement)

**J-B-17          SUPERINTENDENT ASSIGNMENT (OCT 2014)**

Full Time Superintendent: Pursuant to clause 52.236-6, entitled "Superintendence by the Contractor," the contractor shall assign a superintendent, on the contractor's payroll, who will be 100 percent committed to superintending the work required by this contract. The superintendent shall not fill any other positions in performance of this contract or any other concurrent contract. One or more alternate superintendents, each with full authority to supervise the work, shall be designated in writing and approved by the Contracting Officer. The superintendent or an alternate shall be physically present at each work site at all times during performance of the contract and until the work is completed and accepted.

The individual(s) appointed as superintendent(s) shall complete the OSHA 40 hour Construction Course prior to starting any field work on the project. The class shall be taught by an authorized provider of the course (e.g., United Safety Council, Florida Safety Council) and be attended in person. The appointed superintendent(s) shall provide the course completion certificate to the government stating the required training and testing was satisfactorily completed and the date of completion. The course completion date shall not be greater than 5 years from the start of the contract.

(End of Project Specific Requirement)

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

**J-B-18 MATERIAL SAFETY DATA SHEETS (MSDS) SUBMITTAL/CHEMICAL INVENTORY REPORTING AND MANAGEMENT (MAR 2014)**

The Contractor shall provide a complete and accurate list, accompanied by the applicable Material Safety Data Sheets (MSDS), of all materials and chemicals listed on the Consolidated List of Chemicals Subject to the Emergency Planning and Community Right-To-Know Act (EPCRA) and Section 112(r) of the Clean Air Act that will be stored onsite and/or used in the execution of this contract, regardless of the quantity. This information shall be provided to the Contracting Officer (CO) prior to the time of delivery of the materials and chemicals to the site. This inventory is to be updated and resubmitted to the CO on a monthly basis. All inventory reporting is to be completed on the Chemical Inventory for Construction Projects at Kennedy Space Center Form (8-313NS). Appropriate labels and MSDS shall be provided for all chemical shipments.

(End of Project Specific Requirement)

**J-B-19 WASTE CHARACTERIZATION (MAR 2014)**

KSC Form 26-551 "Process Waste Questionnaire" (PWQ) shall be prepared and processed for all waste streams generated during the execution of this project in accordance with article entitled "Hazardous Wastes".

(End of Project Specific Requirement)

**J-B-20 HAND EXCAVATION (MAR 2014)**

All excavation for tank and pipe support foundations, utility connections, utility trenches, etc. is to be performed by hand excavation. Contractor shall hand dig a pilot trench to locate existing utilities before motorized equipment. Excavation in areas within 5 feet of all existing utilities shall be by hand.

(End of Project Specific Requirement)

**J-B-21 ABRASIVE BLASTING AND PAINTING (MAR 2014)**

To the maximum extent possible, abrasive blasting and painting shall be performed before materials are delivered to KSC. A National Association of Corrosion Engineers (NACE) inspection report shall be provided to the Contracting Officer (CO) one (1) week prior to delivery of hardware painted offsite. Where field operations at KSC/CCAFS are required by contract documentation, the Contractor shall perform the operations in accordance with the following:

**ABRASIVE BLASTING**

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

Operations for paint/coating removal or other corrosion control activities involving the use of abrasive blasting to prepare surfaces shall not be allowed to contaminate soil or surface waters. To ensure this, the Contractor shall do the following:

- (a) Provide tarpaulin drop cloths, windscreens, and other means necessary to enclose abrasive blasting operations to confine and collect dust, abrasive, agent, paint chips, and other debris.
- (b) Collect, sample and dispose of in accordance with “disposal” paragraph all material removed and/or generated, including coating materials and blast media.
- (c) Protect storage areas for blast media and blast debris from the natural elements to prevent contamination.

**EXTERIOR PAINTING**

When painting exterior surfaces, the Contractor shall implement measures in the paint application process to minimize the amount of overspray that is created on a project. Drop cloths or similar containment shall be used to prevent paint from coating ground surfaces.

The Contractor shall implement measures to contain any overspray that may be generated as a result of a painting operation. The Contractor shall also implement measures to prevent rainfall and runoff from contacting items such as painting supplies, paint equipment, empty paint cans, etc., which may have paint residue in or on them.

The contractor shall take precautions to protect all Government hardware from contamination or damage during sandblasting and painting operations. The Contracting Officer or representative shall approve the method of protection. The contractor shall be responsible for any and all claims arising from painting or overspray or overblasting. In addition, the contractor shall be responsible for any repairs to damaged property, and for the collection, removal and disposal of the oversprayed or overblasted materials. The Government will make no additional payments for overspraying or overblasting by the Contractor.

**USE OF WATER – WATER BLASTING**

The process of preparing certain surfaces, mainly the exteriors of buildings and structures, before the application of surface coatings may incorporate the use of water. These preparation activities include, but are not limited to removing dirt, mold, and mildew before painting (general surface cleaning); using pressurized water to remove coatings (water blasting); and using blast media to remove paint/coatings along with water as a dust inhibitor (wet blasting).

Operations using water shall be performed with either plain potable water or potable water with biodegradable, phosphate-free detergents and/or low concentration ( $\leq 5\%$ ) sodium hypochlorite (bleach), calcium hypochlorite, or hydrogen peroxide.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

All material removed and/or generated, including coating materials, water, and blast media, shall be collected for proper disposal. All material removed during water blasting operations will be collected, sampled, and disposed of in accordance with the “disposal” paragraph below. Liquids may be separated from the solid debris by screening the material collected with a 40-micron (or finer) filter mesh.

**COATINGS CONTAINING HAZARDOUS CONSTITUENTS**

The Contractor shall handle and disposed of all waste containing any hazardous materials in accordance with article entitled “Hazardous Wastes.”

**DISPOSAL**

The Contractor shall dispose of all waste containing nonhazardous materials in accordance with article entitled “Landfill Operations/Solid Waste Removal.”

**INSPECTION**

All abrasive blasting and painting shall be inspected by a Contractor provided NACE inspector to verify compliance with the contract documentation. The inspector’s reports shall be provided to the Contracting Officer at the end of each week in which the blasting and/or painting has been performed at KSC. The report shall include information that clearly defines the extent (starting and end points) of work performed during each week.

(End of Project Specific Requirement)

**J-B-22      TRAFFIC CONTROL REQUIREMENTS (MAR 2014)**

(a) Standards:

U.S. Department of Transportation Federal Highway Administration Manual (latest edition), on uniform Traffic Control Devices for Streets and Highways, Part II, Signs for Traffic Controls for Street and Highway Construction, Maintenance, Utility and Emergency Operations, set forth the basic principles and prescribes minimum standards to be followed in the design, application, installation, maintenance and removal of all traffic control devices and all warning devices and barriers which are necessary to protect the public and workmen from hazards within the project limits. The standards established in the aforementioned manual constitute the requirements for normal conditions, and additional control devices, warning devices, barriers or other safety devices will be required where unusual, complex or particularly hazardous conditions exist.

(b) Traffic Control Devices, Warning Devices and Barriers:

- (1) The responsibility for installation and maintenance of adequate traffic control devices, warning devices, and barriers, for the protection of the traveling public and workman, as well as to safeguard the work area in general shall rest with the contractor. The

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

required traffic control devices, warning devices and barriers shall be erected by the Contractor prior to creation of any hazardous condition and in conjunction with any necessary rerouting of traffic. The Contractor shall immediately remove, turn, or cover any devices or barriers which do not apply to the existing conditions.

- (2) The Contractor shall make the Contracting Officer aware of any scheduled operation which will affect traffic patterns or safety, sufficiently in advance of commencing such operation to permit his review of the plan for installation of traffic control devices, warning devices, or barriers proposed by the contractor.
- (3) The Contractor shall assign one of his employees the responsibility of maintaining the position and condition of all traffic control devices, warning devices, and barriers through the duration of the contract. The Contracting Officer shall be kept advised at all times as to the identification and means of contacting this employee on a 24 hour basis.
- (4) Maintenance of Devices and Barriers: Traffic Control devices, warning devices, and barriers shall be kept in the correct position, properly directed, clearly visible and clean, at all times. Damaged, defaced, or dirty devices or barriers shall immediately be repaired, replaced, or cleaned as required per the request of the Contracting Officer.

(c) Flagmen:

The Contractor shall provide competent flagmen to direct traffic in situations as may be required by the standards established in the paragraph above.

(d) Traffic Control Plan:

- (1) After contract award but prior to Notice to Proceed, the Contractor shall submit a traffic control plan to the Contracting Officer for approval. No work will be allowed on bridges or right-of-way of roads between the hours of 6:00 AM to 8:00 AM and 3:00 PM to 5:00 PM.
- (2) The Contractor may request work time during off shift and weekends in order to meet construction schedules.
- (3) The Traffic Control Plan will be updated by the Contractor on a weekly basis in order to provide a current plan for the job and make adjustments to the Contractor's work. The updated Traffic Control Plan shall be presented at the Weekly Status Meeting.

(e) Traffic Flow Requirements:

The Contractor shall keep one lane open at all times during road modifications. Any trench or hole created in a roadway shall be backfilled to finish roadway elevation or effectively covered to support vehicle loads prior to allowing any traffic to flow over it. No roads will

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

be blocked during peak hours of traffic; no road work shall start before 8:00 am or continue past 5:00 pm, Monday through Friday unless otherwise approved by the Contracting Officer.

(End of Project Specific Requirement)

**J-B-23            BIOLOGICAL SURVEYS (MAR 2014)**

The Contractor shall notify the Contracting Officer (CO) to request that NASA **EAB** perform a biological survey, fourteen (14) days prior to start of work. The Contractor shall not begin land clearing or site disturbance activities, including exterior lighting and roof work, before receiving written approval from the CO stating that the biological survey is completed and all mitigation action (e.g. Threatened and Endangered (T&E) species relocation/protection, identification and protection of plant species of special concern) to be performed by the Government or Contractor has been completed.

(End of Project Specific Requirement)

**J-B-24            CONCRETE WASTEWATER (MAR 2014)**

The following checked paragraphs are applicable to this acquisition:

**CONCRETE WASHOUT**

The Contractor shall not allow wastewater from standard concrete construction activities (such as on-site material processing, concrete curing, foundation and concrete clean-up, water used in concrete trucks, forms, directional drilling, etc.) to enter waterways or to be discharged before being treated to remove pollutants.

The Contractor shall dispose of the construction-related concrete wastewater and concrete excess by collecting and placing it in a contractor constructed settling pond where suspended material can be settled out and/or the water can evaporate to separate solids from the water. The location of the settling pond shall be coordinated with and approved by the Contracting Officer (CO). The Contractor shall remove and dispose of the residue left in the pond and restore site to original condition. Disposal of solidified concrete shall be performed in accordance with the solid waste article.

**LIGHTWEIGHT CONCRETE**

Reference contract article entitled “**Hazardous Wastes**”. The use of light-weight concrete materials has been confirmed to have the potential to be hazardous due to pH but may also exhibit other hazardous characteristics depending upon processes and products used. The contractor shall not allow wastewater from light-weight concrete construction activities (such as on-site material processing; concrete curing;

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

concrete clean-up; and water used in concrete trucks, forms, etc.) to enter waterways or to be discharged on the ground before being analyzed for hazardous waste characteristics. A representative sample shall be collected from the first "flush" of light-weight concrete wash water waste at the time of generation, and will be analyzed by the government for hazardous waste characteristics. Pending completion of this analysis, all such waste water shall be containerized, labeled, and handled in accordance with the “**Unknown Wastes**” in “Hazardous Waste” article.

If the waste wash water from light-weight concrete usage is determined to be hazardous, it shall be handled, stored, labeled, and managed as hazardous waste in accordance with RCRA regulatory requirements and applicable contract provisions.

If the analysis shows the wash water is not hazardous, this wash water waste and any additional wash water waste generated at the same job using the same product and process may be handled as described under “**Concrete Washout**” paragraph above.

(End of Project Specific Requirement)

**J-B-25        TOXIC METALS (MAR 2014)**

Representative samples of painted surfaces within the project area have been identified to contain toxic metals. The Contractor shall assess hazards and brief government of their proposed methods of removal and disposal of building materials identified as having toxic coatings and hazardous materials. The Contractor’s hazard assessment shall be conducted by a competent health and safety professional. The Contractor shall notify the Contracting Officer of hazard mitigation activities and abatement procedures 14 days prior to disruption to any suspected area.

(End of Project Specific Requirement)

**J-B-26        PCB MANAGEMENT (MAR 2014)**

Polychlorinated Biphenyls (PCB) wastes may include, but are not limited to, oil-filled transformers, Oil-contaminated transformer concrete pads, light ballasts, capacitors, electric motors, pumps and paint coatings. PCB wastes shall be managed in accordance with 40 CFR 761. PCB waste management and disposal shall be coordinated through the Contracting Officer (CO), a KSC Form 26-551 "Process Waste Questionnaire" (PWQ) and Technical Response Package (TRP) shall be prepared and processed in accordance with article entitled “**Hazardous Wastes**”.

**Government Assistance** – KSC has established procedures for the handling, storage and disposal of PCB contaminated waste streams generated on the Center. To aide with proper compliance of site-specific requirements, the Government will assign a NASA Environmental Point of Contact (EPOC) for each project. The establishment of the NASA provided EPOC in no way relieves the contractor for compliance with requirements defined in 40 CFR 761.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

**LIQUIDS CONTAMINATED WITH PCBs**

PCB containers storing liquid PCBs at concentrations of 50 parts per million (ppm) or greater shall be removed from the generator accumulation site within **24 hours** from the date the PCB item was removed from service. This support shall be coordinated through the Contracting Officer for waste pickup scheduling **before** removal from service. The Contractor shall contact the Contracting Officer for pick-up and removal of all PCB related waste. The Contractor shall not remove any oil filled transformers from KSC. Unless analysis results determine PCB content in oil less than 2 ppm, the contractor shall coordinate any disposal of liquid PCBs through the Contracting officer.

**(a) For Equipment containing PCB concentration in OIL  $\geq$  500 ppm**

**LIQUIDS:** Drained oil must be stored in a DOT approved container and marked with a PCB label (with the date the equipment was removed from service). Containerized liquid PCB waste must be moved to PCB storage facility **immediately (within 24 hrs)**. Coordinate effort through EPOC - 5 day notice prior to removal from service is required.

**CARCASS or CONTAINER:** Drained equipment must be marked with a PCB label (with the date the equipment was removed from service), stored on an impervious surface, covered from rain, and moved offsite within 30 calendar days.

**(b) For Equipment containing PCB concentration in OIL  $>50$  ppm but  $< 500$  ppm**

**LIQUIDS:** Drained oil must be stored in an adequate container on an impervious surface, covered from rain, labeled, and moved offsite within 14 calendar days.

**CARCASS or CONTAINER:** Drained equipment must be stored on an impervious surface, covered from rain, labeled with PCB mark, dated and moved offsite as soon as practicable (not to exceed 180 days). If carcass paint is analyzed for PCBs and results  $< 50$  ppm - No storage, marking, or dating requirement are required under TSCA regulations. Provide analysis results to RRMF along with KSC 7-49 form to recycle.

**PCB BULK PRODUCT WASTE (SOLIDS)**

*PCB Bulk Product Waste* is defined in 40 CFR 761.3 as waste derived from manufactured products containing PCBs in a non-liquid state at any concentration, where the concentration of PCBs at the time of designation for disposal is greater than or equal to ( $\geq$ ) 50 ppm. The contractor shall dispose of all coated waste with a PCB concentration over the 50 ppm limit in the Schwartz Road landfill (see Schwartz Road Landfill Article). NASA requires all contractors generating metal-based waste containing PCB contaminated coatings with PCBs  $\leq 50$  ppm to recycle this material (see Recycling and Salvaging Article). If these materials cannot be recycled due to excessive cost in segregation or handling, the contractor shall dispose of this waste in the same manner as PCB Bulk Product Waste.

All protective coatings that contain PCB shall be handled in accordance with the requirements of

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

this section. Where Material Safety Data Sheets for protective coatings are available and indicate the presence of PCBs, sampling is not required. Where the presence of PCBs is not determined before work begins, PCBs shall be assumed to be present.

The following waste generator standards will be used for the accumulation and storage of PCB waste materials:

- (a) PCB wastes listed below may be stored temporarily at a waste generator accumulation site for up to thirty (30) days from the date removed from service. The container and labeling shall comply with the TRP. The date the PCB item was removed from service shall be marked on the container label per the TRP.
  - (1) Non-leaking articles and equipment. PCB articles are manufactured articles containing PCBs whose surfaces have been in direct contact with PCBs. These articles include capacitors, transformers, electric motors, and pumps.
  - (2) Leaking articles and equipment placed in non-leaking PCB containers with sufficient materials to absorb any liquid PCBs remaining in the item. PCB containers are any devices used to contain PCBs or PCB articles whose surfaces have been in direct contact with PCBs.
  - (3) PCB containers storing non-liquid PCB wastes such as contaminated soil and debris.
- (b) PCB containers storing liquid PCBs at concentrations of 50 parts per million (ppm) or greater shall be removed from the generator accumulation site to the PCB Storage Building (K7-115) within 24 hours from the date the PCB item was removed from service. Support shall be coordinated through designated KSC Waste Management personnel for waste pickup before removal from service date to allow for waste pickup scheduling and to avoid regulatory violations. The Contractor shall contact KSC Waste Management for pick-up and removal of hazardous/PCB waste. Documentation including the waste type, quantity, locations, and organization responsible for the waste shall be provided on KSC Form 28-809 "Waste Support Request" to KSC Waste Management when requesting waste disposal. The Contractor shall fax the waste support request to KSC Waste Management at fax 867-9466.

The Contractor shall not remove any oil filled transformers from KSC. The Contractor shall only take drained transformers to the Reutilization, Recycling and Marketing Facility (RRMF) (M6-1671) at Ransom Road. Within the six (6) month period prior to delivery to RRMF, transformers shall have an oil analysis showing PCB content. At the request of the Contractor, the CO will arrange for all sampling and testing to determine the proper handling and disposal of the transformers. If the oil sample is greater than 500 ppm, the transformer shall be removed as a hazardous/PCB waste. Within 48 hours of having the transformer ready for disposal, the Contractor shall contact the EPOC assigned to the project to coordinate with KSC Waste Management for pick-up and removal of hazardous/PCB waste. Documentation including the

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

waste type, quantity, locations, and organization responsible for the waste shall be provided on KSC Form 28-809 “Waste Support Request” to KSC Waste Management when requesting waste disposal. The EPOC shall fax the waste support request to KSC Waste Management at fax 867-9466. At the request of the Contractor, the EPOC will arrange for all sampling and testing to determine the proper handling and disposal of the stained or painted concrete. Lab analysis that is older than 6 months will not be considered valid analysis and re-sampling must be completed.

(End of Project Specific Requirement)

**J-B-27            HAZARDOUS WASTES (OCT 2015)**

- (a) Hazardous and controlled waste shall be managed in accordance with all applicable statutes, rules, orders, and regulations which may include but are not limited to 40 CFR Parts 260 - 268, 273, 279, 761 and KNPR 8500.1 KSC Environmental Requirements. All hazardous waste generated during the execution of this contract shall be disposed of by the Government. Unless directed by the Contracting officer, in no case shall the Contractor or the Contractor’s representative transport hazardous waste from KSC.
- (b) The Contractor shall be responsible for identifying processes and operations and the location and nature of all potentially hazardous and controlled waste and their containers, as defined in 40 CFR Parts 261, 273, 279, or 761. KSC has established policies and procedures in place to assist the contractor for characterization, handling and storage of wastes generated on KSC. Any request for assistance shall be in writing and submitted to the Contracting officer.
- (c) Contractor personnel generating and managing the waste shall have hazardous waste training per 40 CFR 265.16. The Contracting Officer may at any time during the course of the contract performance period require the Contractor to provide individual training records for any employee involved in the performance of this contract, and the contents of the course or courses completed to satisfy the training requirements. Attendance at KSC Training Course QG-211 "Hazardous Waste Management" will satisfy the above training requirements.
- (d) The Contractor shall prepare copies of Material Safety Data Sheets (MSDS) for each material utilized on the project and provide copies to the Contracting Officer (CO) thirty (30) days before the start of the waste generation process. No substances shall be delivered to KSC without the appropriate Material Safety Data Sheets.

**GOVERNMENT ASSISTANCE**

KSC has established procedures for the handling, storage and disposal of hazardous waste. To aide with proper compliance of site-specific requirements, the Government will assign a NASA Environmental Point of Contact (EPOC) for each project. The EPOC shall, upon request, assist with waste hazard determination, packaging, labeling, and disposal requirements for waste generated on KSC. The establishment of the NASA EPOC in no way relieves the contractor for compliance with requirements defined in 40 CFR Parts 261,

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

273, 279, or 761.

**WASTE CONTAINERS**

The Government will provide DOT compliant storage containers and labels upon request. The Contractor shall request the storage containers, by providing quantity and type needed, in writing to the Contracting Officer a minimum of one week before the required need date. The containers will be available for pickup by the Contractor at a location designated by the Contracting Officer. For projects that will be generating large quantities of waste (>500 gallon or 75 cu feet), a two week notice must be provided to the CO to ensure availability of waste containers. The Contractor shall be responsible for transporting the containers from storage location to the project site.

**SATELLITE WASTE ACCUMULATION AREA (SAA)**

The Contractor shall establish an on-site Satellite Waste Accumulation Area within 50 feet (ft) of and within sight of any point where hazardous or controlled wastes may be generated. If a Satellite Waste Accumulation Area must be more than 50 ft from the point of generation, or out of sight of the generator, the Contractor shall provide a written request to the CO fourteen (14) days before the start of the waste generating process. The CO will send a notification to the NASA Environmental Assurance Branch (EAB), SI-E2, for their review and concurrence. The EAB will then request approval for a non-routine Satellite Waste Accumulation Area from Florida Department of Environmental Protection. The Contractor shall not place the Satellite Waste Accumulation Area in service before receiving written approval of the variance from the CO. The Contractor shall store potential or identified hazardous and/or controlled wastes in the appropriate properly labeled containers inside the Satellite Waste Accumulation Area in accordance with KNPR 8500.1 (as revised).

**UNKNOWN WASTES**

If during the course of the project unidentified waste is discovered by the contractor or subcontractors, the contractor shall immediately contact the Contracting Officer and handle the waste as hazardous. The contractor shall not attempt to move, open or test any unknown commodities.

If a hazardous/nonhazardous waste determination cannot be made by process knowledge and no MSDS is available for the waste stream, the container of waste shall be marked with a Hazardous Waste Determination In Progress (HWDIP) label until chemical analysis is completed. At the request of the Contractor, the CO and EPOC will provide any analytical support required by the TRP. The EPOC will arrange for all sampling and testing of potentially hazardous or controlled waste.

If the material is hazardous, the analysis completion date serves as the accumulation start date (ASD). Waste streams labeled with HWDIP labels are a potentially hazardous waste stream; therefore they must be managed as a hazardous waste. In order to fulfill this

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

requirement, the generator shall manage those containers in a Satellite Waste Accumulation Area or 90-day storage area. HWDIP waste generated in amounts less than 55 gallons may be managed as a satellite container. If HWDIP waste is generated in amounts greater than 55 gallons, the additional volume must be moved within 72 hours to a 90-day storage site.

**UNIVERSAL WASTES (UW)**

For items meeting the definition of UW, the Contractor shall handle, collect and manage in accordance with 40 CFR 273 and Chapters 62-730 and 62-737 FAC. The EPA established Universal Waste regulations to ease the requirements for managing hazardous wastes that can be recycled. Waste streams currently adopted by the State for management as UW are rechargeable batteries, mercury-containing lamps and devices, capacitors, and certain pesticides.

The Contractor's representative or "Handler" of UW shall be trained for the proper waste handling and emergency response procedures. Attendance at the KSC training course QG-299 "Universal Waste Rule" will satisfy the above. The Contractor shall provide to the CO training records of any "handler" of UW upon request of the CO.

(End of Project Specific Requirement)

**J-B-28      RECYCLING AND SALVAGING MATERIALS (MAR 2014)**

The Contractor shall divert all of the following Construction and Demolition (C&D) waste items from the list below from disposal at landfills and incinerators to facilitate their recycling or reuse. The Contractor shall require all subcontractors, vendors, and suppliers to participate in this effort.

**GOVERNMENT PROPERTY**

All items or materials designated below to be salvaged shall remain the property of the Government and will be cleaned of non-salvable debris, segregated, itemized, delivered, and off-loaded by the Contractor at the disposal area. Scrap metal will be treated as salvage. The Contractor shall maintain adequate property control records for all materials or equipment specified by the contract to be salvaged. These records may be in accordance with the Contractor's system of property control if approved by the CO. The Contractor shall be responsible for adequate storage and protection of salvaged materials and equipment pending delivery to the disposal area. All materials and real property items identified below shall remain property of the Government unless excluded by the contracting documents. The contractor shall utilize on-site recycling and salvaging procedures for the following checked items:

☒ CONCRETE

Concrete waste must be taken to the Diverted Aggregate Recycling and Collection Yard (DARCY) located at Schwartz Road Landfill. Follow the

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

guidelines in the KSC DARCY Management Plan, which will be provided to the Contractor at the Pre-Work Conference.

- ☒ ASPHALT, LAND CLEARING DEBRIS, DIMENSIONAL LUMBER (NON-PRESSURE TREATED), WOODEN PALLETS, BLAST MEDIA (NON-CONTAMINATED)

Asphalt, Non-contaminated blast media, Non-pressure treated and unpainted wood, lumber, plywood, green waste and land clearing debris from C&D operations must be taken to the Schwartz Road Landfill. Instructions on where to stockpile these items in the landfill will be given by personnel located inside the scale house at the entrance to the landfill.

- ☒ METALS: ALUMINUM, BRASS, COPPER, REBAR, STAINLESS STEEL, STEEL, OTHER FERROUS, OTHER NON-FERROUS, SCRAP METAL

All metals coated with non-liquid PCB paints with levels below 50 parts per million shall be recycled by the contractor. Any metals coated with non-liquid PCB paints with levels above 50 ppm shall utilize the Schwartz Road Landfill after Government approval.

**REPORTING REQUIREMENT**

The Contractor shall record C&D waste materials on the “Construction & Demolition Projects Report“, KSC Form 7-648 NS (02/07) and submit the form on a monthly basis and keep log on site per direction of the Contracting Officer (CO).

(End of Project Specific Requirement)

**J-B-29      SOLID WASTE (MAR 2014)**

- (a) The Contractor shall be responsible for the proper management of all solid waste generated at the Kennedy Space Center from the execution of this contract. The Contractor shall segregate and transport all solid waste to disposal locations designated in the Contract Documents. The Contractor shall police work areas daily for loose trash and debris. The Contractor shall collect and properly dispose of wind-blown debris daily to prevent migration of debris/trash offsite.
- (b) Trash items not requiring special handling, or which cannot be resold or recycled, shall be disposed of in receptacles slated for disposal in either the KSC Landfill or the Brevard County Landfill. The Kennedy Space Center has numerous policies and processes in place to properly categorize, handle, store and dispose of waste streams generated during the project. It is the contractor’s responsibility to make every effort to reduce the impact of the project on the

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

environment. This includes utilizing all practical means to reduce the amount of waste that is landfilled or incinerated.

(End of Project Specific Requirement)

**J-B-30            DIVERTED SOLID WASTE (MAR 2014)**

The Contractor shall dispose of the following solid wastes at onsite KSC disposal facilities: Soils, Trees / tree remains, Vegetative material, Non-pressure treated wood, Dimensional non-pressure treated lumber, Pallets (Unserviceable Wood), Blast Media (non-hazardous), and **clean non-coated concrete**. The contractor shall segregate clean, unpainted concrete from other Construction and Demolition Debris and deliver it to the Kennedy Space Center's Diverted Aggregate Recycling and Collection Yard (DARCY). The DARCY is located west of the Schwartz Road Landfill entrance. The Government shall retain ownership of all material delivered to the DARCY. EPOC shall provide DARCY operating plan upon request.

(End of Project Specific Requirement)

**J-B-31            SCHWARTZ ROAD LANDFILL OPERATIONS (OCT 2015)**

- (a) The KSC Landfill is an unlined Class III landfill. Any waste permitted by DEP regulations for disposal in a Class III landfill as defined in Rule 62-701.200(14), FAC can be accepted at the landfill (**excluding friable asbestos**). The Landfill is operational 7:00 AM to 3:30 PM; however, the hours for receiving materials are limited to 7:30 to 11:00 and 12:00 to 3:00 PM. For the purpose of meeting recycling, waste diversion and reuse goals, KSC has restricted certain solid waste from landfill disposal (See **Article J-B-28, Recycling and Salvaging Materials**) Landfilling of waste shall be the Contractor's last option for disposal.
- (b) The physical dimensions of the waste shall be within the handling capabilities of the landfill disposal equipment. The physical dimensions for the landfill handling capabilities are 8 feet in length x 8 feet in width. Only the following items listed will be accepted at the landfill:
  - (1) Asphalt: Asphalt removed from parking lots, driveways, and roadways.
  - (2) Blast Media: The blast media must be as free from debris as possible and determined nonhazardous for acceptance into the KSC Landfill. The Spent Sandblast Media Disposal Form must accompany the blast media to the landfill and will be reviewed by the landfill operator. Blasting media determined to be a hazardous waste must be managed as hazardous waste.
  - (3) Carpeting
  - (4) Construction and Demolition Debris: Materials considered not water soluble and non-hazardous in nature, including but not limited to steel, brick, glass, concrete, asphalt, pipe, gypsum wallboard and non-pressure treated or unpainted lumber. This also

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

includes rocks, soils, tree remains and other vegetative matter, which normally result from land clearing or development. Scrap metal from demolition projects should be managed according to guidance provided under article entitled “Recycling and Salvaging Materials”. The landfill may not accept any painted materials that test above the lower Toxicity Characteristic Leaching Procedure (TCLP) detection limits for barium, cadmium, chromium, lead, and mercury. If TCLP results are above the lower TCLP detection limits, the Contractor shall submit a PWQ for evaluation per article entitled “Hazardous Wastes.”

- (5) Fiberglass
- (6) Glass (except light bulbs or lamps).
- (7) Non-Friable Asbestos: Non-friable asbestos, also referred to as Non-Regulated Asbestos Containing Materials (NRACM) is handled on a case-by-case basis. KSC policy allows for the disposal of NRACM only. In order to dispose of non-friable asbestos, the Contractor shall complete and submit the KSC/Schwartz Road Landfill Non-Friable Asbestos form (KSC 28-1084 NS), which can be obtained from the Contracting Officer (CO) or the CO’s designee. The form shall be sent to NASA EAB, SI-E2. The following scheduling procedures shall be followed before NRACM wastes are accepted at the landfill:
  - (i) The waste generator/hauler shall make arrangements with the landfill operator a minimum of 24 hours before disposal of NRACM waste and shall inform the operator of the quantity of the waste and the scheduled date the shipment will arrive at the landfill.
  - (ii) NRACM will be accepted at the landfill with prior arrangement with the scale house attendant (minimum of 24 hours notification) Tuesday and Thursday, excluding holidays, from 0700 hours to 1100 hours and from 1300 hours to 1500 hours.
- (8) Pallets (Unserviceable Wood and Plastics): Pallets that are not reusable or recyclable are accepted.
- (9) PCB Bulk Product Waste: Refer to Clause “PCB Management.”
- (10) Wood: Miscellaneous non-pressure treated wood items are accepted.
- (11) Yard Waste (Vegetation): Vegetation from maintenance and land clearing activities is accepted.

(End of Project Specific Requirement)

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

**J-B-32            FRIABLE ASBESTOS MANAGEMENT (MAR 2014)**

Regulated Asbestos Containing Materials (RACM) must be handled, packaged, and labeled of per EPA 40 CFR 61 and OSHA Construction Standards 29 CFR 1926.1101 prior to disposal. The contractor shall transport and dispose of all RACM at the Brevard County Landfill or similarly permitted disposal facility. The contractor shall provide confirmation of proper disposal to the CO within 7 days from the date the waste was transported from jobsite. No RACM will be authorized for disposal at any KSC waste facility.

(End of Project Specific Requirement)

**J-B-33            ASBESTOS-CONTAINING BUILDING MATERIALS (OCT 2015)**

- (a) Asbestos Containing Materials (ACM) are known to be present in facilities and or structures assigned under the scope of this contract. The Government will provide information regarding the location and quantity of known ACM in the facilities under this contract to the Contractor through the Contract Documents.
- (b) The contractor shall employ asbestos abatement contractors licensed by the State of Florida in accordance with Florida Statute 469 Asbestos Abatement. This documentation must be available onsite and shall be provided to the Government or Government representative upon request.
- (c) The Contractor shall abate all RACM as shown or specified in the contract documents and shall notify the Contracting Officer if any undocumented ACM or suspected ACM is encountered. The Contractor shall provide a written Asbestos Management and Abatement Implementation Plan which is consistent with the requirements of Federal and State regulations. These regulations include the Occupational Health and Safety Administration (OSHA) regulation 29 CFR 1926.1101, the Code of Federal Regulations (CFR) National Emission Standards for Hazardous Air Pollutants (NESHAP) 40 CFR 61 Subpart M, the Florida Administrative Code (FAC) requirements FAC 62-257, and the Florida Statute (F.S.) 469 Asbestos Abatement and F.S. 376.60 Asbestos Removal Program Inspection and Notification Fee.
- (d) If more than 260 linear feet, 60 square feet or 1 cubic meter of RACM is to be removed, or any load-bearing structure is to be demolished regardless of whether or not asbestos is present, the Contractor shall submit to the Florida Department of Environmental Protection (FDEP) a "Notice of Asbestos Renovation and Demolition Form" (DEP Form 62-257.900(1)). This notice shall be submitted two (2) weeks before demolition. A copy of the notification shall be provided to the Contracting Officer (CO) and the NASA Environmental Assurance Branch (EAB), SI-E2. This notice shall be submitted for asbestos abatement and/or demolition of any load-supporting structural member. The State asbestos removal program requirements of F.S. 376.60 and the renovation or demolition notice requirements of the NESHAP 40 CFR Part 61, Subpart M, as embodied in FAC 62-257 are included on this form. If a project will disrupt construction materials in any way, the Contractor shall complete an asbestos survey. If it is

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

unknown if ACM exist, the Contractor shall contact the COR to complete a Support Request (KSC Form 19-15) to have KSC Environmental Health provide an asbestos survey.

- (e) Asbestos materials must be handled, packaged, labeled and disposed of per EPA 40 CFR 61 and OSHA Construction Standards 29 CFR 1926.1101. All regulated asbestos waste shall be disposed of at the Brevard County Landfill located on Adamson Road in Cocoa, Florida. Non-friable asbestos can be disposed of at the KSC Schwartz Road Landfill in accordance with Environmental Procurement Clause “Schwartz Road Landfill Operations.”

(End of Project Specific Requirement)

**J-B-34            TURBIDITY & EROSION CONTROL (MAR 2014)**

The Contractor shall prevent the discharge of sediment into drainage ditches, canals, streams, rivers or lakes due to construction operations. Precautions must be made to eliminate or reduce to the greatest extent possible any discharge of soil outside established project boundaries. Installation and maintenance of silt fences must be completed prior to initial land disturbance, and the screens must be maintained so they remain functional until such time that the newly exposed soils are stabilized with sod or natural vegetation. Approved erosion control devices shall be installed to prevent discharge of sediment into any dry or wet watercourse. Erosion control shall consist of anchored hay bales, mulch and netting, filter cloth barriers or other erosion control methods specified within the contract documents and approved by the Contracting Officer. Stockpiled fill material shall not be stored in a manner which allows runoff into any watercourse.

(End of Project Specific Requirement)

**J-B-35            NOISE AND DUST CONTAINMENT (MAR 2014)**

Special measures (water suppression) shall be taken by the Contractor to limit the noise and dust migration during demolition and construction activities.

(End of Project Specific Requirement)

**J-B-36            INORGANIC ZINC (IOZ) PAINT WASTE MANAGEMENT (MAR 2014)**

IOZ paint must be segregated and managed as hazardous waste. Prior to generating any waste stream, the Contractor must provide all MSDS's and a description of waste generating processes to the assigned Environmental Point of Contact (EPOC) at least 2 weeks prior to generating wastes. The EPOC will submit PWQs to the KSC Waste Management Office. The KSC Waste Management Office will issue a TRP that lists acceptable storage container types and provides specific marking/labeling instructions. Contractor must provide a 5 psi pressure relief vent for use on all waste drums containing IOZ waste. Contractor will be provided a log for completion monthly noting amount of paint mixed, applied, and leftover generated. Provide completed log to EPOC for forwarding to KSC Waste Management Office.

**NASA/KSC SOLICITATION NNK16570600R**  
**ATTACHMENT J-B – KSC PROJECT SPECIFIC REQUIREMENTS**

(End of Project Specific Requirement)

**J-B-37            OCCUPANCY DURING CONSTRUCTION (MAR 2014)**

Facilities adjacent to the work site will be fully occupied during the construction. Care must be taken as to not disturb or interfere with existing Government operations or employees.

(End of Project Specific Requirement)

**J-B-38            CONTINUITY, TEMPORARY UTILITIES AND EXISTING UTILITY SYSTEMS (MAR 2014)**

Facilities adjacent to the work site will be fully occupied by government and government contractor employees during the project. Disruption of services shall be done in such a way to minimize the impact on building occupants. All utilities that are considered part of the demolition and affect the distribution of service into adjacent facilities and areas must be coordinated with the Contracting Officer prior to disconnecting existing utilities. Outages shall be planned and coordinated in accordance with Article J-B-1, Utility Outage, Energized Electrical Work, Electrical Hazard Analysis, and Excavation Permits. This includes utilities such as but not limited to: HVAC, Electric, Fire Alarm, Fire Protection, Water and Plumbing. When utility services are interrupted, the Contractor shall provide temporary generators, HVAC and other temporary utility provisions to maintain continuity of utility services to affected facilities and areas.

(End of Project Specific Requirement)

**J-B-39            CONTRACTOR ACCESS (MAR 2014)**

Access to existing facilities for coordination of work shall be provided on an as needed basis only with prior approval from the contracting officer. The Contractor shall notify the contracting officer a minimum of 7 days prior to requiring such access.

(End of Project Specific Requirement)

**J-B-40            MAJOR EQUIPMENT SUBMITTALS (MAR 2014)**

Major equipment submittals (i.e. AHUs, etc.) shall be unacceptable unless accompanied by all associated ductwork, piping, etc. coordination & fabrication drawings per specifications. Fire protection submittals shall be submitted within 60 days of Notice to Proceed (NTP). HVAC submittals shall be submitted within 75 days of NTP. Fire alarm and control submittals shall be submitted within 90 days of NTP.

(End of Project Specific Requirement)
